Health Professions And The State In Europe:

Health Professions and the State in Europe Terry Johnson, Mike Saks, 1995 Explains and illuminates the specific relationship between health professions and the state Eight countries in Europe are examined and topical issues include market policies performance and quality professional monopolies and expertise *Health Professions and the State in Europe* Terry Johnson, Gerry Larkin, Mike Saks, 2005-08-04 Explains and illuminates the specific relationship between health professions and the state Eight countries in Europe are examined and topical issues include market policies performance and quality professional monopolies and expertise *Remodelling Hospitals and Health Professions in Europe* M. Dent, 2003-09-16 This work provides an accessible case study approach to European health care systems medicine and nursing The institutional analysis explains how welfare states have reformed hospitals and health professions with varying degrees of success

Health Law and the European Union Tamara K. Hervey, Jean V. McHale, 2004-11-04 How does the law of the European Union affect health law and policy At first sight it seems limited However despite its restricted formal competence the EU has recently become increasingly involved in the health field Litigation based on EU law has resulted in a right to receive health care services across national boundaries which may have huge practical implications for national health systems The EU has promulgated legislation regulating clinical research and the marketing of pharmaceuticals patients rights are affected by EU legislation on data protection and product liability the qualifications of health care professionals are legally recognised across the EU and the EU has acted to promote public health This book explores the various impacts of measures of EU law on national health law and policy Through elaboration of selected examples the authors show that within the EU health law cannot be regarded as a purely national affair

Regulating the Health Professions Judith Allsop, Mike Saks, 2003-02-27 It has particular appeal for health care professionals and managers with an interest in corporate and clinical governance British Journal of Perioperative Nursing In recent years the health professions have been subject to unprecedented regulatory changes Exposure of poor practice provoked widespread criticism of self regulation and calls for a system in which the interests of health care consumers and employers are more fully recognized Examining the historical and contemporary context Regulating the Health Professions provides an in depth analysis of professional self regulation and the implications of regulatory change for the future of health care Part One sets out general regulatory issues in the healthcare arena with chapters covering the impact of globalization on the professions the purpose of professional regulation the legal context of regulation and the significance of professional codes of ethics In Part Two issues specific to the different professions are explored through chapters on medicine nursing dentistry the professions allied to medicine clinical psychology and alternative medicine This extremely topical book will be of interest to students educators and researchers in a wide range of disciplines including sociology social policy politics and health studies and to healthcare professionals and their managers

The Politics of Health in Europe Richard Freeman, 2000 This book is explicitly

comparative and comparison is essential to the analyses it develops The book is explicitly concerned with the liberal democracies of western Europe The countries covered in detail here Italy Sweden and the UK and France and Germany constitute a purposive sample The distinction between national health services and social insurance systems is not real but an abstract formulation which makes a wealth of information more manageable Choosing these countries makes sense not because they are somehow representative of general types but because between them they are indicative of particular sets of problems in the politics of health and health care The working assumption here is that the public provision of health care is embedded in a distinctively European politics

Health at a Glance: Europe 2024 State of Health in the EU Cycle OECD, European Commission, 2024-11-18 The 2024 edition of Health at a Glance Europe examines the major challenges facing European health systems in the aftermath of the COVID 19 pandemic The report includes two thematic chapters The first chapter provides a comprehensive examination of health workforce shortages in Europe a long standing problem exacerbated by the immense strain the pandemic placed on health systems It explores the factors behind these shortages and proposes policy strategies to attract train and retain the workforce needed to build resilient health systems The second chapter reviews the most recent trends in the health of Europe s ageing population With life expectancy continuing to rise and the share of the population over 65 growing steadily the chapter discusses priorities to promote healthy longevity to reduce demands on health and long term care systems The remaining chapters provide a comparative overview of the latest data on health status risk factors and health system performance across the 27 EU member states 9 EU candidate countries 3 European Free Trade Association countries and the United Kingdom Health at a Glance Europe 2024 is the first step in the State of Health in the EU cycle

European Union Health Law Tamara K. Hervey, Jean V. McHale, 2015-11-12 The first holistic and thematic study of EU health law and its implications through its own internal logics

National Health Services of Western Europe Guido Giarelli, Mike Saks, 2023-08-14 This book draws on research within neo Weberian and neo institutionalist perspectives to critically analyse National Health Services NHSs in Western Europe Exploring the challenges posed by neo liberal policies it also looks at the impact of the role of the state the medical profession the public and the medical industrial complex in their development Bringing together a top line range of expert international contributors this book includes national studies from three European macro regions Britain Scandinavia and the Mediterranean In the first part the NHSs of each country considered are examined historically and in a contemporary context in face of emerging challenges from cost containment to governance The second part looks across the macro regions at the influence of the main actors involved in their evolution and sustainability Comparing and contrasting the NHSs of Western Europe the book ends with a discussion of future directions This book makes a vital contribution at a time when health services globally have been under great pressure in the wake of the COVID 19 pandemic It is written for academics and advanced students of healthcare management public policy social policy and sociology in addition to health professionals and

policymakers **Support Workers and the Health Professions in International Perspective** Mike Saks, 2020-07-23
 Health care support workers HSWs play a fundamental role in international health care systems and yet they remain largely invisible Despite this the number of HSWs is growing fast as governments strive to combat illness and address social care issues in a world of finite resources This original collection analyses the global experience of HSWs in the UK Japan Australia Brazil Canada Portugal Sweden and The Netherlands Leading academics examine issues including the interface of HSWs with the health professions regulatory practice risks employment challenges and the dilemmas of an ageing population Crucial future policy recommendations are also made for a world becoming increasingly dependent on HSWs **The Routledge Companion to the Professions and Professionalism** Mike Dent, Ivy Lynn Bourgeault, Jean-Louis Denis, 2016-07-01 The Routledge Companion to the Professions and Professionalism is a state of the art reference work which maps out the current developments and debates around the sociology of the professions and how they relate to management and organizations Supported by an international contributor team specializing in the disciplines of organizational studies and sociology the collection provides extensive coverage of this field of research It brings together the core concepts and issues and has chapters on all the key aspects of professions in both the public and private sectors including issues of governance and regulation The volume closes with a set of international case studies which provide valuable practical insights into the subject This Companion will be an indispensable reference source for students scholars and educators within the social sciences especially within management organizational studies and sociology It will also be highly relevant for those working and studying in the area of professional education **Medicine, Risk, Discourse and Power** John Martyn Chamberlain, 2015-11-19 This book critically explores from a comparative international perspective the role medicine plays in constructing and managing natural and social risks including those belonging to modern medical technology and expertise Drawing together chapters written by professional practitioners and social scientists from the UK South America Australia and Europe the book offers readers an insightful and thought provoking analysis of how modern medicine has transformed our understanding of both ourselves and the world around us but in so doing has arguably failed to fully recognize and account for its unintended and negative effects This is an essential read for social scientists practitioners and policymakers who want to better understand how they can develop new ways of thinking about how modern medicine can promote social goods and enhance public health European Communities' Health and Safety Legislation A.C. Neal, F.B. Wright, 2006-01-16 This important new book presents the background to the modern programme of European Community initiatives tracing the origins of a European policy on occupational health and safety and looking at the progressively expanding ambitions of Commission Action Programmes in this field **The Professions, State and the Market** Mike Saks, 2015-06-05 This unique book enhances our understanding of the links between professions the state and the market and their implications for the public in terms of professional practice In so doing the book adopts a neo Weberian perspective in which professions are

seen as a form of exclusionary social closure based on legal boundaries established by the state To illustrate the overarching theme the book considers how healthcare in general and medicine in particular as a form of professional work is organized in public and private arenas in three societies with different socio political philosophies namely Britain the United States and Russia As such it examines the varying extent to which the development of independent professional organizations has been enhanced or restricted in public as compared to more privatized social contexts The comparative perspective adopted in this book thereby provides insight into the organization of professional work in different contexts and the all important effects of this on delivery to the public This book will be of particular interest to scholars researchers and students of Management Public Policy and Health Care Human Resources For Health In Europe Dubois, Carl-Ardy,Nolte, Ellen,McKee, Martin,2005-12-01 This book analyses how the current regulatory processes and practices related to key aspects of the management of the health professions may facilitate or inhibit the development of effective responses to challenges facing health care systems in Europe The authors document how health care systems in Europe are confronting existing challenges in relation to the health workforce and identify the strategies that are likely to be most effective in optimizing the management of health professionals in the future **Health Care Professions in the Member States of the European Community** G. H. France,Lesley J. Colquhoun,Commission of the European Communities,1985 Rethinking professional governance Kuhlmann, Ellen,Saks, Mike,2008-04-09 This original and innovative book opens up new perspectives in health policy debate examining the emerging international trends in the governance of health professions and the significance of national contexts for the changing health workforce In bringing together research from a wide range of continental European countries as well as the United Kingdom Canada and Australia the contributors highlight different arenas of governance as well as the various players involved in the policy process They expand the public debate on professional governance hitherto mainly limited to medical self regulation to encompass a broad span of health care providers from nurses and midwives to alternative therapists and health support workers The book provides new data and geopolitical perspectives in the debate over how to govern health care It helps to better understand both the enabling conditions for and the barriers to making professionals more accountable to the interests of a changing public This book will be a valuable resource for students at an undergraduate and postgraduate level particularly for health programmes sociology of professions and comparative health policy but also for academics researchers and managers working in health care **Doctors and the State** Dorothy Mutizwa-Mangiza,2018-08-13 Published in 1999 the main aim of this text is to examine the nature of professional control medical practice and the state of health services in a post colonial state and the medical profession in Zimbabwe since 1980 The text reviews the theories of professions and professional control and medical practice it concludes by examining the nature of the Zimbabwean state The chapter on methodology highlights some of the ethical dilemmas of carrying out research in developing countries The book then goes on to review health services and policies of both the colonial and post

colonial governments in Zimbabwe Three chapters discuss the nature of medical practice and the constraints encountered by doctors in their work the terms and conditions of service under which doctors work and the nature of medical regulation of education licensing and discipline including issues such as malpractice and litigation Throughout the book comparisons are made with situations in other countries both developed and developing and the main conclusions of the book are that medical doctors in Zimbabwe have minimal administrative restrictions on the type of treatment which they can carry out but the unavailability and breakdown of essential equipment shortages of essential drugs and staff limit the doctors autonomy to carry out the treatment that they consider necessary
