### **Knowledge in the Blood**

Jonathan D. Jansen, 2009-04-07 This book tells the story of white South African students how they remember and enact an Apartheid past they were never part of How is it that young Afrikaners born at the time of Mandela s release from prison hold firm views about a past they never lived rigid ideas about black people and fatalistic thoughts about the future Jonathan Jansen the first black dean of education at the historically white University of Pretoria was dogged by this question during his tenure and Knowledge in the Blood seeks to answer it Jansen offers an intimate look at the effects of social and political change after Apartheid as white students first experience learning and living alongside black students He reveals the novel role pedagogical interventions played in confronting the past as well as critical theory s limits in dealing with conflict in a world where formerly clear cut notions of victims and perpetrators are blurred While Jansen originally set out simply to convey a story of how white students changed under the leadership of a diverse group of senior academics Knowledge in the Blood ultimately became an unexpected account of how these students in turn changed him The impact of this book s unique wide ranging insights in dealing with racial and ethnic divisions will be felt far beyond the borders of South Africa

unique perspective on religion as source of division and healing      Mourning Become... Liz Stanley, 2006-10-17 This work demonstrates that much of what we have traditionally understood about concentration camps run by the British during the South African War originates with the testimony solicited from Boer proto nationalist circles Using detailed archival evidence Stanley shows that much of the history of the camps results from a deliberate imposition of post memory a process by which memory shapes and supports a racialized nationalist framework      *Narratives of Nation Media, Memory and Representation in the Making of the New South Africa* Charmaine McEachern, 2002 Narratives of Nation Media Memory Representation in the Making of the New South Africa      **Collective Violence and the Agrarian Origins of South African Apartheid, 1900-1948** John Higginson, 2014-11-24 This book examines the dark odyssey of official and private collective violence against the rural African population and Africans in general during the two generations before apartheid became the primary justification for the existence of the South African state John Higginson discusses how Africans fought back against the entire spectrum of violence ranged against them demonstrating just how contingent apartheid was on the struggle to hijack the future of the African majority      *From Protest to Challenge* Gail M. Gerhart, Clive Glaser, 2010      *Africa* Air University (U.S.). Library, 1996      **From the Barrel of a Gun** Gerald Horne, 2015-12-01 In November 1965 Ian Smith's white minority government in Southern Rhodesia now Zimbabwe made a unilateral declaration of independence breaking with Great Britain With a European population of a few hundred thousand dominating an African majority of several million Rhodesia's racial structure echoed the apartheid of neighboring South Africa Smith's declaration sparked an escalating guerrilla war that claimed thousands of lives Across the Atlantic President Lyndon B Johnson nervously watched events in Rhodesia fearing that racial conflict abroad could inflame racial discord at home Although Washington officially voiced concerns over human rights violations an attitude of tolerance generally marked U S relations with the Rhodesian government sanctions were imposed but not strictly enforced and hundreds perhaps thousands of American mercenaries joined white Rhodesia's side in battle with little to fear from U S laws Despite such tacit U S support Smith's regime fell in 1980 and the independent state of Zimbabwe was born The first comprehensive account of American involvement in the war against Zimbabwe this compelling work also explores how our relationship with Rhodesia helped define interracial dynamics in the United States and vice versa
