Heart of the Blue Ridge Randolph P. Shaffner, 2001 On March 6 1875 Sam Kelsey and C C Hutchinson paid 2 an acre for just over a square mile of the Sugartown Highlands in the Blue Ridge Mountains and began building a town 4 000 feet above the clouds Perched on the shoulders of Satulah Fodderstack Black Rock Whiteside and Shortoff mountains the Highlands Plateau was shaded by primeval forests of giant hardwoods and pyramidal pines and drained by quiet crystal streams and thundering cataracts that plunged over precipitous crags and down laurel fringed gorges Offering restoration of health and soul this paradisial settlement provided common ground for settlers from both the North and South a decade after their great Civil War By 1883 300 immigrants from twenty seven Northern and Southern states were calling Highlands home This is a history of the origin and growth of a town with a Northern climate set high in the South including the ever continuing struggle between those who would preserve and those who would exploit its unique appeal to year round residents and summer visitors In its attempt to be all inclusive this book contains much detail but it also embodies a collection of matchless characters and personalities and their stories that have given the town and its history remarkable color and enduring interest In short the big world is here mirrored in the small world where little things that happen are no less important indeed more so

**Creating the Land of the Sky** Richard D. Starnes, 2010-03-12 A sophisticated inquiry into tourism s social and economic

power across the South In the early 19th century planter families from South Carolina Georgia and eastern North Carolina left their low country estates during the summer to relocate their households to vacation homes in the mountains of western North Carolina Those unable to afford the expense of a second home relaxed at the hotels that emerged to meet their needs This early tourist activity set the stage for tourism to become the region's New South industry After 1865 the development of railroads and the burgeoning consumer culture led to the expansion of tourism across the whole region Richard Starnes argues that western North Carolina benefited from the romanticized image of Appalachia in the post Civil War American consciousness This image transformed the southern highlands into an exotic travel destination a place where both climate and culture offered visitors a myriad of diversions This depiction was further bolstered by partnerships between state and federal agencies local boosters and outside developers to create the attractions necessary to lure tourists to the region As tourism grew so did the tension between leaders in the industry and local residents The commodification of regional culture low wage tourism jobs inflated land prices and negative personal experiences bred no small degree of animosity among mountain residents toward visitors Starnes's study provides a better understanding of the significant role that tourism played in shaping communities across the South
