From Our Yard Jamaican Poetry Since Independence:

From Our Yard Pamela Mordecai, 1994 **From Our Yard** Pamela Mordecai, 1987 **An Introduction to West Indian Poetry** Laurence A. Breiner, 1998-09-10 This introduction to West Indian poetry is written for readers making their first approach to the poetry of the Caribbean written in English. It offers a comprehensive literary history from the 1920s to the 1980s with particular attention to the relationship of West Indian poetry to European African and American literature. Close readings of individual poems give detailed analysis of social and cultural issues at work in the writing. Laurence Breiner's exposition speaks powerfully about the defining forces in Caribbean culture from colonialism to resistance and decolonization.

A History of Literature in the Caribbean A. James Arnold, 1997-08-15 Cross Cultural Studies is the culminating effort of a distinguished team of international scholars who have worked since the mid 1980s to create the most complete analysis of Caribbean literature ever undertaken. Conceived as a major contribution to postcolonial studies, cultural studies, cultural anthropology, and regional studies of the Caribbean and the Americas, Cross Cultural Studies illuminates the interrelations between and among Europe, the Caribbean islands, Africa, and the American continents from the late fifteenth century to the present. Scholars from five continents bring to bear on the most salient issues of Caribbean literature: theoretical and critical positions that are currently in the forefront of discussion in literature, the arts, and public policy. Among the major issues treated at length in Cross Cultural Studies are: The history and construction of racial inequality in Caribbean colonization; The origins and formation of literatures in various Creoles; The gendered literary representation of the Caribbean region; The political and ideological appropriation of Caribbean history in creating the idea of national culture in North and South America, Europe, and Africa; The role of the Caribbean in contemporary theories of Modernism and the Postmodern; The decentering of such canonical authors as Shakespeare; The vexed but inevitable connectedness of Caribbean literature with both its former colonial metropolises and its geographical neighbors. Contributions to Cross Cultural Studies give a concrete cultural and historical analysis of such contemporary critical terms as hybridity, transculturation, and the carnivalesque, which have so often been taken out of context and employed in narrowly ideological contexts. Two important theories of the simultaneous unity and diversity of Caribbean literature and culture propounded by Antonio Benítez Rojo and Édouard Glissant receive extended treatment that places them strategically in the debate over multiculturalism in postcolonial societies and in the context of chaos theory. A contribution by Benítez Rojo permits the reader to test the theory through his critical practice. Divided into nine thematic and methodological sections followed by a complete index to the names and dates of authors and significant historical figures discussed, Cross Cultural Studies will be an indispensable resource for every library and a necessary handbook for scholars, teachers, and advanced students of the Caribbean region.

The Heinemann Book of Caribbean Poetry Ian McDonald, Stewart Brown, 1992 This collection is an invaluable academic selection and will provide a fine introduction for the general reader interested in the lyricism of Caribbean poetry. *The Routledge Reader in*
