## **Ecrire l'histoire Du Xxe Siecle:**

**Ecrire l'histoire du XXe siècle** Alain Besançon, 1994      Ecrire l'histoire de l'Afrique à l'époque coloniale Sophie Dulucq, 2009

Ecrire l'histoire de l'Afrique est une entreprise aux racines plus anciennes qu'on ne le croit généralement. A l'ère de l'impérialisme triomphant, cette historiographie s'est affirmée dans un paysage intellectuel politique et idéologique que cette étude s'attache à reconstituer. En France comme dans les territoires coloniaux, historiens et auteurs variés ont ainsi exhumé des pans entiers d'un passé dont on a progressivement découvert la richesse et la complexité. Ce nouveau champ de connaissances, en situation coloniale, mobilise entre la fin du XIXe siècle et la décennie 1950 des énergies et des compétences nombreuses. Reçueaux savants, revues scientifiques, historiens amateurs et professionnels, intellectuels locaux actifs dans les colonies comme en métropole, conjuguent leurs efforts pour affirmer la légitimité de leur démarche et diffuser leurs découvertes. Leurs travaux contribuent à finir les contours d'un récit historique qui propose des interprétations établies des chronologies et instaure des découpages dont certains ont survécu à la décolonisation. Bien sûr, cette histoire coloniale a partie liée avec les pouvoirs impériaux soucieux de connaître les colonisés afin de les mieux dominer. Elle a longtemps renforcé le discours de la légitimation de l'entreprise coloniale, le destin historique des peuples extra-européens tant on s'en doute de leur colonisation pour accéder à la civilisation ou la régénération. Mais plus contrastée et moins monolithique qu'on ne pourrait le croire, l'historiographie de la première moitié du XXe siècle a aussi contribué à produire des savoirs nouveaux sur l'Afrique, à expérimenter des modes d'enquête inédits, à promouvoir des chercheurs africains et à inventer ce que l'on nomme l'histoire indigène. Dans les dernières années de la domination, plusieurs historiens français et africains ont galemment conduit à revisiter de façon critique les modèles interprétatifs dominants et poser les bases d'une histoire de l'Afrique enfin décolonisée.

Les usages publics de l'écriture : (Antiquité - XXe siècle), 2006      **The Colonial Origins of Modern Social Thought** George Steinmetz, 2025-02-25

A new history of French social thought that connects postwar sociology to colonialism and empire. In this provocative and original retelling of the history of French social thought, George Steinmetz places the history and development of modern French sociology in the context of the French empire after World War II. Connecting the rise of all the social sciences with efforts by France and other imperial powers to consolidate control over their crisis-ridden colonies, Steinmetz argues that colonial research represented a crucial core of the nascent academic discipline of sociology, especially between the late 1930s and the 1960s. Sociologists who became favored partners of colonial governments were asked to apply their expertise to such social problems as detribalization, urbanization, poverty, and labor migration. This colonial orientation permeated all the major subfields of sociological research. Steinmetz contends and is at the center of the work of four influential scholars: Raymond Aron, Jacques Berque, Georges Balandier, and Pierre Bourdieu. In retelling this

history Steinmetz develops and deploys a new methodological approach that combines attention to broadly contextual factors dynamics within the intellectual development of the social sciences and sociology in particular and close readings of sociological texts He moves gradually toward the postwar sociologists of colonialism and their writings beginning with the most macroscopic contexts which included the postwar reoccupation of the French empire and the turn to developmentalist policies and the resulting demand for new forms of social scientific expertise After exploring the colonial engagement of researchers in sociology and neighboring fields before and after 1945 he turns to detailed examinations of the work of Aron who created a sociology of empires Berque the leading historical sociologist of North Africa Balandier the founder of French Africanist sociology and Bourdieu whose renowned theoretical concepts were forged in war torn late colonial Algeria **The Reception of Edmund Burke in Europe** Martin Fitzpatrick, Peter Jones, 2017-01-12 Over the last fifty years the life and work of Edmund Burke 1729 1797 has received sustained scholarly attention and debate The publication of the complete correspondence in ten volumes and the nine volume edition of Burke s Writings and Speeches have provided material for the scholarly reassessment of his life and works Attention has focused in particular on locating his ideas in the history of eighteenth century theory and practice and the contexts of late eighteenth century conservative thought This book broadens the focus to examine the many sided interest in Burke s ideas primarily in Europe and most notably in politics and aesthetics It draws on the work of leading international scholars to present new perspectives on the significance of Burke s ideas in European politics and culture **LA PENSEE POLITIQUE. Comprendre le XXe siècle français Jean-François Sirinelli, 2005-09-07 Le parcours d'un historien à son matérialisme propre qu'il n'est ni glorieux ni pour l'intérêt ni pour la discipline concerne de reconstituer quand le déroulement d'une trajectoire est déjà suffisamment large pour se prêter une mise en perspective historiographique dont la comparaison avec d'autres peut être utile et que parallèlement le temps qui reste s'est progressivement substitué au temps qui passe et incite de tels regards personnels dans le regard des regards dictés non par la possible manie mais par la nécessité de faire le point pour maintenir ou infléchir le cap Un itinéraire intellectuel n'est non seulement jamais un cap fixé dès le départ mais de surcroît son tracé obéit des logiques complexes où le hasard le dispute parfois la nécessité et où les bifurcations bien souvent ne sont pas programmées C'est l'un des objets de ce livre que d'examiner comment un historien souhaitant au fil du dernier quart du xxe siècle réfléchir sur ce siècle tout entier loin de se contenter de suivre le sillon initial a dû procéder tout à la fois par élargissement et par glissement Élargissement chronologique depuis les premiers travaux consacrés à l'entre-deux-guerres et glissement épistémologique avec le constat bien trop pleinement assumé que le croisement des approches culturelle et politique était une piste essentielle pour comprendre et penser le xxe siècle français J F S

The Woman Question in France, 1400-1870 Karen Offen,2017-10-05 This is a revolutionary reinterpretation of the French past from the early fifteenth century to the establishment of the Third Republic focused on public challenges and defenses of masculine hierarchy in relations between women and men Karen Offen surveys heated exchanges around women s influence their exclusion from authority the increasing prominence of biomedical thinking and population issues concerns about education intellect and the sexual politics of knowledge and the politics of women s work Initially the majority of commentators were literate and influential men However as more and more women attained literacy they too began to

analyze their situation in print and to contest men's claims about who women were and should be and what they should be restrained from doing and why. As urban print culture exploded and revolutionary ideas of equality fuelled women's claims for emancipation, this question resonated throughout francophone Europe and ultimately across the seas. *Black French Women and the Struggle for Equality, 1848-2016* Félix Germain, Silyane Larcher, 2018-10-01. *Black French Women and the Struggle for Equality 1848-2016* explores how black women in France itself, the French Caribbean, Gorée, Dakar, Rufisque and Saint Louis experienced and reacted to French colonialism and how gendered readings of colonization, decolonization and social movements cast new light on the history of French colonization and of black France. In addition to delineating the powerful contributions of black French women in the struggle for equality, contributors also look at the experiences of African American women in Paris and, in so doing, integrate into colonial and postcolonial conversations the strategies black women have engaged in negotiating gender and race relations in France. Drawing on research by scholars from different disciplinary backgrounds and countries, this collection offers a fresh multidimensional perspective on race, class and gender relations in France and its former colonies, exploring how black women have negotiated the boundaries of patriarchy and racism from their emancipation from slavery to the second decade of the twenty-first century.
