From The Opium War To The May 4th Movement Vol1:

From the Opium War to the May Fourth Movement Sheng Hu, 1991 Peking University and the Origins of Higher Education in China Ping Hao, 2013 Renowned as one of the most distinguished universities in the world Peking University PKU or colloquially Beida has been at the forefront of higher education in China since its inception Its roots arguably date to the origin of Chinese higher education Hao Ping traces the intricate evolution of the university beginning with the preceding institutions that contributed to its establishment and stretching from the first Opium War of 1839 through the first of several eye opening defeats for the then isolated Middle Kingdom to the Xinhai Revolution and the early days of the Republic of China Hao Ping chronicles the contentious debates between reform minded leaders who championed Western models of learning and conservatives who favored the traditional schooling and examination system providing readers with details about the workings of the imperial court as well as the individual officials and scholars involved in Chinese educational reform This authoritative history of the founding of Peking University defends the university's claim to be the first modern university in China and offers insight into the formation of higher education as it exists in China today *Walking with Those Asian Tiger Families* Kin Kok Low, 2019-11-26 This JOURNEY describes the lives of several Chinese families living in a foreign country Australia they later call home Chan Ah Kow and wife Sussan Leong left two well paid careers in kiasu Singapore to re start life in Australia The Hoys from Guangzhou arrived in Australia as early settlers since the gold mining days in the 1880s and yet are made to feel they are foreigners The Lius from Beijing came to Australia on business visa They feel privileged to be Australians and proud of their Motherland China Kevin Hartono scion of a wealthy Indonesian Chinese family found his ideal wife Liu Bing Bing a medical doctor Wong Ah Tuck left colonial Hong Kong to Melbourne as a yat kok tek at Little Bourke Street Cantonese word for a casual worker in a Chinese restaurant and married Malaysian Colombo Plan student Karen Teoh who set up her own law practice because no White law firm was willing to hire her even though she topped her final year law class at Monash University Jonathan Low has to rebuild his personal brand and changed profession from a highly qualified technology professional to a customer services associate working for a big Australian retail company Cheong Sook left Shatin Hong Kong to Melbourne's Chinatown as a yat kok tek ending up as restaurant owner and accepted Jesus as his Lord and Saviour Exploring Educational Policy Transfer Yijun Yang, 2024-08-23 This book examines the detailed process of China's borrowing from the Japanese vocational education model from the perspective of educational policy transfer It is expected that a systematic examination of the history of China's borrowing of Japanese vocational education through the lens of educational policy transfer will on the one hand fill the gap in the study of the history of vocational education in China from the perspective of educational policy transfer and on the other hand allow the applicability of the educational transfer theoretical framework to be tested through the example of China's borrowing from Japanese vocational education **The SAGE Handbook of Contemporary China** Weiping Wu, Mark Frazier, 2018-07-09

The study of contemporary China constitutes a fascinating yet challenging area of scholarly inquiry. Recent decades have brought dramatic changes to China's economy, society, and governance. Analyzing such changes in the context of multiple disciplinary perspectives offers opportunities as well as challenges for scholars in the field, known as contemporary China Studies. The SAGE Handbook of Contemporary China is a two-volume exploration of the transformations of contemporary China, firmly grounded in both disciplinary and China-specific contexts. Drawing on a range of scholarly approaches found in the social sciences and history, an international team of contributors engage with the question of what a rapidly changing China means for the broader field of contemporary China studies and identify areas of promising future research.

Authority and Welfare in China M. Twohey, 1998-12-07 This book describes the relationship between political authoritarianism and people's welfare in modern China. Based on a study of Chinese political discourse from the 1898 reform period to the present, the book demonstrates that support for authoritarian rule in modern China is best understood when compared to ancient political traditions of authority and welfare that were established in China's late Zhou dynasty by the Confucian philosopher Xunzi (298-238 BC).

Whither China? Xudong Zhang, 2002-03-28 Chinese cultural and intellectual politics waned after the Tiananmen Square incident. This volume explores their revitalization in the 1990s.

On China's History of Modernization Jie Li, 2025-01-03 This book offers a comprehensive understanding of the developments in the modern Chinese history since the Opium War in 1840 by reflecting on the history of the Communist Party of China, the history of China since 1949, the history of the economic reform and opening up, and the history of China's socialist institutional construction, respectively. Taking time as the warp and events as the weft, it tries to summarize the fundamental changes across the past 200 years in China, which the author believes have been a glorious journey from poverty and weakness to rejuvenation. In context, this book tries to rationalize the formation of the governing laws of the Communist Party of China, the laws of socialist construction, and the laws of human historical development. It aims to provide a perspective for the international community to understand China's fundamental ideal of peaceful development.

Alternative Representations of the Past Ying-Kit Chan, Fei Chen, 2020-11-23 The relationship between the Chinese nation and its recent past has been fraught with contradictions and tensions. This collection aims to make sense of this complex relationship and challenge the prevalent state-centric and nation-centric modes of history writing on modern China. It explores alternative representations of the past and the salience of political conflicts and competitive histories in China, highlighting the paradoxical similarities in such representations of the past from the late nineteenth century to the present. Ultimately, this book contributes to the ongoing discussion on the politics of interpreting the past and its many manifestations in both China

and other societies This volume will contribute to the scholarly debate on the use of the past in national history Tze ki Hon City University of Hong Kong *Alternative Representations of the Past* presents a collection of essays that critically examine the ways in which the contradicting and contested enterprise of history has been politicized in China As memory is past made present the meticulous re evaluation of Chinese history by the contributors of this volume promises to offer readers valuable insights into contemporary China Chang Yau Hoon Associate Professor and Director Centre for Advanced Research Universiti Brunei Darussalam

Confucius Michael Schuman, 2015-03-03 Confucius is perhaps the most important philosopher in history Today his teachings shape the daily lives of more than 1.6 billion people Throughout East Asia Confucius's influence can be seen in everything from business practices and family relationships to educational standards and government policies Even as western ideas from Christianity to Communism have bombarded the region Confucius's doctrine has endured as the foundation of East Asian culture It is impossible to understand East Asia journalist Michael Schuman demonstrates without first engaging with Confucius and his vast legacy Confucius created a worldview that is in many respects distinct from and in conflict with Western culture As Schuman shows the way that East Asian companies are managed how family members interact with each other and how governments see their role in society all differ from the norm in the West due to Confucius's lasting impact Confucius has been credited with giving East Asia an advantage in today's world by instilling its people with a devotion to learning and propelling the region's economic progress Still the sage has also been highly controversial For the

past 100 years East Asians have questioned if the region can become truly modern while Confucius remains so entrenched in society He has been criticized for causing the inequality of women promoting authoritarian regimes and suppressing human rights Despite these debates East Asians today are turning to Confucius to help them solve the ills of modern life more than they have in a century As a wealthy and increasingly powerful Asia rises on the world stage Confucius too will command a more prominent place in global culture Touching on philosophy history and current affairs Confucius tells the vivid dramatic story of the enigmatic philosopher whose ideas remain at the heart of East Asian civilization
