The Behavioral Advantage Terry Bacon, David Pugh, 2004-05-12 Terry Bacon and David Pugh showed how great companies outperform good ones through behavioral differentiation, going beyond superior products and dependable service to connect with customers at every touchpoint. The Behavioral Advantage broadens the concept, applying behavioral differentiation to the business to business arena. The best B2B companies depend on a multifront approach to business interaction and this book reveals the secrets behind what is essentially a chess game with competitors. To win the game, companies must develop a carefully plotted opening game with the following internal factors being fully aligned: values, policies, practices and behaviors. A smart and efficient middle game lets the company build and strengthen its position and the endgame assures victory and lays the groundwork for future business. Just as individual customers do, B2B customers remember those companies whose behavior consistently and significantly outshines even strong competitors. These firms create a lasting advantage and reap the profits that come with it.

Shakespeare and Beckett Claudia Olk, 2023-01-26 The danger is in the neatness of identifications Samuel Beckett famously stated and at first glance no two authors could be further distant from one another than William Shakespeare and Samuel Beckett This book addresses the vast intertextual network between the works of both writers and explores the resonant correspondences between them It analyses where and how these resonances manifest themselves in their aesthetics theatre language and form It traces convergences and inversions across both works that resound beyond their conditions of production and possibility Uncovering hitherto unexplored relations between the texts of an early modern and a late modern author this study seeks to offer fresh readings of single passages and entire works but it will also describe productive tensions and creative incongruences between them

The Broken Window Jane Alison Hale, 1987 The author defines and analyzes the new type of theatrical perspective invented by Samuel Beckett She begins with an overview of the changes of the definition of twentieth century knowledge e.g. art science philosophy and psychology then discusses the concepts of time space and movement which underlie Beckett's notion and use of perspective in the theater The Broken Window shows how Beckett translates a number of twentieth century aesthetic and philosophical concerns the impossibility of separating subject and object the indeterminacy of time and space the inevitability

of movement and change into specific dramatic techniques and traces their evolution through close textual analyses of six plays. Hale is the first critic to define Beckett's theatrical techniques in terms of the notion of perspective and to link them to similar innovations in the plastic arts. In addition, no critic has so exhaustively elaborated Beckett's premises of indeterminacy, the inevitability of perception, and the breakdown of the subject-object relationship.

Cluttered Universes of Samuel Beckett and Tadeusz Kantor Michał Kisiel, 2025-08-08. *Cluttered Universes of Samuel Beckett and Tadeusz Kantor* is a collection of four essays bringing Kantor's and Beckett's texts, theatres, and theories into conversation with deconstruction, new materialism, environmental humanities, and posthumanism. This book is dedicated to two artists rarely discussed together to see how their awareness of poetics and performativity of matter might help us understand our connection to the material world even if the world is falling apart. Jane Bennett, Karen Barad, Rosi Braidotti, Donna Haraway, Timothy Morton, and others paved the way for new critical interpretations of canonical works which are recognised as universes cluttered with matter, objects, things, and other nonhuman visitors of seemingly exclusive human domains. Kisiel shows that Beckett's and Kantor's carefulness and care for imagining nonhuman-human relationships might refresh our understanding of memory, togetherness, death, or even the end of the world for the Anthropocene.
