Patricia M. Mazón

Einsame Menschen:

Rituals of Self-revelation Irmela Hijiya-Kirschnereit, 1996 This thorough and insightful study of the Japanese version of the I novel provides a means of researching and interpreting the whole tradition of this genre linking it to the forms of autobiographical fiction as well as to the cultural assumptions and ways of thinking of the classical period of Japanese history

The Properties of Pneumotoxin and Its Probable Function in the Pathology of Lobar Pneumonia Abraham Linford Myers, Charles Weiss, James Henry Weaver, John Clarence Karcher, Mary Agnes Quimby, William Randolph Taylor, 1920

Gender and the Modern Research University Patricia M. Mazón, 2003 In the 1890s German feminists fighting for female higher education envied American women their small colleges Yet by 1910 German women could study at any German university a level of educational access not reached by American women until the 1960s This book investigates this development as well as the cultural significance of the tremendous debate generated by aspiring female students Central to Mazón's analysis is the concept of academic citizenship a complex discourse permeating German student life Shaped by this ideal the student years were a crucial stage in the formation of masculine identity in the educated middle class and a female student was unthinkable Only by emphasizing the need for female gynecologists and teachers did the women's movement carve out a niche for academic women Because the nineteenth century German university was the model for the modern research university the controversy resonates with contemporary American debates surrounding multiculturalism and higher education

The Nature Background in the Dramas of Gerhart Hauptmann Mary Agnes Quimby, 1918 Germanistic Society quarterly, 1914

Gerhart Hauptmann and the Naturalist Drama John Osborne, 1998 What was German Naturalism What were its achievements How does it compare with its counterparts in other European countries These are some of the difficult questions addressed by John Osborne in *Gerhart Hauptmann and the Naturalist Drama* a revised and updated version of his *The Naturalist Drama in Germany* now widely acknowledged as the standard introduction to the subject The debates to which he contributed and in some cases initiated on Naturalism in the German theatre Naturalist theory in Germany and the development of the Naturalist movement to the contemporary Social Democrat movement have remained central issues This revised edition preserves the structure and approach of the original including its emphasis on the early dramas of Hauptmann while taking full account of subsequent scholarship which provides the context in which this Naturalist playwright's work can be placed

Johannes Schlaf and German Naturalist Drama Raleigh Whiting, 1997 First book in English devoted to Johannes Schlaf the 19th century German playwright bringing fresh insights to the whole movement of German naturalist drama This is the first book in English on the German playwright Johannes Schlaf 1862-1941 whose involvement in consistent realism and modern theatre in the 1890s provides an insight into the origins and development of German naturalist drama Schlaf's main contributions to this movement were with *Die Familie*

Selicke 1890 on which he collaborated with Arno Holz and Meister Oelze 1892 works which show his innovative talents The author considers these works in the context of the experimental prose sketches which Schlaf worked on with Holz after 1888 and of the realist and naturalist dramas of Hebbel Ibsen Hauptmann and Sudermann he brings out their growing concern with trapped women and victimised children as well as their critical focus on the problems of traditional poetry *The Arena* ,1905 **Littell's Living Age** ,1903 **The Critic** Jeannette Leonard Gilder, Joseph Benson Gilder, 1899 *The Structure of Hauptmann's Dramas* Fannie Abelina Koch, 1912 *Social Tendencies in the Modern German Drama* Jean Harriet McLean Anderson, 1912 **Cultural Dissemination and Translational Communities** Katja Krebs, 2014-06-03 The early twentieth century is widely regarded as a crucial period in British theatre history it witnessed radical reform and change with regard to textual conceptual and institutional practices and functions Theatre practitioners and cultural innovators such as translators Harley Granville Barker William Archer and Jacob Thomas Grein amongst others laid the foundations during this period for what is now regarded to be modern British theatre In this groundbreaking work Katja Krebs offers one of the first extended attempts to integrate translation history with theatre history by analyzing the relationship between translational practice and the development of domestic dramatic tradition She examines the relationship between the multiple roles inhabited by these cultural and theatrical reformers directors playwrights critics actors and translators and their positioning in a wider social and cultural context Here she takes into consideration the translators as members of an artistic network or community the ideological and personal factors underlying translational choices the contemporaneous evaluative framework within which this translational activity for the stage occurred as well as the imprints of social and cultural traces within specific translated texts Krebs employs the examples from this period in order to raise a series of wider issues on translating dramatic texts which are important to a variety of periods and cultures Cultural Dissemination and Translational Communities demonstrates that an analysis of stage translational practices allows for an understanding of theatre history that avoids being narrowly national and instead embraces an appreciation of cultural hybridity The importance of translational activity in the construction of a domestic dramatic tradition is demonstrated within a framework of interdisciplinarity that enhances our understanding of theatrical translational as well as cultural and social systems at the international level **The Edinburgh Review** ,1903 *Modern Dramatists* Ashley Dukes, 1911 **The Twentieth Century 1890-1945** Raymond Furness, 2020-01-31 Originally published in 1978 this study presents a detailed analysis of the major literary movements in Austria and Germany from the end of the nineteenth century to the collapse of the Third Reich It examines the plethora of literary genres which marked the transition from the nineteenth to the twentieth century the short lived Naturalist movement rapidly giving way to various forms of symbolism and neo romanticism The situation in Vienna is studied in detail the concept of modernism vis vis expressionism with special regard to Rilke and Kafka The literature of the Weimar period is also analysed with emphasis on the symphonic novels of the time and the anti

illusionist devices of Brecht It also draws a comparison between the literary situation in Nazi Germany and the literature of exile and the positions of Thomas and Heinrich Mann Brecht and Gottfried Benn are examined Gerhard Hauptmann and the Naturalist Drama John Osborne, 2005-06-27 What was German Naturalism What were its achievements How does it compare with its counterparts in other European countries These are some of the difficult questions addressed by John Osborne in Gerhart Hauptmann and the Naturalist Drama a revised and updated version of his The Naturalist Drama in Germany now widely acknowledged as the standard introduction to the subject The debates to which he contributed and in some cases initiated on Naturalism in the German theatre Naturalist theory in Germany and the development of the Naturalist movement to the contemporary Social Democrat movement have remained central issues This revised edition preserves the structure and approach of the original including its emphasis on the early dramas of Hauptmann while taking full account of subsequent scholarship which provides the context in which this Naturalist playwright's work can be placed Naturalism in the Recent German Drama Alfred Stoeckius, 1903
