Economic Management And French Business From De Gaulle To Chirac:

Economic Management and French Business M. Maclean, 2002-10-02 How is it that the modest pace of change which typified the French economy a century ago gave way after 1945 to a new revived capitalism and a superior economic performance Maclean traces the development of French economic and business life in the context of the European and international economy over the past fifty years She examines the main economic trends and events from nationalization to privatization from war with Germany to reconciliation and ever greater union from the franc to the euro and from national champions to mega mergers with foreign companies Maclean argues that the new French capitalism of the twenty first century is the product of an ideological struggle in which the forces of modernization triumphed over the old guard of French nationalism

Transnational Communities Marie-Laure Djelic, Sigrid Quack, 2010-05-20 Transnational communities are social groups that emerge from mutual interaction across national boundaries oriented around a common project or imagined identity This common project or identity is constructed and sustained through the active engagement and involvement of at least some of its members Such communities can overlap in different ways with formal organizations but in principle they do not need formal organization to be sustained This book explores the role of transnational communities in relation to the governance of business and economic activity It does so by focusing on a wide range of empirical terrains including discussions of the Laleli market in Istanbul the institutionalization of private equity in Japan the transnational movement for open content licenses and the mobilization around environmental certification These studies show that transnational communities can align the cognitive and normative orientations of their members over time and thereby influence emergent transnational governance arrangements

Fifth French Republic Nicholas Atkin, 2017-10-07 At the time of its founding few predicted that the Fifth Republic would survive It is a regime whose obituary has been written several times over but which stubbornly refuses to die Adopting a chronological framework this up to date study examines how the regime emerged out of the chaos of the Algerian crisis how its political evolution has been very different from that envisaged by de Gaulle and why it has endured Nicholas Atkin explains the success of the Fifth Republic but likewise illustrates the underlying problems within it As the 2002 presidential elections have shown although there is little prospect of regime change liberal democracy is not in a particularly healthy state While the political narrative takes centre stage Atkin also explores the key social economic and international developments which have shaped the modern history of France and affected its standing both in Europe and the rest of the world **France on the World Stage** M. Maclean, J. Szarka, 2008-04-30 This book examines the ways in which France's

relations with the international community have evolved in a period of accelerating globalization It considers the role of the nation state and its capacity for political initiative examining French strategies to reinforce French influence on the world stage **The Resilient Female Body** Women in French (Organization). Conference, 2007 The chapters in this book were

first presented at the Women in French Biennial Conference held in Leeds in May 2004 The twelve essays explore the multifaceted commodification of the female body and provide insights into the mutations of French society and culture British and French scholars examine the paradoxes and contradictions embodied in various images and discourses related to health and illness from different perspectives ranging from sociological studies to analyses of working diaries children's medical encyclopaedias and literary texts The resilient female body as epitomised by the First World War nurse tends by the end of the twentieth century to be construed as the sanitised female body subjected to mind/body dualities largely controlled by the medical professions Thus maternity and related issues such as birth and contraceptive technologies figure as major themes with contributors revealing unresolved ambivalences Other chapters focus on how women's economic activity can affect their individual health and potentially that of others A further prominent theme shows how for contemporary women writers serious illnesses such as cancer and madness in women can be seen as rich metaphors for the ills of a male dominated society Duras's alcoholism and Aragon's portrayals of prostitution are also discussed *The End of the French Exception?* T.

Chafer,E. Godin,2010-06-01 Analyzes the notion of the French exception and the ways in which it has informed both academic analysis and political commentary on France today Adopting a comparative and interdisciplinary approach it examines the resilience of the notion of French exceptionalism and evaluates its relevance in a changing domestic and global context

Women on Corporate Boards of Directors Susan Vinnicombe,2009-01-01 a thorough and insightful examination of women on corporate boards of directors I recommend the book as a read for practitioners scholars educators and others having an interest in human resource management With its wealth of information Women on Corporate Boards of Directors is a good addition to the extant literature that should represent an affordable value for the buyer Mark Mone Personnel Review After the first two chapters I was so absorbed I was almost reluctant to go to coffee and as other coffee addicts will know it is a rare book especially a rare academic book that can make one careless in observing the customary coffee break I found that the way this book is written helped me to reflect on much of the gender research that I am involved in currently because the questions raised are so searching and far reaching Once again the chapter authors combine brevity with thoroughness and depth in their examination of the themes which made this a very rewarding book because it takes you so far in your thinking in just 240 pages I feel energised by the debates that the book has opened up for me I have done research in this particular area but I now feel that I have explored different perspectives and new depths and I am grateful to the editors for that Marianne Tremaine Gender in Management An International Journal This timely collection of case studies and research from top academics around the world will be of tremendous value to all those engaged in bringing about greater gender diversity in corporate boardrooms Jacey Graham Brook Graham LLP This book provides an excellent overview of contemporary international research and practice relating to women on corporate boards of directors An important lesson learnt from this book is rather than having only one or two competent and committed women on the boards of directors an ideal number of three is not only the right thing but also the bright thing to do Why Research has documented a strong positive correlation between the share of board seats held by women and financial performance Martin Hilb University of St Gallen Switzerland There are still common barriers that women face across many countries that keep their representation on boards of directors low and relatively unchanging I commend this excellent outstanding book to both academics and business management constituencies as well as individuals interested in serving on corporate boards The authors should be congratulated for this important contribution to the literature Marilyn Davidson The University of Manchester UK This important new book addresses the growing international interest in women on corporate boards of directors The contributors explore the position of women on corporate boards and future trends in different countries including Australia Canada France Iceland Jordan New Zealand Norway Spain Tunisia the UK and the USA They go on to report the latest research on the experiences and different contributions made by women directors on corporate boards Issues discussed include How women directors champion difficult issues and debates How women influence boardroom behaviour The contribution of

women directors human and social capital Gendered experiences and the glass cliff The glass ceiling or a bottleneck Networking to harness local power for national impact Women on board in best practice companies Whether critical mass makes a difference Future directions for research Women on Corporate Boards of Directors brings together the significant international research base with suggestions aimed at individuals aspiring to board membership women and men currently serving on corporate boards companies interested in attracting women to their boards and government bodies wanting to identify the challenges and opportunities facing them as they consider various options for increasing women's representation on corporate Managerial Cultures David Hanson, 2014-02-05 How did the conduct of business come to be so different in different countries Why are some less developed countries in the process of rapid industrialization while so many others remain poor Analysts often point to national differences in the cultures of business to explain these patterns What then accounts for these differences in culture We can gain some insights into these issues by considering the incentives that are likely to shape the behaviors of upwardly mobile sub elites Patterns of elite initiatives in the early years of industrialization have an enduring impact on the subsequent conduct of business Understanding the impact of history can provide important insights into contemporary business practices Viewed from the perspective of developmental history apparently independent phenomena can often be seen as different aspects of a common pattern Questions about the relation between our collective past experiences and future performances are also relevant for our understanding of democratic self governance Governments are generally engaged in nation building What works Why Where are we collectively headed This volume suggests some answers Author David Hanson develops an analysis that focuses on governing elites the need for security and the search for status His analysis rests on considerations of social structure conflict and psychology rather than on resources markets and economics The result is a book to offer international managers an understanding of history's critical role in fully understanding the societies in which they operate Contingent Capital Michel Goyer, 2011-10-27 Will the pressures of financial market globalization force companies to converge on a shareholder based model of corporate governance In Contingent Capital Michel Goyer highlights the importance of the institutional context in which companies are embedded

The New Power Elite Alan Shipman, June Edmunds, Bryan Turner, 2018-04-13 Elites have always ruled wielding inordinate power and wealth taking decisions that shape life for the rest In good times the 1% can hide their privilege or use growing social mobility and economic prosperity as a justification When times get tougher there's a backlash So the first years of the twenty first century a time of financial crashes oligarchy and corruption in the West persistent poverty in the south and rising inequality everywhere have brought elites and establishments under unprecedented fire Yet those swept to power by this discontent are themselves a part of the elite attacking from within and extending rather than ending its agenda The New Power Elite shows how major political and social change is typically driven by renegade elite fractions who co opt or sideline elites traditional enemies It is the first book to combine the politics economics sociology and history of elite rule to present a

compact comprehensive account of who's at the top and why we let them get there Making Cities Global A. K. Sandoval-Strausz, Nancy H. Kwak, 2018 Making Cities Global argues that combining urban history with a transnational approach leads to a better understanding of our increasingly interconnected world In order to achieve prosperity peace and sustainability in metropolitan areas in the present and into the future we must understand their historical origins and development **Politics and Power in the Multinational Corporation** Christoph Dörrenbächer, Mike Geppert, 2011-04-14 This book was first published in 2011 The current financial and economic crisis has negatively underlined the vital role of multinational companies MNCs in our daily lives The breakdown and crisis of flagship MNCs such as Enron WorldCom Lehman Brothers Toyota and General Motors does not merely reveal the problems of corporate malfeasance and market dysfunction It also raises important questions both for the public and the academic community about the use and misuse of power by MNCs in the wider society as well as the exercise of power by key actors within internationally operating firms This book examines how issues of power and politics affect MNCs at three different levels the macro level the meso level and the micro level This wide ranging analysis shows not only that power matters but also how and why it matters pointing to the political interactions of key power holders and actors within the MNC both managers and employees *Remembering Elites* Michael Savage, Karel Williams, 2008-05-12 About social elites in various Western countries
