 Authorship* Jonathan Gray,Derek Johnson,2013-02-12 A Companion to Media Authorship Gray and Johnson have brought
 together a stellar group of authors whose works deftly explicate the complexities of negotiating authorship across a range of
 cultural production sites This definitive collection is an important and long overdue contribution to contemporary media
 studies Serra Tinic author of On Location Canada s Television Industry in a Global Market Wide ranging and global historical
 and contemporary brimming with insights enlarging our understanding of media production and reception this book is an
 important contribution to the study of authorship Michael Z Newman author of Indie An American Film Culture While the
 idea of authorship has transcended the literary to play a meaningful role in the cultures of film television games comics and
 other emerging digital forms our understanding of it is still too often limited to assumptions about solitary geniuses and
 individual creative expression A Companion to Media Authorship is a ground breaking collection that reframes media
 authorship as a question of culture in which authorship is as much a construction tied to authority and power as it is a
 constructive and creative force of its own Gathering together the insights of leading media scholars and practitioners 28
 original chapters map the field of authorship in a cutting edge multi perspective and truly authoritative manner The
 contributors develop new and innovative ways of thinking about the practices attributions and meanings of authorship They
 situate and examine authorship within collaborative models of industrial production socially networked media platforms
