Health Promotion in Medical Education Ann Wylie, Tangerine Holt, 2018-05-08

Health promotion has been a relatively overlooked area in modern medical and health professional vocational curricula

This practical and informative book aims to redress the balance towards health promotion being a visible integrated curricular component with agreed principles on quality in health promotion teaching across various faculties

Experienced and enthusiastic writers with expertise in health promotion public health and medical education explore how curricular structures can accommodate the discipline providing examples of teaching sessions and methods of teaching health promotion within integrated curricula

Do

not fear another dry discussion of how to stop patients smoking This book takes a stimulatingly lateral view of the scope of the subject goes a very long way to showing why it is essential to medical education and gives good advice on how to support and develop both the subject and its tutors in today s medical schools From the Foreword by Amanda Howe Issues in Physical Education Susan Capel,Susan Piotrowski,2013-01-11 Issues in Physical Education stimulates student teachers NQTs and practising physical education teachers to reflect on issues important to improving teaching in physical education It encourages reflection and debate as an important part of professional development Issues discussed include aims as an issue in physical education breadth balance and assessment in the physical education curriculum equality and the inclusion of pupils with special needs in physical education progression and continuity in physical education between primary and secondary schools community initiatives in physical education physical education health and life long participation in physical activity **Handbook of Pediatric Psychology in School Settings** Ronald T. Brown,2003-09-12 In recent years the escalating costs of health care have caused managed care programs to shift the delivery of pediatric psychological services away from specialized medical centers and into primary care and school settings One result has been a radical expansion of school psychology into issues of clinical intervention health promotion and the assessment of psychotropic medications School psychologists are now expected to either deliver or more likely to provide consultation regarding a wide variety of pediatric psychological services Because this is a recent phenomenon very few school based psychologists or allied health practitioners school counselors and social workers have received training in pediatric psychology The mission of this book is to provide them with a comprehensive and authoritative guide to their newly acquired responsibilities in such areas as psychotherapy psychopharmacology health promotion and prevention of disease This book is appropriate for anyone concerned with issues of pediatric psychology in school settings school psychologists pediatric psychologists clinical child psychologists as well as pediatricians and child psychiatrists
