of the environment of perception of behaviour and of actions by artists and authors Other chapters address the body as subjected to circumstance representing the body as affected by factors such as illness injury treatment and death These myriad effects on the body are interpreted through the brushes of painters and the pens of authors for social and or personal control purposes The essays reveal critics insights when selfies are examined through a focused lens over a breadth of cultures The result complex and unique is that what is viewed the visual art and literature under discussion becomes a mirror image indistinguishable from the component viewing apparatus the lens The Aesthetic Border Brantley
