Rolando Hinojosa Klaus Zilles, 2001 The first comprehensive interpretation of the work of a major figure in Chicano literature Klaus Zilles's study of the fourteen novels in Rolando Hinojosa's Klail City Death Trip series will appeal equally to the specialist to the student and to the interested reader of Hinojosa's intriguing and innovative Tejano novels The series is dedicated to revealing the suppressed oral history of Mexican Texas and to making the reader a companion on a quest for this elusive history Published between 1973 and 1998 the Klail City series ranges in historical time from the mid 1700s to the end of the twentieth century attesting to 250 years of Spanish Mexican presence in the Lower Rio Grande Valley of Texas The main body of Hinojosa's series however is set in fictitious Belken County located on the U S Mexico border and charts the lives of Hinojosa's two protagonists Rafe Buenrostro and his cousin Jeh Malacara two men raised in the rigidly segregated world of a South Texas farming community The Klail City series constitutes a truly novel approach to the novel each installment in the cycle differs from the one before it in genre the adult Buenrostro becomes a police detective and appears in several mystery novels in narrative style one novel is written entirely in verse while another takes epistolary form or in language Hinojosa writes in Spanish in English in Chicano idiom and in mixtures of all three Zilles's accomplishment is to provide a critical guide to the complicated fictional world that Hinojosa creates By showing the profusion of forms and styles Hinojosa deploys Zilles reveals the true dimensions of Hinojosa's design What makes Zilles so refreshing is his style He writes in a language accessible to the average reader His work is solid informative thoughtful and useful I recommend it highly Juan Bruce Novoa Harvard University

Thinking en español Jesús Rosales, 2014-11-06 Thinking en español captures conversations with leading Chicana and Chicano literary critics This unique book consists of interviews with founding members of Chicano criticism conducted by the author Jesús Rosales who through his conversations with leaders such as Luis

Leal Mar a Herrera Sobek Tey Diana Rebolledo and Juan Rodríguez shows the path of criticism from 1848 to the present. The twelve critics interviewed for this project share certain characteristics. For each one, Mexico plays an essential role in his or her personal and academic background and each is bilingual and bicultural, having received formal literary education in Spanish graduate programs. As products of the working class, each scholar here shares a sense of social consciousness and commitment that lends an urgency to their desire to promote Chicano literature and culture at the local, regional, national, and international levels. They serve as a source of inspiration and commitment for future generations of scholars of Chicano literature and leave a lasting legacy of their own. Thinking in Spanish legitimizes Chicano criticism as an established discipline and documents the works of some of the most important critics of Chicano literature at the turn of the twentieth and into the twenty-first century. This timely book immortalizes literary historical figures and documents the trajectory of Chicano criticism.

Narratives of Greater Mexico Héctor Calderón, 2004. Once relegated to the borders of literature, neither Mexican nor truly American Chicano writers have always been in the vanguard of change, articulating the multicultural ethnicities, shifting identities, border realities, and even postmodern anxieties and hostilities that already characterize the twenty-first century. Indeed, it is Chicano writers very in-betweenness that makes them authentic spokespersons for an America that is becoming increasingly Mexican, Latin American, and for a Mexico that is ever more Americanized. In this pioneering study, Hector Calderon looks at seven Chicano and Chicana writers whose narratives constitute what he terms an American Mexican literature. Drawing on the concept of Greater Mexican culture first articulated by Americo Paredes, Calderon explores how the works of Paredes, Rudolfo Anaya, Tomás Rivera, Oscar Zeta Acosta, Cherríe Moraga, Rolando Hinojosa, and Sandra Cisneros derive from Mexican literary traditions and genres that reach all the way back to the colonial era. His readings cover a wide span of time, 1892-2001, from the invention of the Spanish Southwest in the nineteenth century to the América Mexicana that is currently emerging on both sides of the border. In

addition to his own readings of the works Calder n also includes the writers perspectives on their place in American Mexican literature through excerpts from their personal papers and interviews correspondence and e mail exchanges he conducted with most of them *Rolando Hinojosa's Klail City Death Trip Series as an Historical Novel of Place* Mary Louise Espinosa,1992 The Americas Review ,1988
