

Health Needs Assessment In Practice

John Wright

Health Needs Assessment In Practice

David Pencheon

Health Needs Assessment In Practice:

Health Needs Assessment In Practice John Wright,1998-08-10 This is a practical introduction to understanding and undertaking health needs assessment a key issue in primary care The different assessment methods including surveys and patient views are given a straightforward analysis and there is invaluable advice on how to measure their effectiveness

Health Needs Assessment Jane Robinson,1996 *Practice Based Health Needs Assessment: Use of Four Methods in a Small Neighbourhood* S. Murray, **Health Care Needs Assessment** Ian Higginson,2018-04-19 This volume focusing on

palliative and terminal care is part of a survey of health care needs for specific conditions published on behalf of the Department of Health This study overall considers questions such as the population s needs the services available or unavailable to them the effectiveness of these services and other perspectives in disease and service areas This is the second series of needs assessment reviews Health Care Needs Assessment P. Dey,2018-04-19 This volume focusing on breast

cancer is part of a survey of health care needs for specific conditions published on behalf of the Department of Health This study overall considers questions such as the population s needs the services available or unavailable to them the effectiveness of these services and other perspectives in disease and service areas This is the second series of needs

assessment reviews **Advancing Clinical Governance** Jonathon Secker-Walker,Myriam Lugon,2023-04-21 The follow up to Clinical Governance Making it Happen considers the implications of clinical governance for a wide range of health care professionals including nurses medical directors and chief executives The contributors examine the role of the new government organisation NICE the responsibilities of those working for NHS organisations and the benefits of patient involvement Advancing Clinical Governance will enable health professionals to implement clinical governance effectively and

with confidence Developing Research in Primary Care Mike Saks,Martin Williams,Beverley Hancock,2018-04-19 The rapid development of NHS trusts is making unprecedented demands on those responsible for strategic planning and management for which many are unprepared This manual is based upon the experience of those who have faced the questions and found the answers It is intended for all those involved in Trust management The questions are not all board level strategic questions some are quite mundane and managerial However the questions will have to be asked and the answers will determine what it is like to work within the organization be one of its patients or a user of its services

Health Care Needs Assessment Andrew Stevens,James Raftery,1997 This is a survey of health care needs for specific conditions published on behalf of the Department of Health This study considers questions such as the population s needs the services available or unavailable to them the effectiveness of these services and other perspectives in disease and service areas This is the second series of needs assessment reviews *Oxford Handbook of Public Health Practice* David

Pencheon,2006 This is a practical public health book written by public health practitioners for public health practitioners It introduces learning practitioners to the early phases of approaching a public health issue details why an issue is important

and exactly how it can be analysed and addressed It deals not only with the technical issues but crucially with how those technical issues can be implemented in order to improve the health of the population directly or via one of many important causal pathways quality of health care design and delivery It is written by experienced internationally known practitioners of public health

Researching Health Needs Judy Payne,1999-12-21 Researching Health Needs is an easy to use introductory guide to the main social research techniques used to gather evidence about the health needs of local communities The reader is taken through the process of producing evidence from the initial planning stages of research to writing up getting the message across and trying to influence policy and practice All of the methods are described in a simple and as far as possible non technical way and are extensively illustrated with concrete examples from existing studies The author has adopted a comprehensive and at times imaginative approach to applied social research Key features of the text include coverage of both social survey methods

Commissioning for Health and Well-Being Jon Glasby,2012-01-18 Commissioning is now a key task for health and social care and yet policy aspirations often outstrip the infrastructure needed to support commissioners as they take difficult decisions about future services and to make commissioning a career of choice for future leaders While commissioning was important under New Labour it seems set to be even more fundamental now as commissioners think about future services in an era of austerity Against this background this is the first comprehensive text on a key area of management practice exploring what commissioning is where it has come from and where it might be taking us With a wide range of leading contributors from fields including health care social care local government the book takes students practitioners and managers through key stages of the commissioning cycle as well as addressing cross cutting themes such as the economics of commissioning user involvement and commissioning in an era of personalisation It is essential reading for everyone involved in the planning and delivery of health and social care for social policy students health and social care practitioners managers and policy makers alike

Assessing Health Needs of People from Minority Ethnic Groups Salman Rawaf,Veena Bahl,1998
