Eli Bornstein Eli Bornstein, Jonneke Fritz-Jobse, Mendel Art Gallery, 1996 **Eli Bornstein** Eli Bornstein, 2007

Abstract Painting in Canada Roald Nasgaard, Art Gallery of Nova Scotia, 2008 In the tradition of the distinguished Douglas McIntyre art program this lavishly illustrated and superbly printed book is a rich readable history of abstract painting in Canada The story begins in the 1920s with the sometimes eccentric but remarkable work rooted in symbolism and theosophy of pioneers such as Kathleen Munn Bertram Brooker and Lawren Harris Two decades later the Automatistes Canada's first truly independent avant garde art movement burst onto the scene in Montreal After the Second World War the urge to abstraction spread across Canada manifesting itself in significant regional movements Vancouver painters retained a British flavour while in Toronto the Painters Eleven looked south to New York Montreal's Plasticiens launched their own razor edged interpretation of the European tradition of geometric abstraction In the sixties and seventies the Prairies were influenced by Clement Greenberg's post painterly abstraction while Halifax became a hub of conceptual art and concrete painting The book continues through the eighties and nineties during which critics largely denounced painting and concludes in the twenty first century with abstract painting alive and well again in the studios of Canada's young artists A monumental tome containing 200 color reproductions it mines a rich vein of art history ripe for international discovery De Stijl Continued Jonneke Jobse, 2005 From 1958 to 1964 the journal Structure was a major platform for artists reconsidering the design tenets and underlying principles of the Bauhaus Constructivism and De Stijl This book explores the artists body of ideas in meticulous detail *A Very Sacred Experience* Eli Bornstein, Roald Nasgaard, 2022-09-20 In celebration of his 100th birthday Eli Bornstein in collaboration with author and curator Roald Nasgaard has published a stunning work of personal reflection on a most transformative time in his life and career *A Very Sacred Experience* Eli Bornstein's Arctic Journals 1986 and 1987 is a tribute to the Canadian North a meditation on artistic creation and a window onto the ideological musings of Canada's greatest Structurist artist Devoid of the mythologizing other artists have given their writing on the North Bornstein's journals are introspective insightful and sometimes funny Comprised of personal journal entries from two northern trips he took with photographer Hans Dommasch along with watercolour studies Structurist reliefs and a personal collection of poems Bornstein's work is a vital reminder of our outsized influence over the natural world and an invitation to recognize our need for nature in our life and in our art Bornstein's publishing of *A Very Sacred Experience* is the culmination of a life's work on reconciling himself with nature and the understanding our very existence **The Organic School of the Russian Avant-Garde** Professor Isabel Wünsche, 2015-10-28 The artists of the Organic School of the Russian avant garde found inspiration as well as a model for artistic growth in the creative principles of nature Isabel Wünsche analyzes the artistic influences intellectual foundations and scientific publications that shaped the formation of these artists Particular emphasis is given to the holistic worldviews and organic approaches prevalent among artists of the pre revolutionary avant garde and

Botar, 2017-07-05 Examining the complex intersections between art and scientific approaches to the natural world Biocentrism and Modernism reveals another side to the development of Modernism While many historians have framed this movement as being mechanistic and against nature the essays in this collection illuminate the role that nature centric ideologies played in late nineteenth to mid twentieth century Modernism The essays in Biocentrism and Modernism contend that it is no accident that Modernism arose at the same time as the field of modern biology From nineteenth century discoveries to the emergence of the current environmentalist movement during the 1960s artists architects and urban planners have responded to currents in the scientific world Sections of the volume treat both philosophic worldviews and their applications in theory historiography and urban design This collection also features specific case studies of individual artists including Raymond Duchamp Villon Paul Klee Wassily Kandinsky and Jackson Pollock The Structurist ,2005
