From Ode To Anthem Problems Of Lyric P:

From Ode to Anthem Reinhold Grimm, Jost Hermand, 1989 Eight contributions expanded and revised from the U of Wisconsin Dept of German s Seventeenth Wisconsin Workshop on title held in October 1986 The papers extend from historical surveys and general topologies to specifically modern trends and theories More than three years from workshop to publication and no index Annotation c 2003 Book News Inc Portland OR booknews com Atlantic Poets Maria Irene Ramalho Sousa Santos, 2003 An important new reading of Portugal s greatest poet **Re-reading Wagner** Reinhold Grimm, Jost Hermand, 1993 This multidisciplinary collection of readings offers suggestive new interpretations of Richard Wagner s ideological position in German history The issues discussed range from the biographical the reasons for Wagner s travels his spotted political life to the aesthetic and ideological regarding his re creation of medieval Nuremberg his representations of gender and nationality his vocal iconography his anti Semitism and his vegetarian arguments and finally his musical heirs The essays are written by Tamara S Evans Edward R Haymes Peter Uwe Hohendahl Peter Morris Keitel Alexa Larson Thorisch Audrius Dundzila Marc A Weiner Jost Hermand Frank Trommler and Hans Rudolf Vaegt Avoiding journalistic or iconoclastic approaches to Wagner these writers depart from the usual uncritical admiration of earlier scholars to develop a stimulating and ultimately cohesive collection of new perspectives **The Visual Poetry of Vicente Huidobro, José Juan Tablada, and Octavio Paz** Maria Ines Fleck, 1995 **High and Low Cultures** Reinhold Grimm, Jost Hermand, 1994 As the editors write in this volume while the dichotomy of high and low classical and popular elitist and trivial has occupied theorists of culture for centuries very few of them have paid more than scant attention to the various attempts at mediating between these two levels of cultural endeavor The essays collected here most delivered at the twenty second Wisconsin Workshop in October 1991 address exactly this aspect of cultural studies using modern Germany as their canvas The contributors range across the entire breadth of German cultural life analyzing developments in the arts literature poetry architecture and cinema as well as looking at contemporary writing by women and at changes in cultural depictions of sexuality Germany s political paroxysms throughout the last hundred years figure prominently in the evolution of its cultural consciousness so there is in these essays a strong sense of nation invented perfected lost and recovered but always fascinating A totally homogenized German culture one devoid of any higher aspirations will be the impoverished result of postmodernism the editors warn It is their goal to remind those who are all too eager to overlook the losses occurring in this process that this tendency can also besides its positive democratic aspect lead to one dimensionality The Grove Encyclopedia of American Art Joan M. Marter, 2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America with over 2300 entries From the Greeks to the Greens Reinhold Grimm, Jost Hermand, 1989 Ranging from Hellenistic pastoral to the contemporary counterculture activities of the Greens the essays in this volume underscore the complexity of simplicity Whether the simple life is located in a culture s past or in its future in a

secluded corner or beyond society's boundaries it remains a fascinating subject for discussion *Wittgenstein, Kraus, and Valéry* Luis Miguel Isava, 2002 This book attempts to establish a paradigm for the way language works that is means and creates meaning in contemporary Western poetry The model is developed from a rereading of Ludwig Wittgenstein's theory of language a rereading that is complemented with Karl Kraus's conception of language creation and Paul Valéry's theories of poetry and language The implications of the paradigm are then explored from several perspectives the process of writing and reading the mechanisms of language combination the ideational content of its crystallizations meanings and their materiality as linguistic objects As a result the paradigm allows us to understand the philosophical import of poetry as a form of life inextricably attached to the signifying mechanisms of language *Our Own Devices* Ewan Morris, 2005 National symbols have long been highly contentious in Ireland and they remain so today While there have been a number of studies which have examined the role of symbols in the contemporary conflict in Northern Ireland as yet there has been no detailed study of debates about national symbols in twentieth century Ireland This book fills that gap outlining the historical background to the continuing controversy about national symbols in Ireland and shedding new light on the deep political divisions which have marked Irish society throughout this century *Our Own Devices* focuses on the crucial period from 1922 to 1939 which saw the creation and consolidation of new governments in the Irish Free State and Northern Ireland It also examines in detail the selection of official symbols of state by governments in both parts of Ireland and public responses to those symbols Having discussed the conflicts over symbols which took place in the early decades of the two states the book concludes by bringing the story up to date and relating earlier controversies about national symbols to current debates about the role of symbols in conflict and peacemaking in Northern Ireland This study is a pioneering work in this relatively new area of Irish history and is based on extensive original research using many sources which have not previously been cited in published works **War and Its Uses** Jürgen Kleist, Bruce A. Butterfield, 1999 Not intellectual profiteering exactly but the creative responses to war are the subject of the 19 essays from a symposium for which neither date nor location is identified They focus on large conflicts of the 20th century involving the US and smaller ones in Spain Israel and Ireland but also consider medieval chivalric contests and one even looks at the literary and scientific responses to insect wars Annotation copyrighted by Book News Inc Portland OR **Beyond the Page** Angélica Jiménez Huizar, 2008 This scholarly monograph offers a fresh look at modern experimental poetry in Spanish Portuguese and French produced in Latin America The work uses a variety of interdisciplinary approaches to examine how these experimental poetic forms can be best interpreted and understood through a performative lens Examined structures and textures inherent in these performed works vary they include paintings typographical art optophonetic visual representations of sounds techniques and music to name only a few examples The investigative scope of the study is large it includes texts from Mexico Argentina Chile Uruguay and Brazil and includes texts in Spanish Portuguese and French Through detailed analysis Professor Huizar demonstrates what we can read in the visual

and sound components of these poems as performance on a page and while these may be limited on the bound text they do produce a performativity that is predictive of current technological innovations of the canon whose performative and interactive aspects include the latest multi media technologies resulting in forms as cyper poetry and hypertextuality electronic music and pictorial language The textual analysis is informed by a variety of semiotic performance theories Elam de Marinis and Pavis The final chapter deals with currents in today s Latin America poetry world with an emphasis on the technological and cultural energies that are revolutionizing the poetic and linguistic content of the region This is one of the first studies in this area of research and opens new ground for specialists It offers a comprehensive as well as an analytical view of the interdisciplinary practices something lacking in previous studies in Latin American poetry Recommended Professor Laura Lopez Fernandez University of Canterbury Lyric Tragedy Ronald P Draper,1985-08-12 Arts & Humanities Citation Index ,1998 *The Cambridge History of English Literature, 1660-1780* John Richetti,2005-01-06 The Cambridge History of English Literature 1660 1780 offers readers discussions of the entire range of literary expression from the Restoration to the end of the eighteenth century In essays by thirty distinguished scholars recent historical perspectives and new critical approaches and methods are brought to bear on the classic authors and texts of the period Forgotten or neglected authors and themes as well as new and emerging genres within the expanding marketplace for printed matter during the eighteenth century receive special attention and emphasis The volume s guiding purpose is to examine the social and historical circumstances within which literary production and imaginative writing take place in the period and to evaluate the enduring verbal complexity and cultural insights they articulate so powerfully Coping with the Past Kathy Harms,Lutz-Rainer Reuter,Volker Dürr,1990 The defeat of Hitler in 1945 left Germany a tabula rasa Normal personal civic and political life had to be reconstructed on entirely new foundations The overriding question of German guilt naturally gave rise to other questions How could the German catastrophe have come about in 1933 How did the successor states the Federal Republic of Germany the German Democratic Republic and Austria view their joint past In what ways did they rebuild their political economic and social structures *De la Grande Guerre au totalitarisme* George Mosse,2015-03-13 George L Mosse 1918 1999 a t professeur l universit de Madison et celle de J rusalem Il est l auteur de nombreux ouvrages dont La R volution fasciste Seuil 2003 et Les Racines intellectuelles du Troisi me Reich Calmann L vy 2006 En 1914 une g n ration s engagea dans la guerre pour ce qu elle croyait tre une cause juste Quatre ans de conflits entra n rent la mort de dix millions d hommes et branl rent en profondeur les soci t s et les r gimes europ ens Dans cet ouvrage George L Mosse tudie ce qu il appelle la brutalisation des soci t s europ ennes Loin de la d mentir une fois la paix revenue les formes de la comm moration occult rent le souvenir du carnage en Allemagne en Italie comme dans les pays vainqueurs afin d exorciser le traumatisme on pr f ra exalter le martyr des soldats en sacralisant leur combat C est ainsi qu est n le culte quasi religieux du soldat qu voquent les monuments aux morts ou les cartes postales Le livre de George L Mosse d sormais classique a

Poiēsis, Technē and Silent Writing Ingrid Swanberg Markhardt,2005 *Laughter Unlimited* Reinhold Grimm,1991
Since Aristotle critics have struggled to distinguish between laughter in comedy and laughter in everyday life In the theatre distance breaks the aggressive spell of laughter the audience laughs without hurting anyone and laughter becomes an aesthetic experience But comedy more than tragedy seems bound to the customs and social mores of the time that it satirizes what is humorous to an audience in one society is no laughing matter in another **Bibliographic Guide to Conference**
