From Power Politics to Conflict Resolution David J. Dunn, 2004-05-25 From Power Politics to Conflict Resolution surveys the development of the ideas of John W Burton an Australian civil servant and diplomat who became a prolific author in the fields of International Relations and Conflict Theory This work beginning with an introduction to his life and associations assesses the development of Burton s ideas at once critical of much of the conventional wisdom of International Relations as well as seeking to be innovative helping us to understand the issues of peace and conflict in a changing world A central theme is the development of a framework of ideas which Burton came to call provention *John W. Burton: A Pioneer in Conflict Analysis and Resolution* David J. Dunn, Hans Günter Brauch, Pamela Burton, 2024-04-26 This book charts John W Burton s transition from practitioner in diplomacy to pioneer in the theory of peace research thinking on world society and conflict resolution Born in 1915 given his father s name it was assumed that he would follow his father and become a Christian missionary He did not he joined the Australian Public Service From a junior position he rose rapidly He was forthright and some found him irritating or worse He progressed to the highest levels of policy making Amidst some controversy he resigned abruptly in 1951 He then worked on his farm outside Canberra writing avidly He did not intend to become an academic but in 1963 he was offered a position in International Relations at University College in London and he accepted He was key to the foundation of the International Peace Research Association IPRA in 1964 and of the Conflict Research Society in the UK because he thought that words and ideas were not enough there needed to be instruments of change Looking back he was in fact a secular missionary His aim Simple to change the world This book is an exploration of how conflict should be reinterpreted The ideas of his work are a product not of any metaphysical approach but of experience Burton knew the field Cold War diplomacy civil strife reforming organisations resistance to change He had been there and he found much to criticise This book illustrates what he had to offer and explains why These readings reveal shifts in his ideas cohering incrementally integrated into a new framework This book presents his pioneering and relevant work Transcending disciplinary boundaries it will be of interest to students as well as professionals who address conflict at all levels of society from family to state **Conflict Resolution and Human Needs** Kevin Avruch, Christopher Mitchell, 2013-05-02 This edited volume examines Basic Human Needs theory and interactive problem solving looking at recent developments in thinking about both and how these might affect peacebuilding in contemporary conflicts of the twenty first century The era in the immediate aftermath of World War II was paradoxically a time of great optimism in parts of academia There was especially in the United States and much of Europe a widespread belief in the social sciences that systematic scholarly analysis would enable humanity to understand and do something about the most complex of social processes and thus about solving persistent human problems unemployment delinquency racism under development and even issues of conflict war and peace This book examines the evolution of the Basic Human Needs theory and is divided into two key parts Basic Human Needs in

Theory and Basic Human Needs in Practice Exploring this theory through a wide range of different lenses including gender ethics and power the volume brings together some of the leading scholars in the field of peace and conflict studies and draws upon research both past and present to forecast where the movement is headed in the future This book will be of much interest to students of peace and conflict studies conflict resolution psychology security studies and IR Handbook of Conflict Analysis and Resolution Dennis J.D. What Is Enlightenment? Mohammed D.

Cherkaoui, 2016-04-11 Political sociology has struggled with predicting the next turn of transformation in the MENA countries after the 2011 Uprisings Arab activists did not articulate explicitly any modalities of their desired system although their slogans ushered to a fully democratic society These unguided Uprisings showcase an open ended freedom to question after Arabs underwent their freedom from struggle from authoritarianism The new conflicts in Egypt Syria Yemen and Libya have fragmented *shari'a* legitimacy into distinct conceptualizations revolutionary legitimacy electoral legitimacy legitimacy of the street and consensual legitimacy This volume examines whether the Uprisings would introduce a replica of the European Enlightenment or rather stimulate an Arab Islamic awakening with its own cultural specificity and political philosophy By placing Immanuel Kant in Tahrir Square this book adopts a comparative analysis of two enlightenment projects one Arab still under construction with possible progression toward modernity or regression toward neo authoritarianism and one European shaped by the past two centuries Mohammed D Cherkaoui and the contributing authors use a hybrid theoretical framework drawing on three *tanwiri* enlightenment philosophers from different eras Ibn Rushd known in the west as Averroes the twelfth century Immanuel Kant the eighteenth century and Mohamed Abed Al Jabri the twentieth century The authors propose a few projections about the outcome of the competition between an Islamocracy vision and what Cherkaoui terms as a Demoslamic vision since it implies the Islamist movements flexibility to reconcile their religious absolutism with the prerequisites of liberal democracy This book also traces the patterns of change which point to a possible Arab Axial Age It ends with the trials of modernity and tradition in Tunisia and an imaginary speech Kant would deliver at the Tunisian Parliament after those vibrant debates of the new constitution in 2014
