The

Historiographical Concept 'System of Philosophy' Leo Catana, 2008-03-31 Jacob Brucker 1696-1770 established the history of philosophy as a philosophical discipline in the 1740s In order to separate this new discipline from other historical disciplines he introduced the historiographical concept system of philosophy The historian of philosophy should use this concept as a criterion of inclusion of past philosophies and as an ideal form of exposition The present book describes the origin of this historiographical notion its implicit Protestant assumptions and it traces the concept's impact upon the methods of history of philosophy and history of ideas as developed over the following centuries Finally it discusses the concept's strengths and weaknesses as a historiographical tool arguing that it ought to be given up
