Linguistics and Literary Studies / Linguistik und Literaturwissenschaft Monika Fludernik, Daniel Jacob, 2014-04-01 Die Beiträge des Bandes zeigen, dass die disziplinäre Begegnung zwischen Sprach- und Literaturwissenschaft weit mehr ist als eine Tradition akademischer Institutionen. In 16 allgemein theoretischen und textbezogenen Analysen werden Berührungspunkte zwischen den beiden Disziplinen beleuchtet, auch solcher institutioneller Art. Es werden die Gemeinsamkeiten und Unterschiede zwischen Alltagsdiskurs und Literatur herausgearbeitet und linguistische Begrifflichkeiten auf literarische Texte angewandt. Dies betrifft Fragen wie Sprechakt, Referenz und Inferenz, die Strukturen und die Relevanz des kognitiven und kulturellen Hintergrunds für beide Diskursformen, Rhetorik und Perspektivierungen, Sprach- und Schreibstile, Gattungen und andere Ebenen diskursiver Traditionen.

Les Idéologues Winfried Busse, Jürgen Trabant, 1986-01-01 Le présent volume réunit les contributions d'un colloque sur la pensée sémiotique et linguistique des Idéologues qui s'est tenu Berlin du 3 au 5 octobre 1983. Ce recueil d'articles fait suite à un fascicule de la revue *Histoire Épistémologie Langage* qui avait consacré au même sujet et dont il complète et amplifie les perspectives en ce qui concerne la portée européenne de la discussion. Le volume manifeste l'intérêt que beaucoup d'entre nous portent surtout dans les sciences du langage, ces philosophes longtemps négligés par l'histoire de la pensée.

A new companion to the Romance languages Martin Glessgen, 2024-09-03 The Romance languages offer unique potential for empirical analysis and methodological innovation within the vast field of linguistics due to the survival of a large body of historical documentation, the rich diversity of dialects and languages, and the exceptional quality of the research undertaken to date. However, these same factors have led to an ever-increasing volume of material available for study, requiring the establishment of a shared canonical knowledge base. This companion offers a balanced overview of the core subjects and the methodology which make up the field of Romance linguistics. It provides a solid foundation in the discipline as well as easy and convenient access to highly specialised areas of research by means of systematic references to the latest handbooks and encyclopedias. The companion is designed to be read from cover to cover or to be consulted for information on specific topics. Advanced students, early career researchers, lecturers, specialists of other languages, philologists and historians alike will all benefit from this accessible and up-to-date reference work as it enables readers to contextualise any knowledge of the discipline they may already possess.

Terminologie de la Traduction Jean Delisle, Hannelore Lee-Jahnke, Monique C. Cormier, 1999-07-15 This terminology collection presents approximately 200 concepts that can be considered the basic vocabulary for the practical teaching of translation. Four languages are included: French, English, Spanish, and German. Nearly twenty translation teachers and terminologists from universities in eight

countries Canada France Germany Spain Switzerland United Kingdom United States and Venezuela defined the concepts and presented them in pedagogical form with notes and examples The terms describe specific language acts the cognitive aspects involved in the translation process the procedures involved in transfer from one language to another and the results of these operations All of the terms in each section of the book are cross referenced A dozen tables help the reader understand the relationships between the concepts and a bibliography completes each section This vocabulary is designed to be a useful tool and contribution to the general quality of translator training
