Economic Aid And American Policy Toward Egypt 1955 1981:

Economic Aid and American Policy toward Egypt, 1955-1981 William Joseph Burns, 1985-01-01 Gamal Abdel Nasser's 1955 decision to barter Egyptian cotton for Soviet bloc weaponry thrust Egypt onto center stage in the Cold War in the Middle East. What Egypt needed most and what the United States was uniquely equipped to provide was economic aid. For the Egyptian government, eager to take rapid strides toward economic development but crippled by a burgeoning population, a paucity of arable land, and a meager reserve of foreign exchange, American economic aid promised to serve as an enormously important crutch. For American policymakers, economic assistance appeared to be an ideal means of developing American influence in Egypt. Few aid relationships in the last three decades can match the drama and significance of the U.S. Egyptian experience. This study shows how the American government attempted to use its economic aid program to induce or coerce Egypt to support U.S. interests in the Middle East in the quarter century following the 1955 Czech-Egyptian arms agreement. William J. Burns has analyzed recently released government documents and interviews with former policymakers to throw light on the use of aid as a tool of American policy toward the Nasser regime. He also offers valuable observations on the role of the American economic assistance program in the Sadat era. [Egypt and the Politics of U.S. Economic Aid](#)

Marvin G. Weinbaum, 2019-03-04 The massive U.S. economic aid program for Egypt initiated in 1975 resulted in a bilateral aid relationship shaped by the interaction of political and development goals. In this study of the program's origins and consequences, Professor Weinbaum describes its scope and identifies the constraints that delayed and limited program implementation. The author discusses the modest U.S. leverage designed to encourage economic reforms and argues that far-reaching reforms could only be attained through a major change in Egypt's political structure. He finds that despite its failure to make Egypt more economically self-reliant, U.S. assistance has enabled the country to attain a level of consumption and development planning possible with no other alternative. The profit to the United States results from the regime's moderate foreign policies and compatible views on strategic threats to the region. Despite the mutual benefits of this aid program, Professor Weinbaum concludes that the United States must display greater sensitivity to Egypt's political and economic problems if the special relationship is to survive through the 1980s. **Egypt and American Foreign Assistance**

1952-1956 J. Alterman, 2002-10-03 From the ground up, the story of missed opportunities, mixed messages, and mutual frustrations in American relations with Egypt at a seminal time. Unprecedented in its drawing on Egyptian official sources, *Hopes Dashed* sheds new light on the difficulties and challenges of a nascent relationship characterized by missed opportunities, mixed messages, and mutual frustrations. However beneficial the intentions of those on the ground, their desire for Egyptian economic development was stymied by bureaucratic obstacles both in Egypt and the United States. And as Egypt became embroiled in the Cold War, policy decisions increasingly were made at higher levels by officials more concerned with geopolitical and Arab-Israeli issues and less how U.S. assistance could help the domestic political economy of Egypt. Alterman

compellingly shows how the interests of both countries diverged to eventually undermine an early American attempt at economic assistance

The Struggle for Egypt Steven A. Cook, 2013-03-21 A half century ago Egypt under Nasser became the putative leader of the Arab world and a beacon for developing nations. Yet in the decades prior to the 2011 revolution it was ruled over by a sclerotic regime plagued by nepotism and corruption. During that time its economy declined into near shambles, a severely overpopulated Cairo fell into disrepair, and it produced scores of violent Islamic extremists. In *The Struggle for Egypt*, now with a new epilogue on the post-Mubarak era, noted regional specialist Steven A. Cook provides a sweeping and incisive account of how this parlous state of affairs came to be, why the revolution occurred, and where Egypt might be headed next. From p. 4 of cover

Capitalism and Nationalism at the End of Empire Robert L. Tignor, 2015-03-08 The two decades that followed World War II witnessed the end of the great European empires in Asia and Africa. Robert Tignor's new study of the decolonization experiences of Egypt, Nigeria, and Kenya elucidates the major factors that led to the transfer of power from British to African hands in these three territories. Employing a comparative method in order to explain the different decolonizing narratives in each territory, he argues that the different state policies toward the private business sector and foreign capital were the result of nationalist policies and attitudes and the influence of Cold War pressures on local events. Using business records as well as official government sources, the work highlights the economic aspects of decolonization and weighs the influence of nationalist movements, changes in metropolitan attitudes toward the empire, and shifts in the international balance of power in bringing about the transfer of authority. The author concludes that the business communities did not play decisive roles, adhering instead to their time-honored role of leaving political issues to colonial officials and their nationalist critics. Tignor also finds that the nationalist movements far from being ineffective, largely realized the primary goals of nationalist leaders that had been articulated for many decades. Democracy and the Nature of American Influence in Iran, 1941-1979 David R. Collier, 2017-05-08 Collier presents a timely and fresh reexamination of one of the most important bilateral relationships of the last century. He delves deeply into the American desire to promote democracy in Iran from the 1940s through the early 1960s and examines the myriad factors that contributed to their success in exerting a powerful

influence on Iranian politics By creating a framework to understand the efficacy of external pressure Collier explains how the United States later relinquished this control during the 1960s and 1970s During this time the shah emerged as a dominant and effective political operator who took advantage of waning American influence to assert his authority Collier reveals how this shifting power dynamic transformed the former client patron relationship into one approaching equality

powers that played important roles behind the scenes Their conclusions make for sober reading At the heart of the story was the incompetence of the Egyptian leadership and the rivalry between various Arab players who were deeply suspicious of each other's motives Israel on the other side gained a resounding victory for which despite previous assessments to the contrary there was no master plan *Foreign Aid in the Middle East* Beáta Paragi, 2019-02-28 What do we mean by gifts in International Relations Can foreign aid be conceptualized as a gift Most foreign aid transactions are unilateral and financially unreciprocated yet donors expect to benefit from them Previous research dealing with foreign aid has analyzed the main donor motives and interests in providing financial support This book offers an in depth analysis of the invisible political or social exchange taking place between recipient countries and donors when a grant agreement is signed Focusing on Egypt Jordan Palestine and Israel the main beneficiaries of Western foreign aid the book uses gift theories and theories of social exchange to show how international social bonds are shaped by foreign aid and in what ways recipient countries are obliged to return the gift they receive Foreign aid is a means of buying stability or democracy in the region but Beata Paragi is interested here to understand the actual feasibility of Western assistance Looking at the context of the Arab Spring the book examines how aid impacts on a recipient country's domestic political events such as war the quest for self determination the struggle against occupation and the fight for dignity An original contribution to Middle East Studies and International Relations the research presents an alternative interpretation of foreign aid and show how external funds interact with local developments and realities
