Hearts & Minds Chris Bowen, 2013-07-16 In Hearts Minds A Blueprint for Modern Labor Treasurer Chris Bowen writes a passionate clarion call to Labor's heartland making the powerful argument that the Labor project is far from complete and it is time for a radical program of renewal and reform for the party Hearts Minds is a manifesto to secure the ALP's position as the dominant force in Australian politics It advocates for governing alone or not at all opening up the election of the parliamentary leader to party members as well as caucus and support for the carbon tax Bowen argues for instituting primaries wherever there is no sitting ALP member and allowing a broader range of groups to affiliate with the party Bowen writes that the measures he suggests will see the ALP become a bigger stronger and more inclusive party delivering economic growth and improved opportunity reflecting the aspirations of all Australians Hearts Minds A Blueprint for Modern Labor offers Bowen's insights for the party he believes can create a better and fairer nation

The Economic Sociology of Capitalism Victor Nee, Richard Swedberg, 2020-09-01 This book represents a major step forward in the use of economic sociology to illuminate the nature and workings of capitalism amid the far reaching changes of the contemporary era of global capitalism For the past twenty years economic sociologists have focused on mesa level phenomena of networks but they have done relatively little to analyze capitalism as an overall system or to show how such phenomena emerge from and shape the dynamics of capitalism The Economic Sociology of Capitalism seeks to change this by presenting both big picture analyses of capitalism and more focused pieces on institutions crucial to capitalism The book which includes sixteen chapters by leading scholars in economic sociology is organized around three broad themes The first section addresses core

issues and problems in the new study of capitalism the second considers a variety of topics concerning America the leading capitalist economy of the world and the third focuses attention on the question of convergence stemming from the global transformation of capitalism and the challenge of explaining institutional change The contributions which follow a foreword by economic historian Avner Greif and the editor's introduction are by Mitchel Abolafia James Baron and Michael Hannan Mary C Brinton John Campbell Gerald Davis and Christopher Marquis Paul DiMaggio and Joseph Cohen Peter Evans Neil Fligstein John Freeman Francis Fukuyama Ko Kuwabara Victor Nee Douglass C North AnnaLee Saxenian Richard Swedberg and Viviana Zelizer *Social Justice is Good for Our Hearts: Why Societal Factors -- Not Lifestyles -- Are Major Causes of Heart Disease in Canada and Elsewhere* Dennis Raphael, 2002

Work, Worklessness, and the Political Economy of Health Clare Bambra, 2011-10-27 We are told that work is good for us and that ill health is caused by individual lifestyles Drawing on research from public health social policy epidemiology geography and political science this evidence based interdisciplinary book firmly challenges these contemporary orthodoxies It systematically demonstrates that work or lack of it is central to our health and wellbeing and is the underlying determinant of health inequalities Work is the cornerstone of modern society and dominates adult life with around a third of our time spent working It is a vital part of self identity and for most of us it is the foundation of economic and social status As such the material and psychosocial conditions in which we work have immense consequences for our physical and mental wellbeing as well as the distribution of health across the population Recessions job loss insecurity and unemployment also have important ramifications for the health and wellbeing of individuals families and communities Chronic illness is itself a significant cause of worklessness and low pay Drawing on examples from different countries this book shows that the relationship between work worklessness and health varies by country Countries with a more regulated work environment and a more interventionist and supportive welfare system have better health and smaller work related health inequalities The book provides examples of specific policies and interventions that mitigate the ill health effects of work and worklessness It concludes by asserting the importance of politics and policy choices in the aetiology of health and health inequalities *Economic Reforms in the U.S.S.R.* United States. Congress. Joint Economic Committee. Subcommittee on National Security Economics, 1988

Free Hearts and Free Homes Michael D. Pierson, 2003 By exploring the intersection of gender and politics in the antebellum North Michael Pierson examines how antislavery political parties capitalized on the emerging family practices and ideologies that accompanied the market revolution From the birth Medical Care Quality Research and Improvement Act of 1989 United States. Measuring Psychosocial Variables in Epidemiologic Studies of Cardiovascular Disease, 1985 **Hearts of Freedom** Peter Duschinsky, Colleen Lundy, Michael J. Molloy, Allan Moscovitch, Stephanie Phetsamay Stobbe, 2025-09-09 Between 1975 and 1997 some three million Vietnamese Cambodians and Laotians fled atrocities in their home countries with over 210 000 resettling in Canada While this history is partly known

to some Canadians little has been written about it especially from the perspectives of the refugees themselves *Hearts of Freedom* is a rich oral history based on interviews with 145 former refugees sharing deeply moving accounts of oppression concentration camps genocide and perilous escapes over land and sea Survivors reflect on their first impressions of Canada the unfamiliar snow and cold the unexpected kindness of neighbours and occasional encounters with racism Through their experiences we come to understand the strengths and weaknesses of Canada's refugee programs These stories reveal how refugees attachment to Canada grew over the years and how multiculturalism policies facilitated that Ordinary Canadians played a decisive role in the first mass refugee movement through newly created private sponsorship programs a role for which the United Nations awarded the Nansen Medal to the Canadian people in 1986 Coming at a time when we are assessing the benefits of immigration and refugee policies and programs *Hearts of Freedom* documents the lives and contributions of people who have suffered the worst excesses of war to rebuild their lives in Canada *Molding the Hearts and Minds* John A. Britton, 1994 In this work 17 essays by leading scholars examine how education has influenced the history of Latin America from the restricted schools of the early 19th century to today's bureaucracy **The Community's Credit** Charles Marshall Hattersley, 1922 *Congressional Record* United States. Congress, 1980-04-19 The *Congressional Record* is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The *Congressional Record* began publication in 1873 Debates for sessions prior to 1873 are recorded in *The Debates and Proceedings in the Congress of the United States 1789-1824* the *Register of Debates in Congress 1824-1837* and the *Congressional Globe 1833-1873* *Winning Hearts and Minds—How Central Banks went green* Fiona Hauke, 2023-01-01 In this book the author traces the emergence of the climate related financial risks CRFR policy norm in central banking During recent years Central Banks CBs have increasingly started to care about climate change This development is puzzling and has received surprisingly little scholarly attention so far Why is it that CBs with a very narrow mandate like the ECB start to tackle CRFR What makes CBs adopt a new policy norm on climate change and sustainable development although this provokes discussions about their independence Based on data collected through expert interviews triangulated with public sources the author shows that the CRFR policy norm emerged in three steps First an epistemic community of think tanks and politically engaged academics framed the idea of CRFR and proposed a policy norm specifically focusing on CBs Second the epistemic community taught the CRFR policy norm to early adopting CBs that acted as norm champions which helped strengthen its social recognition in the central banking community Third the CRFR policy norm has been strengthened by activist campaigns demanding CBs to comply with the emerging new policy norm
