Health In Danger The Crisis In The National Health Service:

Health in Danger David Widgery, 1979 **Creating the National Health Service** Marvin Rintala, 2003 The origins of the NHS are the subject of this study that presents evidence on the key players who participated in the founding of the system The author also traces those who opposed the NHS **Planning, Markets and Hospitals** John Mohan, 2002-09-11 Improving access to hospital services has been a goal of public policy in Britain for over seventy years but the means by which this goal is to be attained have changed significantly over time Drawing substantially on original research lanning Markets and Hospitals represents a systematic attempt to access the strengths and weaknesses of different forms of planning and coordination of hospital development The period covered includes services prior to 1948 wartime hospital policy the successes and failures of the mixed economy of health care in the inter war period the national hospital plan of 1962 and ultimately the market based reforms of 1991 and the changes since This book makes a fresh contribution to enduring debates about planning and regulation of health care about the governance of welfare services and about the appropriate role for voluntary commercial and charitable provision of services It reinterprets previous histories of hospital policy and questions whether current policies will reconcile competing goals of equity and choice *Britain in Transition* Alfred F. Havighurst, 1985-08 This new edition extends and brings up to date the story of political economic and social change among the British An entirely new chapter covers the Thatcher years discussing such events as the Falkland Island crisis and the General Election of 1983 Other sections have been revised to reflect information only recently available Throughout Havighurst has incorporated material from official documents monographs biographies articles and the press His fascinating narrative fully captures the ongoing importance of change itself in shaping the character of Britain The Sociology of Health and Illness Peter Conrad, 2005 This collection of 49 readings offers an integrated analysis of the most important issues regarding health and health care from a critical and sociological perspective Substantive introductions provide context for the readings With ten new and two revised essays the Seventh Edition contains more coverage of key areas such as alternative medicine the pharmaceutical industry and the relationship between healthcare and politics Pastoral Care and Liberation Theology Stephen Pattison, 1994-03-10 This is the first book to show how Latin American liberation theology can be applied to and can transform pastoral care in countries such as Britain and the USA Hitherto pastoral care has tended to concentrate on looking after individuals Stephen Pattison suggests that much of the suffering endured by individuals is actually socially and politically caused and so is avoidable if the appropriate action is taken The author argues that what we now require is a socio politically aware and committed pastoral care which makes an option for oppressed and poor people and engages in practical struggle against the forces of injustice and oppression Focussing as it does especially on mentally ill people and on women the book will be of interest to all those who want to broaden their vision and knowledge of liberation theology or pastoral care whether theologians pastors students for ministry members of caring professions or users of the
