From The Center Of The Earth Stories Out Of The Peace Corps:

From the Center of the Earth Geraldine Kennedy, 1991 Maps of exotic often unfamiliar locales are included in this collection of 9 fictional and 4 autobiographical tales by former Peace Corps members [Voices from the Peace Corps](#) Angene Wilson, 2011-03-01 President John F Kennedy established the Peace Corps on March 1 1961 In the fifty years since nearly 200 000 Americans have served in 139 countries providing technical assistance promoting a better understanding of American culture and bringing the world back to the United States In *Voices from the Peace Corps Fifty Years of Kentucky Volunteers* Angene Wilson and Jack Wilson who served in Liberia from 1962 to 1964 follow the experiences of volunteers as they make the decision to join attend training adjust to living overseas and the job make friends and eventually return home to serve in their communities They also describe how the volunteers made a difference in their host countries and how they became citizens of the world for the rest of their lives Among many others the interviewees include a physics teacher who served in Nigeria in 1961 a smallpox vaccinator who arrived in Afghanistan in 1969 a nineteen year old Mexican American who worked in an agricultural program in Guatemala in the 1970s a builder of schools and relationships who served in Gabon from 1989 to 1992 and a retired office administrator who taught business in Ukraine from 2000 to 2002 *Voices from the Peace Corps* emphasizes the value of practical idealism in building meaningful cultural connections that span the globe

The Peace Corps Experience P. David Searles, 2021-12-14 For more than 35 years the Peace Corps has pursued John F Kennedy's vision of helping people of the Third World build a better life Yet with the exception of a few celebrations of its early years little effort has been made to document that organization's history Now a former deputy director of the Peace Corps offers a first hand look at life in the agency both in the field and at headquarters and a radical reinterpretation of its history during the Nixon and Ford administrations By the end of the 1960s the Peace Corps was in disarray Debate raged over its effectiveness and many new volunteers embraced the antiestablishment behavior of the day's youth When President Nixon appointed Joseph Blatchford as director in 1969 some insiders felt the agency's days were numbered especially when Blatchford set about re-evaluating the Peace Corps mission and initiated a program called New Directions to reorient its work Many observers simply lump Blatchford's efforts with the failures and faults of the Nixon administration David Searles however contends that the new director's initiatives revitalized the Peace Corps and made it a more relevant organization Searles faithfully relates the history of these policies and their implementation in the field drawing on his personal experience as country director for the Peace Corps in the Philippines He shows how despite constant carping from veterans of the early Peace Corps and much furor at headquarters New Directions reenergized the agency and renewed and reaffirmed the Peace Corps mission Searles's descriptions of political maneuverings are incisively observed and his firsthand characterizations of Peace Corps life richly impart the joys and frustrations of volunteer work *The Peace Corps Experience* will give historians a new perspective on the agency and will also interest anyone who has served in the Peace Corps or who
