Hearing Differently The Impact Of Hearing Impairment On Family Life:

Hearing Differently Ruth Morgan-Jones, 2001-01-02 Hearing loss now strikes one in seven people but how to study the impact of hearing loss on relationships has continually baffled researchers The authors personal experience with profound hearing loss and her roles as wife mother social worker and counsellor suggest that the complexities involved might be fruitfully explored by using an intensive and repetitive interviewing technique This book explores and analyses 150 in depth interviews with hearing impaired people including eleven couples in committed relationships where one partner is hearing and the other is hearing impaired Detailed information was obtained about the way each couple managed conflict decision making household chores communication and perceived the hearing impairment within their relationship Five major strands emerge intimate family relationships social support networks communication strategies the nature of care and recommendations for social policy By drawing from the fields of family therapy marital therapy counselling family sociology social policy psychology social psychology and linguistics as well as disability and deafness a new broader and more positive picture emerges This ground breaking book is aimed at professionals who would like to work more effectively with deaf and hearing impaired people Although not a How to Cope book it will also interest hearing impaired people themselves because of the enormous number of insights offered

Hearing Impairment and Hearing Disability Anthony Hogan, Rebecca Phillips, 2016-03-09 The purpose of this book is to challenge people service providers people with a hearing disability and those who advocate for them to reconsider the way western society thinks about hearing disability and the way it seeks to include them It highlights the concern that the design of hearing services is so historically marinated in ableist culture that service users often do not realise they may be participating in their own oppression within a phono centric society With stigma and marginalisation being the two most critical issues impacting on people with hearing disability Hogan and Phillips document both the collective and personal impacts of such marginality In so doing the book brings forward an argument for a paradigm shift in hearing services Drawing upon the latest research and policy work the book opens up a conceptual framework for a new approach to hearing services and looks at the kinds of personal and systemic changes a paradigm shift would entail

Living with Hearing Difficulties Dafydd Stephens, 2009-10-12 *Living with Hearing Difficulties* is a source book for professionals who encounter and support individuals with hearing difficulties It will also be of interest to people with hearing difficulties themselves and those close to them The book highlights the concept of audiological enablement as being an interactive process requiring the active involvement of both clinician and patient The thirteen chapters encompass four sections which broadly follow the categories of the World Health Organization's ICF 2001 Section 1 addresses types of hearing disorders the impairments they cause and also the process of help seeking Section 2 deals with the effects of hearing impairment on communication and psychosocial functioning Section 3 considers the individual in their environment their family work and leisure Section 4 elaborates on the process of enablement in a non prescriptive manner The authors

approach the problems and needs from the standpoint of what the patient client is seeking Enablement is seen as a team effort between the professionals the patient and their family in an ever changing environment This entails using any relevant techniques to ensure the well being of the individual with hearing impairment that end remains very much their goal The book also has a companion website www.wiley.com/go/stephens which hosts additional downloadable documents as well as a demonstration of the concept of the signal to noise ratio Adult Audiologic Rehabilitation, Third Edition Joseph J.
