Health Nutrition And Food Demand:

Health, Nutrition and Food Demand Wen S. Chern, Kyrre Rickertsen, 2003 Over the last two decades increasing concerns about health risks related to diets have had significant impacts on food consumption patterns in the United States and Europe This timely book presents the results of several comparative studies of the impacts of health information on food consumption behavior amongst various socio economic groups and across many different countries It also provides economic analysis of food demand estimations and implications for future global food systems

Improving Compliance with Food Safety Legislation Chris Griffith, 2005 The BRG also welcomed a number of guests who spent time working with the Group on their own projects The focus has been primarily on biomedical research and clinical medicine although some work has been done in other areas The new methods allow subject based analysis to take place in ways that have not previously been possible and have led to many reports for clients and publications in journals
