Economic Aspects Of New Deal Diplomacy

Lloyd C. Gardner

Economic Aspects Of New Deal Diplomacy:

The Birth of Development Amy L. S. Staples, Amy L. Sayward, 2006 A comprehensive examination of economic globalization Focused on the creation and evolution of post 1945 internationalist ideology The Birth of Development highlights efforts to diffuse the destructive role of the nation state in world affairs by constructing truly international organizations with global agendas the World Bank the Food and Agriculture Organization and the World Health Organization These organizations and the men and women who worked for them pioneered the advancement of the quality of life for all and established an ongoing obligation to promote worldwide economic development As author Amy Staples reveals the results of their efforts were mixed Grounded in archival research conducted in the archives of the World Bank Food and Agriculture Organization and World Health Organization as well as in other archives in the United States Canada and Great Britain The Birth of Development provides a foundational understanding for many of today's debates on economic globalization especially those that involve the World Bank and World Trade Organization Given the current role of international peacekeepers and multinational aid agencies this story is timely and makes clear that the issues that confronted early postwar planners and reformers remain in many ways unsolved even today The Birth of Development is the only comparative study of these crucial architects of the theory and practice of economic development and it contributes significantly to the ongoing effort to view the postwar period as more than simply an East West Cold War It breaks new ground conceptually and methodologically and will be a welcome addition to the literature in the fields of modern diplomatic history and international relations

Economic Aspects of New Deal Diplomacy Lloyd C. Gardner, 1964 Bibliographical essay p 389 397 *Economic Aspects of New Deal Diplomacy* Lloyd C. Gardner, 1971 *Economic Aspects of New Deal Diplomacy* William Raymond Scott, 1964

Interpretations of American History, 6th Ed, Vol. Gerald N. Grob, George Athan Billias, 2010-06-15 This collection of essays on American history reflects recent scholarship Contributors new to this edition include Gary Nash Arthur Schlesinger Richard P McCormick Gerda Lerner Ellen C DuBois Vicki L Ruiz Nathan I Huggins John Lewis Gaddis Paul Kennedy and Kevin P Philips Edited by Gerald N Grob and George Athan Billias

A Search for Solvency Alfred E. Eckes, 2014-07-03 Diverted by the dramatic military and political events of July 1944 few Americans realized the significance of an international conference taking place at Bretton Woods a mountain resort in New Hampshire far from the battle zones There United Nations experts were completing plans for a world monetary and financial system that they hoped would create a prosperous efficient global economy and avert economic tensions that might lead to another world war Until the dollar crisis of 1971 decisions made at Bretton Woods provided the institutions and rules for international finance The conference ushered in an era of unprecedented expansion of world trade and prosperity Based on extensive research in previously unavailable sources A Search for Solvency relates intriguing and often complicated issues of economic analysis and diplomatic history It offers a succinct and comprehensive survey of international monetary

development from the collapse of the pre World War I gold standard to the devaluation of the dollar in 1971. In effect it explains the origins of late twentieth century global inflation and currency problems. The author details how the ghost of the Great Depression, the failure of monetary reconstruction efforts after World War I and the memory of the nineteenth century gold standard guided efforts to construct the Bretton Woods system. This preoccupation with the past as well as political constraints produced a monetary system protected against past dangers: fluctuating currencies, controls and deflation, but dangerously vulnerable to inflationary pressures. The weaknesses of Bretton Woods, a system geared to an era in which economic power was concentrated in the United States, became visible in the 1960s and painfully apparent by the mid 1970s.

Free Trade and its Reception 1815-1960 Andrew Marrison, 2002-01-08. This book examines the Corn Laws and their repeal. It brings together leading international experts working in the field from Britain, Europe and the United States. Their contributions range widely over the history, politics and economics of free trade and protectionism in the nineteenth and twentieth centuries; together they provide a landmark study of a vitally important subject and one which remains at the top of today's international agenda.

Globalization and the American Century Alfred E. Eckes, Jr., Thomas W. Zeiler, 2003-06-30. Revolutionary improvements in technology combined with the leadership elite's enthusiasm for deregulation of markets and free trade to fuel American style globalization. The nation rose to economic power after the Spanish American War and won both world wars and the Cold War, after which America's power and cultural influence soared as business and financial interests pursued the long term quest for global markets. But the tragic events of September 2001 and the growing volatility of global finance raised questions about whether the era of American led globalization was sustainable or vulnerable to catastrophic collapse.

The Making of Global Capitalism Sam Gindin, Leo Panitch, 2012-10-09. The all encompassing embrace of world capitalism at the beginning of the twenty first century was generally attributed to the superiority of competitive markets. Globalization had appeared to be the natural outcome of this unstoppable process. But today with global markets roiling and increasingly reliant on state intervention to stay afloat, it has become clear that markets and states are not straightforwardly opposing forces. In this groundbreaking work, Leo Panitch and Sam Gindin demonstrate the intimate relationship between modern capitalism and the American state, including its role as an informal empire promoting free trade and capital movements. Through a powerful historical survey, they show how the US has superintended the restructuring of other states in favor of competitive markets and coordinated the management of increasingly frequent financial crises. *The Making of Global Capitalism* through its highly original analysis of the first great economic crisis of the twenty first century identifies the centrality of the social conflicts that occur within states rather than between them. These emerging fault lines hold out the possibility of new political movements transforming nation states and transcending global markets.

Cold War US Foreign Policy Steven Hurst, 2019-07-31. This book provides the first comprehensive description and critique of the six most important historical interpretations of US Cold War foreign policy: Traditionalism, Revisionism, Post Revisionism,

Corporatism World Systems Theory and Post Structuralism The author uses the levels of analysis approach to demonstrate how each of these perspectives can be understood as an explanatory framework combining different types of factors located at different levels of the international system This original way of explaining the work of the historians discussed helps the reader to see past the narrative and empirical elements of their writings and to grasp more clearly the underlying theoretical assumptions In each chapter a description of the perspective s underlying theoretical framework and how it explains US foreign policy is followed by a critique of that theory and explanation A central theme developed throughout the book is the difficulty of managing the constant tension between the explanatory power of theory and the historian s desire to encompass the complex totality of historical events This critical companion can be read alongside the works of the historians themselves showing how they have sought to explain US Cold War foreign policy and the key differences between their perspectives

Key Features 1st complete discussion of the 6 schools of thought in one volume Discusses current issues such as corporatism world systems theory and post structuralism in an accessible manner original use of the levels of analysis framework in studying this subject demonstrates in practical terms how each theory explains US Cold War foreign policy

[The Origins of International Economic Disorder](#) Fred L. Block, 1977 Monograph examining the impact of the USA monetary policy on the international monetary system traces trends in the decline of the gold standard discusses various monetary agreements and explains the u s Balance of payments deficit Bibliography pp 259 to 274 references and statistical tables

Post-War Planning on the Periphery Thomas C Mills, 2012-08-30 This book provides readers with an insight to a previously unexplored aspect of Anglo American economic diplomacy during the Second World War

[The Oxford Encyclopedia of American Military and Diplomatic History](#) Timothy J. Lynch, 2013 Entries written by renowned diplomatic and military historians as well as key scholars in international relations Provides assessments and analyses of key episodes issues and actors in the military and diplomatic history of the United States Based on the award winning Oxford Companion to United States History Comprehensive collection of entries that span the founding of the U S to its present state Offers a wide range of perspectives to provide an encompassing context of the United States military and diplomatic legacies Expansive bibliographies and suggested readings for each article to aid in research The Oxford Encyclopedia of American Military and Diplomatic History a two volume set will offer both assessment and analysis of the key episodes issues and actors in the military and diplomatic history of the United States At a time of war in which ongoing efforts to recalibrate American diplomacy are as imperative as they are perilous the Oxford Encyclopedia will present itself as the first recourse for scholars wishing to deepen their understanding of the crucial features of the historical and contemporary foreign policy landscape and its perennially martial components Entries will be written by the top diplomatic and military historians and key scholars of international relations from within the American academy supplemented as is appropriate for an encyclopedia of diplomacy with entries from foreign based academics in the United Kingdom and elsewhere The crucial importance of the subject is reflected in the

popularity of university courses dedicated to diplomatic and military history and the enduring appeal of international relations IR as a political science discipline drawing on both The Oxford Encyclopedia will be a basic reference tool across both disciplines a potentially very significant market Readership University level undergraduate and graduate students in History

The Elusive Quest Melvyn P. Leffler, 2017-10-10 Leffler argues that American officials did not disregard European developments after World War I but rather they sought to settle the war debt and reparations controversies to stabilize European currencies and to revive European markets Leffler bridges the gap between revisionist and traditionalist studies by integrating the diverse aspects of foreign policy and elucidates many new aspects of the foreign policymaking process in the postwar period Originally published in 1979 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

In Search of Stability Charles S. Maier, 1987 In Search of Stability Explorations in Historical Political Economy ponders the issue of how Western industrial societies overcame major challenges to political and economic stability in the twentieth century Successive essays ask what ideological messages did American influence transmit to Europe after World War I then again after World War II Did Nazis and Italian fascists share an economic ideology or impose a unique economic system in the interwar period and during World War II How do their accomplishments stack up comparatively against those of the liberal democracies After 1945 what was the relationship between concepts of productivity and class division How have the major experiences of twentieth century inflation arisen out of class and interest group rivalry Most generally what has been the representation of interests in capitalist political economies

United States Foreign Policy in the Interwar Period, 1918-1941 Benjamin Rhodes, 2001-07-30 This study presents an in depth survey of the principal policies and personalities of American diplomacy of the era together with a discussion of recent historiography in the field For two decades between the two world wars America pursued a foreign policy course that was according to Rhodes shortsighted and self centered Believing World War I had been an aberration Americans na Dively signed disarmament treaties and a pact renouncing war while eschewing such inconveniences as enforcement machinery or participation in international organizations Smug moral superiority a penurious desire to save money and na vet ultimately led to the neglect of America s armed forces even as potential rivals were arming themselves to the teeth In contrast to the dynamic drive of the New Deal in domestic policy foreign policy under Franklin D Roosevelt was often characterized by a lack of clarity and reflecting Roosevelt s fear of isolationists and pacifists by presidential explanations that were frequently evasive incomplete or deliberately misleading One of the period s few successes was the bipartisan Good Neighbor policy which proved far sighted commercially and strategically Rhodes praises Cordell Hull as the outstanding secretary of state of the time whose judgment was often more on target than others in the State Department and the executive branch

Explaining the

History of American Foreign Relations Frank Costigliola, Michael J. Hogan, 2016-03-07 A longtime classic in its first and second editions Explaining the History of American Foreign Relations 3rd edition presents substantially revised and new essays on traditional themes such as national security corporatism borderlands history and international relations theory The book also highlights such innovative conceptual approaches and analytical methods as computational analysis symbolic borders modernization and technopolitics nationalism non state actors domestic politics exceptionalism legal history nation branding gender race political economy memory psychology emotions and the senses Each chapter is written by a highly respected scholar in the field many of whom have risen to prominence since the second edition's publication This collection is an indispensable volume for teachers and students in foreign relations history international relations history and political science The essays are written in accessible jargon free prose thus also making the book appropriate for general readers seeking an introduction to history and political science

Restructuring Hegemony in the Global Political Economy Henk W Overbeek, 1993-05-06 Since the late 1970s the spread of Neo liberalism and the failure of socialist economies and systems in Eastern Europe have resulted in a practically unchallenged hegemony of international capital across the globe Neo liberalism is now the dominant ideology legitimizing the privatisation of state controlled economies and the substitution of the

Safeguarding Democratic Capitalism Melvyn P. Leffler, 2017-08-02 Safeguarding Democratic Capitalism gathers together decades of writing by Melvyn Leffler one of the most respected historians of American foreign policy to address important questions about U S national security policy from the end of World War I to the global war on terror Why did the United States withdraw strategically from Europe after World War I and not after World War II How did World War II reshape Americans understanding of their vital interests What caused the United States to achieve victory in the long Cold War To what extent did 9 11 transform U S national security policy Is budgetary austerity a fundamental threat to U S national interests Leffler's wide ranging essays explain how foreign policy evolved into national security policy He stresses the competing priorities that forced policymakers to make agonizing trade offs and illuminates the travails of the policymaking process itself While assessing the course of U S national security policy he also interrogates the evolution of his own scholarship Over time slowly and almost unconsciously Leffler's work has married elements of revisionism with realism to form a unique synthesis that uses threat perception as a lens to understand how and why policymakers reconcile the pressures emanating from external dangers and internal priorities An account of the development of U S national security policy by one of its most influential thinkers Safeguarding Democratic Capitalism includes a substantial new introduction from the author

Social Science Literature Wesley L. Gould, Michael Barkun, 2015-03-08 This bibliography is a companion volume to International Law and the Social Sciences One of the aims of the earlier work by Wesley L Gould and Michael Barkun was to show how social science concepts could be employed in research in international law With the support and encouragement of the American Society of international Law they have now compiled a broad and thorough survey of social

science literature of potential usefulness to students and practitioners of international law Arranged by topics the works cited range over political science economics sociology anthropology geography and many interdisciplinary fields Material on possible methodological approaches is also included Each citation is fully and critically annotated and cross indexed Originally published in 1972 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
