and remains a major contributor to America's obesity epidemic. Government policies targeted food industry advertising and other factors helped create and reinforce fast food consumption in America's urban communities. Historian Chin Jou uncovers how predominantly African American neighborhoods went from having no fast food chains to being deluged. She lays bare the federal policies that helped to subsidize the expansion of the fast food industry in America's cities and explains how fast food companies have deliberately and relentlessly marketed to urban African American consumers. These developments are a significant factor in why Americans, especially those in urban low-income minority communities, have become disproportionately affected by the obesity epidemic. In the century after the Civil War, an economic revolution improved the American standard of living in ways previously unimaginable. Electric lighting, indoor plumbing, motor vehicles, air travel, and television transformed households and workplaces. But has that era of unprecedented growth come to an end? Weaving together a vivid narrative, historical anecdotes, and economic analysis, *The Rise and Fall of American Growth* challenges the view that economic growth will continue unabated and demonstrates that the life-altering scale of innovations between 1870 and 1970 cannot be repeated. Gordon contends that the nation's productivity growth will be further held back by the headwinds of rising inequality, stagnating education, an aging population, and the rising debt of college students and the federal government, and that we must find new solutions. A critical voice in the most pressing debates of our time, *The Rise and Fall of American Growth* is at once a tribute to a century of radical change and a harbinger of tougher times to come. **Sport Nutrition for Health and Performance** Melinda Manore, Nanna L. Meyer, Janice Thompson, 2009. The authors sort fact from fiction to help students and practitioners of sports nutrition present sound advice to athletes on correct nutrition and dietary requirements.
