Health Economics And Politics In Canada

Keith Banting, John Myles

Health Economics And Politics In Canada:

The Political Economy of Health and Healthcare Jalil Safaei, 2020-02-28 Health may be defined as a state of balance in our body mind and soul When this balance is disturbed so is our health However the balance in our health is fundamentally related to the balance in our society Imbalances in our societies particularly of a socioeconomic nature would naturally affect our inner balance and health Hence this book argues that imbalances in the distribution of socioeconomic resources have led to inequities in health both within and between nations It systematically explores the roots of inequalities in markets as the dominant distributive mechanisms in advanced capitalist economies to show their inherent biases against the poor and less powerful It also describes the various social protections that have been put in place in the post war era to protect the vulnerable among us and documents how such protections have been rolled back with the rise of neoliberalism especially after the recent financial crisis It calls for social medicine both in the sense of understanding health as the outcome of social conditions and as the necessity of a collective approach for addressing health inequities through a social polity as it contains the costs and sustains the healthcare systems

Canadian Policy Debates and Case Studies in Honour of David Laidler Robert Leeson, 2009-12-18 This volume brings together some of the world s leading economists to focus primarily on Canadian policy issues and case study debates in honour of David Laidler Commemorating his success and active participation in the research and analysis of monetary policy

HEALTH ECONOMICS: A GLOBAL PERSPECTIVE Dr. Arun B Prasad, 2024-05-18 The study of health economics is a branch that focuses on issues that pertain to the production and consumption of health and healthcare These issues include questions about efficiency efficacy value and behavior The area of health economics is an important one to study since it is concerned with determining ways to improve health outcomes and lifestyle patterns via interactions between individuals healthcare workers and clinical settings Health economists in a broad sense research the functioning of healthcare systems as well as behaviors that have an effect on health such as quitting smoking acquiring diabetes and being overweight In addition they look into the factors that influence health A big obstacle that develops in the subject of healthcare economics is the fact that it does not correspond to the usual rules that govern economics This is one of the most important obstacles that arises in this sector Both the cost of the service and its level of quality are often concealed by the third party payer system which is comprised of different entities such as insurance companies and employers One further thing to take into consideration is the fact that the Quality Adjusted Life Years QALY measure which is one of the metrics that is used for treatments the most often is very difficult to quantify and is based on assumptions that are sometimes not warranted It is generally agreed upon that Kenneth Arrow s seminal article which he penned in 1963 was the driving force behind the birth of the area of health economics The distinction between health and other sorts of commodities was made by

his theory from a conceptual point of view When compared to other subjects the area of health economics is differentiated by a number of features These elements include a significant engagement from the government intractable uncertainty in several dimensions asymmetric information impediments to entrance externality and the presence of a third party agent Within the context of the healthcare sector the patient's health insurer is referred to as a third party agent The entity that is responsible for bearing the financial obligation for the healthcare goods and services that are used by the insured patient is the business that is known as the health insurer A number of different types of financial information such as expenditures charges and costs are assessed within the realm of health economics

Health Care Federalism in Canada Katherine Fierlbeck, William Lahey, 2013-12-01 Now that Ottawa has left health care to the provinces what is the future for Canadian health care in a decentralized federal context Is the Canada Health Act dead Health Care Federalism in Canada provides a multi perspective interdisciplinary analysis of a critical juncture in Canadian public policy and the contributing factors which have led to this point Social scientists legal scholars health services researchers and decision makers examine the shift from a system where Ottawa has played a significant sometimes controversial role to one where provinces have more ability to push health care design in new directions Will this change inspire innovation and collaboration or inequality and confusion Providing an up to date analysis of health care policy and intergovernmental relations at a crucial time Health Care Federalism in Canada will be of interest to anyone concerned with the current dynamics and future potential of Canadian health care Contributors include Greg Marchildon Canada Research Chair at the Johnson Shoyama Graduate School of Public Policy in Saskatchewan Ken Boessenkool public affairs strategist and former political advisor to Stephen Harper Adrian Levy Professor and Head Department of Community Health and Epidemiology at Dalhousie University Boris Sobolev Canada Research Chair at the School of Public and Population Health University of British Columbia Gail Tomblin Murphy Director WHO Collaborating Centre for Health Workforce Planning and Research and David Haardt Department of Economics Dalhousie University

Inequality and the Fading of Redistributive Politics Keith Banting, John Myles, 2013-09-01 All advanced democracies have faced the pressures of globalization technological change and new family forms which have generated higher levels of inequality in market incomes But countries have responded differently reflecting differences in their domestic politics The politics of who gets what and why is at the core of this volume the first to examine this question in an explicitly Canadian context In *Inequality and the Fading of Redistributive Politics* leading political scientists sociologists and economists point to the failure of public policy to contain surging income inequality Government programs are no longer offsetting the growth in inequality generated by the market and Canadian society has become more unequal The redistributive state is fading due to powerful forces that have reshaped the politics of social policy including global economic pressures ideological change shifts in the influence of business and labour changes in the party system and the decline of equality seeking civil society organizations This volume demonstrates conclusively that action and inaction policy change and policy drift are at the heart of growing inequality calling into question Canada's record as a kinder gentler nation *The Oxford Handbook of Canadian Politics* John Courtney, John Childs Courtney, David Smith, 2010-04-29 The Oxford Handbook of Canadian Politics provides a comprehensive overview of the transformation that has occurred in Canadian politics since it achieved autonomy nearly a century ago examining the institutions and processes of Canadian government and politics at the local provincial and federal levels It analyzes all aspects of the Canadian political system the courts elections political parties Parliament the constitution fiscal and political federalism the diffusion of policies between regions and various aspects of public policy **Health Care in Canada** Katherine Fierlbeck, 2011-01-01 Health Care in Canada examines the challenges faced by the Canadian health care system a subject of much public debate In this book Katherine Fierlbeck provides an in depth discussion of how health care decisions are shaped by politics and why there is so much disagreement over how to fix the system Many Canadians point to health care as a source of national pride others are highly critical of the system's shortcomings and call for major reform Yet meaningful debate cannot occur without an understanding of how the system actually operates In this overview Fierlbeck outlines the basic framework of the health care system with reference to specific areas such as administration and governance public health human resources drugs and drug policy and mental health She also discusses alternative models in

other countries such as Britain the United States and France As health care becomes increasingly complex it is crucial that Canadians have a solid grasp of the main issues within both the policy and political environments With its balanced and accessible assessment of the main political and theoretical debates *Health Care in Canada* is an essential guide for anyone with a stake in Canada's health system

A Canadian Healthcare Innovation Agenda A. Scott Carson, Kim Richard Nossal, 2018-04-30 This collection is the result of a 2016 national leaders conference sponsored by Queen's University to explore the prospects for a pan Canadian healthcare innovation strategy The conference themes were inspired by the 2015 report of the federally commissioned Advisory Panel on Healthcare Innovation led by David Naylor which examined how the federal government could support innovation A Canadian Healthcare Innovation Agenda features original commissioned chapters from academics and healthcare leaders addressing a range of issues such as the meaning of healthcare innovation how a national healthcare agency and investment fund could be governed the need for big data and evidence adding value through Canadian supply chain management overcoming regulatory barriers to innovation policy innovations for indigenous military and elderly populations the role of medical professions in promoting innovation education and the development of medical innovators The Canadian healthcare system is so fragmented that any thought of a system wide strategy for healthcare innovation is considered a far distant ideal at best This book presents a contrary view outlining an agenda for Canadian healthcare innovation It shows that Canada does indeed have the building blocks for innovation and concludes that the time to act is now

Encyclopedia of Health Services Research Ross M. Mullner, 2009-05-15 Today as never before healthcare has the ability to enhance the quality and duration of life At the same time healthcare has become so costly that it can easily bankrupt governments and impoverish individuals and families Health services research is a highly multidisciplinary field including such areas as health administration health economics medical sociology medicine political science public health and public policy The Encyclopedia of Health Services Research is the first single reference source to capture the diversity and complexity of the field With more than 400 entries these two volumes investigate the relationship between the factors of cost quality and access to healthcare and their impact upon medical outcomes such as death disability disease discomfort and dissatisfaction with care Key Features Examines the growing healthcare crisis facing the United States Encompasses the structure process and outcomes of healthcare Aims to improve the equity efficiency effectiveness and safety of healthcare by influencing and developing public policies Describes healthcare systems and issues from around the globe Key Themes Access to Care Accreditation Associations Foundations and Research Organizations Biographies of Current and Past Leaders Cost of Care Economics Finance and Payment Mechanisms Disease Disability Health and Health Behavior Government and International Healthcare Organizations Health Insurance Health Professionals and Healthcare Organizations Health Services Research Laws Regulations and Ethics Measurement Data Sources and Coding and Research Methods Outcomes of Care Policy Issues Healthcare Reform and International Comparisons Public Health Quality and Safety

of Care Special and Vulnerable Groups The Encyclopedia is designed to be an introduction to the various topics of health services research for an audience including undergraduate students graduate students and general readers seeking non technical descriptions of the field and its practices It is also useful for healthcare practitioners wishing to stay abreast of the changes and updates in the field *Private Health Insurance* Sarah Thomson, Anna Sagan, Elias Mossialos, 2020-10 A collection of comparative case studies analysing the history politics and performance of private health insurance globally and its implications for universal health coverage This is essential reading for graduate students scholars and policy makers working on health systems financing worldwide **About Canada: Dental Care** Brandon Doucet, 2023-04-20T00:00:00Z

Dental care is excluded from Canada's universal healthcare system with services provided based on the ability to pay Our dental care system is leading large segments of the population to neglect care resulting in poor oral health and all of its consequences This book examines the history of dentistry in Canada demonstrating how private business interests have prevailed over public health Current trends in the industry such as corporate ownership and a focus on cosmetic dentistry continue this history But change is possible By examining alternative approaches to the current dental care system this book is a call to action to make a healthier future possible **The New Palgrave Dictionary of Economics**, 2016-05-18 The

award winning The New Palgrave Dictionary of Economics 2nd edition is now available as a dynamic online resource Consisting of over 1 900 articles written by leading figures in the field including Nobel prize winners this is the definitive scholarly reference work for a new generation of economists Regularly updated This product is a subscription based product

Accidental Logics Carolyn Hughes Tuohy, Carolyn J. Tuohy, 1999 Looks at the USA Britain and Canada to offer an international comparative study of public policy systems as well as a recent history of the evolution of each national health care system The book explores what drives change and why certain changes occur in some nations and not in others

Romanow Papers: The fiscal sustainability of health care in Canada Commission on the Future of Health Care in Canada, 2004-01-01 The Fiscal Sustainability of Health Care the first of a three volume set of selected papers from the Romanow Commission comprises the most influential discussion papers on the fiscal sustainability of public health care in the future The subjects covered include the current and potential cost drivers of the system the financing and delivery of health care fiscal federalism and international trade regimes While some of the contributors are among Canada's best known and respected figures in the field others are relatively new scholars from Canada and abroad who bring fresh perspectives and new insights to the issue of fiscal sustainability Presenting divergent diagnoses and policy prescriptions the papers collectively highlight the many factors that governments and health care sector managers must confront to keep the Canadian health care system viable in the 21st century **Medicare's Histories** Esyllt W. Jones, James Hanley, Delia Gavrus, 2022-05-27 Medicare is arguably Canada's most valued social program As federally supported medicare enters its second half century Medicare's Histories brings together leading social and health historians to reflect on the origins and

evolution of medicare and the missed opportunities characterizing its past and present Embedding medicare in the diverse constituencies that have given it existence and meaning contributors inquire into the strengths and weaknesses of publicly insured health care and critically examine medicare s unfinished role in achieving greater health equity for all people in Canada regardless of race status gender class age and ability Fundamental to the stories told in Medicare s Histories is the essential role played by communities of activists critics health professionals First Nations patients families and survivors in driving demands for health reform in identifying particular omissions and inequities exacerbated or even created by medicare and in responding to the realities of medicare for those who work in and rely on it Contributors to this volume show how medicare has been shaped by politics in the broadest sense of that word identities professional organizations and social movements in Canada and abroad As COVID lays bare social inequities and the inadequacies of health care delivery and public health this book shows what was excluded and what was and is possible in health care
