From The Loving Earth:

Love Earth Now Cheryl Leutjen, 2018-01-15 How to live sustainably in an unsustainable society and not let the world discourage your spirit Do you find yourself wondering what on Earth you can do about the very serious environmental challenges we face on our planet today Do you worry there s nothing any one person can do that will make a difference Most people say that they would like to do something to make the world a better place but they just don t believe they have the time energy money or power to make a real difference Love Earth Now invites us to explore our own thoughts and feelings about the challenge and to check in with internal guidance about the waste and negative environmental impacts we see on a daily basis While most of us can t stop the Arctic icepack from melting we can decide to make better choices like avoiding excessive packaging with our purchases walking more and driving less planting organic veggies in the front yard instead of a water wasting lawn and even going as green as possible at work and at home Does your office lack a recycling and composting program Do the research and start one yourself Each chapter concludes with a Diving In section a simple and immediate exercise much like a guided meditation to prompt us toward our own sustainable solutions By practicing eco mindfulness we can discover that one thing we can do to make a difference today and for all our tomorrows This is not only a source of inspiration but a sourcebook of direct actions large and small we can all take to ensure our children and their children s children have a healthy future on this planet Drawing from her experiences as an engineering geologist environmental law attorney small shop owner and mindfulness practitioner Cheryl Leutjen also reminds us about the importance of simplicity and how all our possessions and the constant shopping for more are no better for us than they are for the planet itself contributing to landfills and a tech tethered society that is increasingly isolated Both helpful and hopeful Love Earth Now is brimming with creative suggestions that will get us closer to a sustainable lifestyle one day at a time

Bocker, 2016-09-13 As a young Norwegian Lutheran teenager in rural Wisconsin Bocker lay awake one night worrying whether he believed in Jesus enough to get to heaven This getting to heaven anxiety reflected an excessive focus on individual salvation and a loss of concern for

the well being of the Earth community A faith journey that leaves Earth behind is misguided Ever since those early teen years Bocker has been on a journey to come home to Earth Coming Home to Earth makes the case that there is no salvation apart from Earth and that Earth care is at the core of our identity and mission as followers of Jesus The ecological consequences of a loss of concern for the well being of Earth have been devastating Bocker is especially concerned to determine what will motivate followers of Jesus to make radical changes in our way of life so that we can participate in the healing of wounded Earth and all of its inhabitants both human and nonhuman We are far more likely to make needed sacrifices for our fellow creatures if we share God s delight in and affection for them and cherish Earth as our home **The Golden Book of**
