McLaren,2009-07-13 Does having faith mean abandoning reason It s easy to get that impression Still it seems reasonable that a supremely intelligent God would want you to use your God given intellect on your spiritual journey as much as in any other aspect of your life Faith may not stand on rational thinking alone but a solid faith should walk hand in hand with intellectual integrity Does it really matter what I believe What is the relationship between faith and knowledge Why are there so many religions Do all paths lead to the same God This book helps you sort through the questions objections and concerns you can t help but raise A Search for What Makes Sense will help you think your way clearly and honestly to answers that satisfy because they re your answers conclusions you ve arrived at personally without manipulation coercion or game playing For faith to exist and grow it s got to make sense good sense carefully thought out sense And chances are it does FINDING FAITH The Finding Faith books A Search for What Makes Sense and A Search for What Is Real don t try to tell you what to believe they are guides in learning how to believe If you think the spiritual journey requires turning your back on honesty and intellectual integrity these two companion volumes will speak to both your mind and your soul **Spiritual Building**

Blocks Marshall Welch, 2015-09-26 Spiritual Building Blocks takes the greatest commandment and uses it as the cornerstone in building a spiritual foundation to help notice God's presence in our everyday lives. Part 1 begins by unpacking the greatest commandment into six essential parts: God, the self, our neighbor, our head, our heart, and our hands. The opening chapters answer common questions about spirituality and its relationship with religion. Part 2 presents a variety of spiritual practices and exercises using our head, heart, and hands as building blocks to nurture our spiritual lives as we love God, the self, and our neighbors. Some of these practices may be new, while others may be familiar but reframed in a new way. Personal stories by everyday people illustrate many of these exercises. Spiritual Building Blocks was written for individuals or small groups interested in deepening their spiritual lives.

[The Joy of Believing: The Vision and Relevance of Lumen Fidei and Evangelii Gaudium in Indian Context](#) Babu Joseph Kalathil, 2015-02 Religion and theology became an occult science for many, and belief in the values of life that religions proclaim turned to be useless and void. The handing on of the faith has become a deep crisis and a problematic today and has turned to be a burning issue for the contemporary Church. What is necessary in the contemporary culture is to develop a counter culture that passionately understands the love of God and sharing it passionately and joyfully with the fellow humans and the world around us. We need a counter culture of sharing the truth and love which is God. Pope Francis' message is none other than this. He exhorts for a missionary renewal in the Church and to have a new theological outlook that leads the Church to be a Church of the poor, a counter culture of compassionate and tender love. When it comes to India, the Church, a minority in number, faces a lot of challenges in its practice and proclamation of faith. Globalization and the new economic reforms badly affected the Indian culture, which is turning to be secular as well as fundamentalist. With a weak presence in many areas, the Church in India is struggling to make its presence felt in the nation. Here, the author is making an attempt to understand the joyful sharing of the Gospel in the Indian context in the light of the first two documents of Pope Francis. The author discusses the challenges and ways to face the challenges to be truthful by being in love and faith. It will provide a clear understanding to live the faith relying upon God's providence and mercy and will enable the Church to work for the holistic development of humanity.
