The Invention of Terrorism in Europe, Russia, and the United States Carola Dietze, 2021-07-27 Terrorism s roots in Western Europe and the USA This book examines key cases of terrorist violence to show that the invention of terrorism was linked to the birth of modernity in Europe Russia and the United States rather than to Tsarist despotism in 19th century Russia or to Islam sects in Medieval Persia Combining a highly readable historical narrative with analysis of larger issues in social and political history the author argues that the dissemination of news about terrorist violence was at the core of a strategy that aimed for political impact on rulers as well as the general public Dietze s lucid account also reveals how the spread of knowledge about terrorist acts was from the outset a transatlantic process Two incidents form the book s centerpiece The first is the failed attempt to assassinate French Emperor Napol on III by Felice Orsini in 1858 in an act intended to achieve Italian unity and democracy The second case study offers a new reading of John Brown s raid on the arsenal at Harpers Ferry in 1859 as a decisive moment in the abolitionist struggle and occurrences leading to the American Civil War Three further examples from Germany Russia and the US are scrutinized to trace the development of the tactic by first imitators With their acts of violence the invention of terrorism was completed Terrorism has existed as a tactic since then and has essentially only been adapted through the use of new technologies and methods

relationship between state regulation and private initiative in the economy *Essays in Ottoman and Turkish History, 1774-1923* Roderic H. Davison, 2013-09-13 The effect of Western influence on the later Ottoman Empire and on the development of the modern Turkish nation state links these twelve essays by a prominent American scholar Roderic Davison draws from his extensive knowledge of Western diplomatic history and Turkish history to describe a period in which the actions of the Great Powers incipient and rising nationalisms and Westernizing reforms shaped the destiny of the Ottoman Empire and the creation of the new Turkish Republic Eleven of the essays were previously published in widely scattered journals and multi authored volumes The first of these provides a general survey of Turkish and Ottoman history from early Turkish times to the end of the Empire The following essays continue chronologically from 1774 detailing some of the changes in the nineteenth century Empire Several themes recur One is the impact of Western ideas and institutions and the resistance to that influence by some elements in the Empire Another concerns the diplomatic pressure exerted by the Great Powers of Europe on the Empire which amounted at times to direct intervention in Ottoman domestic affairs Taken together the essays portray a confluence of civilizations as well as a clash of cultures Professor Davison has written an interpretive introduction that sets out the historical trends running throughout the book In addition he includes a previously unpublished article on the advent of the electric telegraph in the Ottoman Empire to show how the adoption of a Western technological advance could affect many areas of life Of particular interest to students of Ottoman and Middle East history these essays will also be valuable for everyone concerned with modernization in developing nations Davison s interpretations and keen methodological sense also shed new light on several aspects of European diplomatic history **A History of Russia: Medieval, Modern, and Contemporary** Paul Dukes, 1974 *Library of Congress Subject Headings* Library of Congress, Library of Congress.
