

The background image is a scenic landscape. In the foreground, there are several wooden boats, possibly canoes or small rowing boats, moored on a wooden dock or pier. A wooden structure, possibly a staircase or a walkway, is visible on the left side. In the background, there are mountains and a body of water, likely a lake or a wide river. The overall atmosphere is calm and scenic.

The heart has its own reasons that reason  
can't understand.

**The Style of Hawthorne's Gaze** John Dolis, 2014-07-14 An exploration of Nathaniel Hawthorne's narrative technique and unique vision of the world The Style of Hawthorne's Gaze is an unusual and insightful work that employs a combination of critical strategies drawn from art history philosophy psychoanalysis and contemporary aesthetic and literary theory to explore Nathaniel Hawthorne's narrative technique and his unique vision of the world Dolis studies Hawthorne's anti-technological and essentially Romantic view of the external world and examines the recurring phenomena of lighting motion aspectivity fragmentation and imagination as they relate to his descriptive techniques Dolis sets the world of Hawthorne's work over and against the aesthetic and philosophical development of the world understood as a view from its inception in the camera obscura and perspective in general to its 19th century articulation in photography In light of this general technology of the image and drawing upon a wide range of contemporary critical theories Dolis begins his study of Hawthorne at the level of description where the world of the work first arises in the reader's consciousness Dolis shows how the work of Heidegger Merleau-Ponty Freud Lacan and Derrida can provide fresh insights into the sophisticated style of Hawthorne's perception of and system for representing reality The Oxford Handbook of Hegel Dean Moyar, 2017 The Oxford Handbook of Hegel is a comprehensive guide to Hegel's philosophy from his first published writings to his final lectures The Handbook includes many essays from younger scholars who have brought new perspectives and rigor to the study of Hegel's texts Portraits of the Great Bible-believing Scientists Franjo Stvarnik, 2018-10-29 More than 60 years ago remembered Mr Stvarnik I read the books From Ancient Philosophy to Modern Science of Atoms by prof dr Ivan Supek and the Images from the Lives of Great Scientists by prof dr Milutin Milankovic and for me these are still the most beautiful scientific texts From that time as a much loving hobby Mr Stvarnik has studied biographies of great scientists I have grown up in an atheistic country he once said and therefore it was a surprise to find that there were very few atheistic or agnostic scientists the majority of them were some kind of believers in God Actually a good number of the greatest scientific minds were or are Bible-believing Christians That realization along with discoveries of some deliberate distortions of historical facts that made certain Bible-believing scientists look as having an atheistic bent prompted writing a book The Portraits of the Great Bible-believing Scientists that was published in Croatian and in Serbian languages Now he has written the same in English but since many years elapsed from the mentioned publications he enriched the text with new findings and added 12 new portraits into the book **A View of Some Divine Truths, which are Either Practically Exemplified in Jesus Christ, Set Forth in the Gospel, Or May be Reasonably Deduced from Thence ... Reprinted from the Edition of 1678** Edward Polhill, 1844 Does God Exist Hans Kung, 2013-01-02 Does God exist The question implies another Who is God This book is meant to give an answer to both questions and to give reasons for this answer Does God exist Yes or no Many are at a loss between belief and unbelief they are undecided skeptical They are doubtful about their belief but they are

also doubtful about their doubting There are still others who are proud of their doubting Yet there remains a longing for certainty Certainty Whether Christians or Jews believers in God or atheists the discussion today runs right across old denominations and new ideologies but the longing for certainty is unquenched Does God exist We are putting all our cards on the table here The answer will be Yes God exists As human beings in the twentieth century we certainly can reasonably believe in God even more so in the Christian God and perhaps even more easily today than a few decades or centuries ago For after so many crises it is surprising how much has been clarified and how many difficulties in regard to belief in God have melted into the Light that no darkness has overcome *The Wizard of Us* Jean Houston,2016-11 Discover the powerful unique skills and qualities of Dorothy the Wizard and the other archetypes of mind heart and courage that live within each of us Houston offers new understanding of the human condition the importance of myth and the critical nature of our role and how we can participate in the creation of a better world It s time to uncover your inner hero and become the essential human you were always meant to be

**Missions: Their Authority, Scope and Encouragement. An Essay** Richard Winter Hamilton,1842 The Politics of Perfection Kimberly Hurd Hale,2016-10-07 The Politics of Perfection Technology and Creation in Literature and Film provides an exploration of the relationship between modern technological progress and classical liberalism Each chapter provides a detailed analysis of a film or novel including Fritz Lang s Metropolis Ridley Scott s Prometheus Michael Gondry s Eternal Sunshine of the Spotless Mind Kazuo Ishiguro s Never Let Me Go and Margaret Atwood s Oryx and Crake These works of fiction are examined through the lens of political thinkers ranging from Plato to Hannah Arendt The compatibility of classical liberalism and technology is questioned using fiction as a window into Western society s views on politics economics religion technology and the family This project explores the intersection between human nature and creation particularly artificial intelligence and genetic engineering using works of literature and film to access cultural concerns Each of the works featured asks a question about the relationship between technology and creation Technology also allows humanity to create new types of life in the forms of artificial intelligence and genetically engineered beings This book studies works of literature and film as evidence of the contemporary unease with the progress of technology and its effect on the political realm The holy bible containing the old and the new testaments ,1839 *The Whole Works of the Rt. Christian life and of Christian responsibility for the world we have in common The following however forms a background for these considerations Schleiermacher reminds his Christian brethren who often deck themselves out with alien borrowed plumes from morals and metaphysics of their actual theme that of religion which he also designates as a kind or mode of faith Like Luther he also turns against both the practical misconception that considers faith itself to be a good work and the theoretical misconception that faith is a product of thinking a theory Whether a practitioner thinks to give thanks for one's own work or whether a theoretician hopes to find final fulfillment and justification in one's range of metaphysical ideas amounts to the same thing Faith is the courage to be Paul Tillich For Schleiermacher to want to have speculation thus metaphysics and praxis without religion is the nonsalutary intention of Prometheus who faintheartedly stole what he could have expected to possess in restful security If taken seriously the gods to use that pagan expression for once are that nature to which a human being belongs Each human being is their possession When one steals what the gods have one steals oneself can thank oneself for a robbery For a gift that is stolen one cannot possibly be thankful Only a pure gift awakens true joy A human being has the chance to receive the gift that one is or is not in case it is stolen not from a thief but from religion Thanks to one's birth both physical and spiritual one gains oneself and has oneself To steal means to take away to depreciate In contrast whoever has oneself from elsewhere is no longer extracted from oneself or from the one to whom one belongs
