leadership positions and independent processes for reporting unacceptable behaviours and actions are two suggestions for tackling bullying and its consequences This book shows the necessity to expose these appalling behaviours and their human costs in order to address workplace bullying and create a healthy and safe environment for everyone in healthcare This volume is aimed at undergraduate and postgraduate students and practitioners of nursing and other health professions the general public and other stakeholders of health services It will enhance their understanding of ability to recognise and strategies to cope with workplace bullying Journal of the American Medical Association American Medical Association,1922
