High-yield Heart Ronald W. Dudek, 2006 High Yield Heart is the second in a series of High Yield Systems books by a best selling medical textbook author that cover the basic sciences of the medical school curriculum using a systems based approach This approach helps students integrate their first two years course material and offers excellent preparation for USMLE Step 1 and clinical rotations Chapters cover each basic science embryology gross anatomy radiology histology physiology pathology microbiology and pharmacology as it relates to the heart and cardiovascular system The book is replete with radiographs CT and MRI scans and micrographs of normal tissue and pathologic conditions Sections of the book are tabbed for easy reference

Pediatric Anesthesia: A Problem-Based Learning Approach Kirk Lalwani, Ira Todd Cohen, Ellen Y. Choi, Vidya T. Raman, 2018-10-15 Linking existing knowledge to new knowledge by presenting it in the form of a case or a problem is a popular and effective educational approach resulting in better retention of the knowledge and improved ability to apply that knowledge to solve real problems This problem based learning PBL method was introduced into medical education at McMaster University in Ontario Canada in 1969 Since then it has been widely incorporated into secondary undergraduate and graduate education in a variety of disciplines worldwide This new volume for the Anesthesiology Problem Based Learning series reviews pediatric anesthesia utilizing the PBL approach Each chapter deals with conditions and problems in pediatric anesthesia practice presented as a case stem with questions to encourage critical thinking followed by an evidence based discussion and multiple choice questions for self assessment Cases were carefully selected to present a broad systems based tour of commonly encountered clinical cases in pediatric anesthesia The book can be used to review an upcoming clinical case or as a PBL tool The Stem Case and Key Questions and Discussion sections can serve as the basis for interactive learning experiences for study groups or as a broad yet in depth clinical review of the subspecialty for the individual learner Self assessment questions can be used as a measure of knowledge acquisition or simply as a question bank to prepare for examinations
