Elmira And Chemung Valley Trolleys In The Southern Tier:

Elmira and Chemung Valley Trolleys in the Southern Tier William Reed Gordon, 1970 *The Electric Pullman* Lawrence A. Brough, 2013-04-18 A history of the Ohio railroad car and equipment company and its 16 year run Entering an already crowded and established industry the Niles Car Manufacturing Company in Ohio began business with surprising success producing well over 1 000 electric and steam railway cars cars so durable they rarely needed to be replaced That durability essentially put the company out of business and it vanished from the scene as quickly as it had appeared leaving little behind except its sturdy railway cars The story of this highly regarded company spans just 16 years from Niles s incorporation in 1901 to the abandonment of railway car production and sale of the property to a firm that would briefly build engine parts during World War I Including unpublished photographs and rosters of railway cars produced by the company and still in existence in railroad museums The Electric Pullman will appeal to railroad enthusiasts everywhere Praise for The Electric Pullman Required reading for anyone interested in interurban history It holds additional appeal for those interested in Ohio history or the junction point between business society and technology Lexington Quarterly Although not one of the major manufacturers in its field the Niles company produced some notable and well remembered equipment during the height of the electric interurban railway era Indeed among some interurban railway historians Niles cars are sacred objects As such its story deserves to be told and theoretically would be a logical complement to IUP s books on the Brill and Jewett companies Brough himself is a serious historian who knows his subject and has clearly mined all the sources that seem to exist Herbert H Harwood Jr author of *The Railroad that Never Was* and *The New York Westchester Boston Railway* *Encyclopedia of Local History* Carol Kammen, Norma Prendergast, 2000 How is local history thought about How should it be approached Through brief succinct notes and essay length entries the Encyclopedia of Local History presents ideas to consider sources to use historical fields and trends to explore It also provides commentary on a number of subjects including the everyday topics that most local historians encounter A handy reference tool that no public historian s desk should be without *From Small Town to Downtown* Lawrence A. Brough, James H. Graebner, 2004-04-06 The Jewett Car Company was born in the heyday of the electric railway boom in the 1890s The company gained an excellent reputation for its elegant well built wooden cars for street railway companies interurban lines and rapid transit service Cities large and small used Jewett cars including New York Boston Chicago and San Francisco Many Jewett cars found their way to Indiana and many of the interurban lines employed the graceful arch windowed wood interurban that Jewett was famous for Automobile competition and the problems of competing with much larger car builders such as J G Brill and the St Louis Car Company signaled the beginning of the end The company was offered the opportunity to produce munitions for World War I but refused The reason the major source of finance for Jewett was a German nationalist banker from Wheeling West Virginia who refused to have the company do anything to harm Germany As a direct result of that action the Jewett Car Company failed **A Great Day for Elmira**
