Aly, 2023 Aly traces the causes of the failed attempts at economic cooperation in Africa and fashions a workable response to the continent's current economic problems Economic Cooperation in Africa Ahmad Abdel-Halim Aly, 1994-01-01 The author argues that regionalism is the most appropriate strategy for the achievement of autonomous self sustained development in Africa He traces the causes of failure thus far of attempts at economic co operation in Africa and proposes a three stage sccenario for gradual change *Economic Integration and Development in Africa* Dr Mathurin C Houngnikpo, Professor Henry Kyambalesa, 2012-10-01 The debates over what African economic integration and development actually entails continue across international economic organizations national governments and NGOs Despite the glare of media attention and the position this issue has on international political agendas few comprehensive accounts exist that fully examine why this process will be inevitable in the 21st century and how integration of national economies can be attuned to attaining the socio economic goals and aspirations of member countries This book addresses this problem It combines theory with application enumerating the imperatives and initiatives governments will be forced to confront providing insights for educators and students in African development for policy makers in African governments and for inter governmental organizations Globalized Africa: Political, Social and Economic Impact A. Ninsin, 2012-12-27 Is globalization beneficial to Africa Does it open infinite opportunities for economic growth development and social transformation of the continent It is the assertion of contributions to this collection that for Africa globalisation is a counter revolutionary movement that is stalling the drive of the continent's societies to transform themselves into developed and prosperous entities just as slavery and colonialism Included are contributions from eminent scholars such as Samir Amin Horace Campbell Thandika Mkandawire and Cyril Obi **Region-Building in Africa** Daniel H. Levine, Dawn Nagar, 2016-05-19 This landmark book is the first of its kind to assess the challenges of African region building and regional integration across all five African sub regions and more than five decades of experience considering both political and economic aspects Leading scholars and practitioners come together to analyze a range of entwined topics including the theoretical underpinnings that have informed Africa's regional integration trajectory the political economy of integration including the sources of different waves of integration in pan Africanism and the reaction to neo liberal economic pressures the complexities of integration in a context of weak states and the informal regionalization that often occurs in borderlands the increasing salience of Africa's relationships with rising extra regional economic powers including China and India and comparative lessons from non African regional blocs including the EU ASEAN and the Southern Common Market A core argument of this book running through all chapters is that region building must be recognized as a political project as much as if not more than an economic one successful region building in Africa will need to include the complex political tasks of strengthening state capacity including states capacity as developmental states that can actively engage in economic

*Contemporary Governance Challenges in the Horn of Africa* Charles Manga Fombad, Assefa Fiseha, Nico Steytler, 2022-09-06 This book argues that a leading cause of the political instability in the Horn of Africa is a crisis of governance caused by extreme centralization of power weak institutions and the failure to institutionalise the responsible use of authority In recent years many attempts have been made to resolve the ongoing conflicts in Somalia and South Sudan but problems remain and in 2019 the instability spread to Ethiopia This book critically examines how many of the governance problems in the region can be addressed through institutional design The central argument is that an inclusive system of governance through federalism devolution and inclusive political institutions as well as ensuring the institutionalization of power through strengthening the rule of law has the potential to make governments more accountable inclusive and be able to deliver critical services Such systems ensure relative stability and peace and

reduce the risks of state fragmentation a major concern in the region Demonstrating that the threats of further fragmentation and conflict due to the crisis of governance are likely to continue unless serious steps are taken to deal with the situation the book will be an important read for researchers and policy makers with an interest in peacemaking politics constitutional law and federalism in the region
