Economics and the American System J. Kenneth Davies, Glen F. Global Crisis, The: The American System Is Collapsing. What Comes Next? Joergen Oerstroem Moeller, 2023-08-08 This book is a collection of essays written by Joergen Oerstroem Moeller since 2015 which focus on the geopolitical geoeconomics and societal developments of recent times including the war in Ukraine Brexit and the future of the European Union as well as the economic trajectories of the US China and the UK With the dissolution of the Soviet Union in 1991 the US emerged as the sole superpower in a new world order However the rise of China in the subsequent decades has coincided with the reduced standing and power of the US Understanding the shift in the global power balance requires an appreciation of the domestic developments in the US and China On the one hand the US under the Trump administration had taken a protectionist stance in its trade policies and built walls along its borders to keep out immigrants On the other hand the Chinese government has aggressively expanded its economy and posted high economic growth as part of its efforts to uplift the lives of its people With the US economic strength in decline how long will the incumbent superpower be able to hold on its pole position before being replaced by a challenger This question and more are addressed in this book *The Economy of the American People* Gerhard Colm, Theodore Geiger, 1958 **Investigation of Concentration of Economic Power**

A New and Modern Holy Bible with the Intelligent Design of An Active God George D. Shollenberger, 2012-06 THE GENERAL PURPOSE OF THIS BOOK The general purpose of this book is to build the minds of all Little Gods who were created by God who also created the universe About 4 4 million years ago Little Gods appeared on planet earth Today billions of Little Gods exist and have developed their minds after they found that God and the universe have no end However the minds of all Little Gods did not develop until counting tokens appeared about 9 000 years ago Then 5000 years later the Little Gods added symbols to these tokens These symbols were used in early texts and later in national languages religious scriptures scientific books newspapers etc For the last 4000 years many religious leaders were saying that the symbols in scriptures are sacred and are inspired by God In 2006 I found that God is infinite and unlimited Six years later I found that symbols are finite and limited These findings prove that scriptures cannot be sacred I confirmed these findings with new research on Greek writings and the teachings of Jesus in the New Testament In time I expect all Little Gods to worship the same God The purpose of my book is thus to bring all Little Gods together under one God

Latin America In The International Political System G. Pope Atkins, 2019-03-06 More than a decade has passed since the publication of the first edition of Latin America in the International Political System Since then significant events have occurred in the region and the nature of Latin America's international relations has changed considerably Although the purpose of this text is unchanged that of providing stude

A National System of Economics John Taylor Peddie, 1917 The Power of Reason 1988 Lyndon H. LaRouche, Jr., 2015-09-02 From the Author's Foreword 1987 During the course of the past nearly twenty years I have become perhaps the most controversial among the influential international figures of this decade Unlike all of the other leading candidates for the U S presidency since 1945 I am an influential original thinker This is not to suggest that such prospective candidates as Vice President George Bush and Senator Robert Dole are lacking in intelligence or executive abilities For the past forty years the successful candidates for the presidency have been persons who in the customary manner of speaking advanced their political career up to that point by doing the right thing at the right time saying and doing nothing which will make enemies among important factions of the establishment Bush and Dole for example have adapted to those rules for success under ordinary conditions However this is

a crisis in such crises what is customarily successful becomes a failure Our nation has once again entered into a time when only the unusual succeeds and the usual fails We have entered into a period of crisis in which only original thinkers are qualified to lead On paper our nation is a constitutional democratic republic In reality it has not been such a republic for approximately one hundred years certainly not since the sweeping changes in our form of government introduced during the presidency of Theodore Roosevelt Most of the time the policies of government the selection of most leading candidates for federal office and the majority of popular opinion have been regulated by behind the scenes committees representing what is called the establishment Under this arrangement candidates for leading office present themselves like job applicants for corporate executive appointments to this establishment The establishment either gives such candidates permission to campaign or not at this time If given such permission the candidate so authorized seeks backing for his or her election by the establishment by proving to the establishment that he or she can sell the policy which the establishment has decided to push at that time I began to understand this in 1947 I wished General Dwight Eisenhower to campaign for the 1948 Democratic nomination The general replied to me stating agreement with my policy arguments in support of his candidacy but informing me his candidacy was not appropriate at that time There is no doubt that Eisenhower could have won the 1948 nomination and election by a landslide had the establishment permitted him to campaign

God And His Coexistent Relations To The Universe: George D. Shollenberger, 2014 The author says that the social contract theory of John Locke the immortal souls of humans and doubts of the divinity of Jesus by Ben Franklin Thomas Jefferson and John Adams caused the separation of the U S colonists from England on July 4 1776 However the author says that the USA has lost its God and has no facts about the universe in which we live He also says that Locke s social contract theory and the immortal souls of humans were never installed by Congress And he says that the doubts of the divinity of Jesus were never verified In his new book the author opens his widely respected mind to find answers to the above unknowns In his studies of the immortal souls the author concludes that all nations must become equal so that the immortal souls of every Little God can be reborn naturally by God His study provides answers of all doubts about the divinity of Jesus and says that only one active God exists and governs the immortal souls and the universe forever In time only one religion will exist
