Development and Implementation of Health Technology Assessment

Valentina Beretta, 2021-03-27 This book analyses the factors that influence the development and implementation of Health Technology Assessment HTA from multiple perspectives It investigates the development of HTA activities in decentralized countries with a specific focus on the analysis of healthcare professionals perceptions Although these perceptions are highly relevant in terms of implementing HTA processes especially at the local level they are rarely captured and require further investigation which this book provides In particular HTA has been introduced as a support tool for reviewing and assessing the introduction and dissemination of healthcare technologies The book discusses how individual and organisational factors affect knowledge production and translation and their relevance in the context of HTA Furthermore it explores how HTA could be more successfully implemented in decentralized healthcare systems

Health Technology Assessment in Japan

Isao Kamae, 2019-09-03 Representing the first book on the topic this work offers the reader an introduction to the Japanese systems for health technology assessment HTA officially introduced by the Ministry of Health Labour and Welfare MHLW in 2016 Policy and guidelines are discussed with the relevant methods and conditions of cost effectiveness analysis explained alongside Numerous instructive examples and exercises ranging from basic to advanced impart valuable knowledge and insight on the quantitative methods for economic evaluation which will appeal to both beginners and experts This guidebook is authored by Japan's foremost expert in HTA and pharmacoeconomics with a view to strengthening the reader's expertise in value based healthcare and decision making The methods presented are essential to informing regulatory local and patient decisions as such the book is equally recommended to industry and government as well as academia and anyone with an interest in Japanese HTA

Health Technology Assessment and Health Policy Today: A Multifaceted View of their Unstable Crossroads Juan E. del Llano-Señarís, Carlos Campillo-Artero, 2015-01-08 This book disentangles the issues in connection with the advancement of Health Technology Assessment HTA and its interface with health policy It highlights the factors that should shape its progress in the near future Interdisciplinary and critical views from a number of professionals are put together in a prescient order to cast some light and make recommendations as to the next steps HTA should take to be fit for purpose A wealth of documents dealing with HTA have been published over the last three decades HTA allegedly is one of the bedrocks of regulation and medical decision making However counter vailing visions contend that geographical variations in

the role that HTA is actually playing within countries pinpoints specific room for improvement Given our social preferences cherry picking HTA s features and successes over the last decades moves it away from its possibility frontier Some of the most noteworthy hindrances that HTA faces in several countries to making headway towards its consolidation as an efficient tool for regulation and decision making are as follows insufficient resources delays in assessment inadequate priority setting regulatory capture public distrust actual influence on regulatory decisions the need for strengthening international cooperation and harmony the lack of sound and consistent assessments of diagnostic tests medical devices and surgical innovations and limited dissemination Time has come for HTA to take a renewed stand There is a pressing need to submit HTA to in depth critical scrutiny
