**The ANC's War against Apartheid** Stephen R. Davis, 2018-02-02 This study of the armed wing of the African National Congress also contributes significantly to scholarship on liberation movements more broadly Gary Baines author of South Africa's Border War For nearly three decades the armed wing of the African National Congress ANC known as Umkhonto we Sizwe MK waged a violent revolutionary struggle against the apartheid state in South Africa Stephen Davis works with extensive oral testimonies and the heroic myths that were constructed after 1994 to offer a new history of this movement Davis deftly addresses the histories that reinforce the legitimacy of the ANC as a ruling party its longstanding entanglement with the South African Communist Party and efforts to consolidate a single narrative of struggle and renewal in concrete museums and memorials Davis shows that the history of MK is more complicated and ambiguous than previous laudatory accounts would have us believe and in doing so he discloses the contradictions of the liberation struggle as well as its political manifestations

*Umkhonto we Sizwe* Thula Simpson, 2016-03-01 The armed struggle waged by the ANC's military wing Umkhonto we Sizwe MK was the longest sustained insurgency in South African history This book offers the first full account of the rebellion in its entirety from its early days in the 1950s to the inauguration of Nelson Mandela as South African president in 1994 Vast in scope this story traverses every corner of South Africa and extends throughout southern Africa where MK's largest campaigns and heaviest engagements occurred as well as to the solidarity networks that the rebellion mobilised around the world Drawing principally from previously unpublished writings and testimonies by the men and women who fought the armed struggle this book recreates the drama heroism and tragedy of their experiences It tells the story of leaders like Nelson Mandela Oliver Tambo Joe Slovo and Chris Hani whose reputations were forged in the crucible of the armed struggle but it is also a tale of martyrs such as Looksmart Ngudle Ashley Kriel and Phila Ndwandwe as well as of MK cadres such as Leonard Nkosi and Glory Sedibe who would ultimately turn against the ANC and collaborate with the state in hunting down their former comrades Written in a fresh immediate style Umkhonto we Sizwe is an honest account of the armed struggle and a fascinating chronicle of events that changed South African history

**The Terrorist's Dilemma** Jacob N. Shapiro, 2015-07-21 How do terrorist groups control their members Do the tools groups use to monitor their operatives and enforce discipline create security vulnerabilities that governments can exploit This title examines the great variation in how terrorist groups are structured

From Boys to Men Tamara Shefer, 2007 The current emphasis in research and education on women and girls is fraught with problems It has raised a concern that boys and men should be included in research and intervention work on gender equality and transformation As a result academics with a background of many years of work in women's and gender studies undertook a research project focusing on the construction of masculinities among young men From Boys to Men was born out of this project This highly original work arises from the

conference From Boys to Men held in January 2005 It represents the work of some of the best known theorists and researchers in masculinities and feminism in South Africa on the continent and internationally The subjects covered are based on rich ethnographic studies mostly in South Africa but also elsewhere in Africa Acknowledging that there are multiple versions of masculinity and that some are more valued than others this book is concerned with documenting both hegemonic discourses on masculinity as well as resistances and challenges to dominant forms of being a boy or man in different contexts of space and time From Boys to Men provides valuable material for those working with issues of gender identity and power and will sharpen understanding of males inform community based interventions and facilitate theory building This impressive collection of research on men boys and masculinities would have been impossible just a generation ago It took the worldwide impact of the women s liberation movement and the many feminisms that have since developed to bring gender into focus and to bring men into focus as participants in a gender system Raewyn Connell Professor at the University of Sydney author of Masculinities 1995 Given the extant paucity of research and literature on masculinities this book will undoubtedly prove to be an invaluable resource for scholars in the field of gender studies The editors of the volume should be commended for this timely well constructed and significant contribution to the literature on masculinities studies both in South Africa and internationally Norman Duncan Chair of Psychology University of the Witwatersrand Setting this collection apart from existing scholarship on masculinities in South Africa is its interrogation of the gendered rhetoric of boyhood and manhood in the context of HIV Aids This is a multilayered and rich collection that suggests masculinities have the potential to be unmade and remade The volume usefully opens up new avenues of analysis telling us that masculinities are always in process under negotiation contradictory for ever in crisis Vasu Reddy Gender and Development Unit Human Sciences Research Council

**The Road to Democracy in South Africa: 1970-1980** South African Democracy Education Trust,2004 v 3 The third volume in the series examines the role of anti apartheid movements around the world The global anti apartheid movement was very successful in creating awareness of the liberation struggle in South Africa and in contributing to the downfall of the apartheid government This volume in 2 parts brings together analyses which in the main are written by activist scholars with deep roots in the movements and organizations they are writing about Rules for Rebels Max Abrahms,2018-09-04 Ever wonder why militant groups behave as they do For instance why did Al Qaeda attack the World Trade Center whereas the African National Congress tried to avoid civilian bloodshed Why does Islamic State brag over social media about its gory attacks while Hezbollah denies responsibility or even apologizes for its carnage This book shows that militant group behaviour depends on the tactical intelligence of the leaders The author has extensively studied the political plights of hundreds of militant groups throughout world history and reveals that successful militant leaders have followed three rules These rules are based on original insights from the fields of political science psychology criminology economics management marketing communication and sociology It turns out there s a science to victory in militant history But even rebels must

follow rules      *The Cambridge History of South Africa: Volume 2, 1885-1994* Robert Ross, Anne Kelk Mager, Bill Nasson, 2011-08-15 This book surveys South African history from the discovery of gold in the Witwatersrand in the late nineteenth century to the first democratic elections in 1994. Written by many of the leading historians of the country, it pulls together four decades of scholarship to present a detailed overview of South Africa during the twentieth century. It covers political, economic, social, and intellectual developments and their interconnections in a clear and objective manner. This book, the second of two volumes, represents an important reassessment of all the major historical events, developments, and records of South Africa and will be an important new tool for students and professors of African history worldwide as well as the basis for further development and research.

**Writing as Resistance** Paul Gready, 2003-01-01 Writing as Resistance charts the inner workings of apartheid through the encounters, imprisonment, exile, and homecoming that crucially defined its violent reign and ultimate overthrow. Author Paul Gready demonstrates the transformative nature of autobiographical narrative as resistance in the context of political struggle. This multidisciplinary study addresses a range of important contemporary topics: migration, postcolonialism, globalization, nationalism, human rights, and political democratization, among others. While informed by the work of South African writers including Breytenbach, Coetzee, First Krog, Modisane, and Serote, and adding to the literature on the apartheid era, this book speaks to all cultures of violence. With this important work, Gready sheds new light on the relationship between violence and creativity.

**The Communist Challenge to Africa** Ian Greig, 1977 The nineteen sixties and seventies have been troubled times for Africa. The West's rush to decolonize left an open door for the world's new colonizing super power, Russia. When Russia, and to a lesser extent China, moved through that door, the stage was set for the chaos and bloodshed that has become part and parcel of life on the continent. Ian Greig, Deputy Director of the Foreign Affairs Research Institute in London and author of the authoritative *The assault on the West*, has taken a close look at the pattern of events that has emerged in Africa and makes it plain that foreign Communism is using the liberation of Africa as a stepping stone to its self-proclaimed goal of world domination. South Africa, South West Africa, and Rhodesia are clearly obstacles on the way to this goal, obstacles that Moscow would very much like removed. The conclusions drawn by the author are not pleasant, but they must be faced.

*From Protest to Challenge, Volume 5* Thomas G. Karis, Gail M. Gerhart, 1997 The essays are meticulous and carefully documented accounts which maintain the standard of excellence set by the previous volumes, all of which belong in every library. Based on extensive documentary archives collected by these researchers and augmented by interviews with virtually all of the significant anti-apartheid activists, this volume covers a formative period in the struggle against white minority rule, 1964-1979. Africa Today, a substantial achievement, a wonderful resource for future generations of scholars. *South African Historical Journal* Karis and Gerhart's

fifth volume is an invaluable addition to their earlier documentary history of the national liberation struggle in South Africa and includes a priceless collection of new primary historical sources It ignites vivid flashes of memory from the Foreword by Nelson Mandela Volume 5 of this magnificent historical record continues the indispensable study of the struggle for freedom and justice in South Africa In addition to extensive background essays it includes formal documents underground and ephemeral materials and statements written in exile or in Robben Island prison that have not previously been published
