El hipopótamo de Dios José Tolentino Mendonça,2019-04-24 El hipopótamo de Dios es un conjunto de artículos escritos para distintos periódicos portugueses en los que durante años ha colaborado nuestro autor. Biblia, literatura, cultura y vida cotidiana recorren cada una de las páginas de este libro. Estamos ante un verdadero ejemplo de teología concebida no como ideología sino como ejercicio de interpretación creyente de la realidad y de una espiritualidad considerada la vida que no debe confundirse con un conjunto de consideraciones desencarnadas. Tolentino es uno de los más importantes exponentes del diálogo entre la fe y la cultura contemporáneas. A su vocación pastoral se une su voz de poeta en la búsqueda de un lenguaje pertinente y relevante para hacer una teología que sea accesible para el mayor número de personas tratando de integrar el vocabulario y la gramática de lo cotidiano en el discurso religioso. En más de una de sus obras ha demostrado y defendido el autor que la misión de la teología hoy es la de contribuir a la reconstrucción de una gramática de lo humano.

Pure and Programme Music in the Romanticism

Magda Polo Pujadas, 2019-10-04 One of the most difficult challenges a music theoretician faces be it historically philosophically or in other aspects is that of correctly and precisely framing the meaning that music has in a specific moment deducing the why and revealing the secret hidden within The book Pure and Programme Music in the Romanticism a rigorous and indispensable study to understand music in the period in which music as an expression of feelings begins to reach the threshold of the sublime primarily focusing attention on what pure and programme music represent Both types of music are instrumental but the difference between them is that the first one pure music exists on its own and for its own sake establishing an iron clad alliance with the form Programme music is inspired by other forms of artistic expression especially literature and is indelibly linked with the content However halfway between these two types of music a new one is born absolute music This music is the result from the dialectic established between the pure and programme exactly in the middle of two opposing philosophies that of Idealism and that of Materialism All of this context described in this book is what defines the essence of Romantic music but also what allows us to understand the music of the twentieth century and that of today because the controversy between pure music and programme music has represented in the history of western musical thought the turning point that led to the creation of the Gesamtkunstwerk Total Work of Art and the relationship between music and film for example as well as other artistic expressions
