From There to Here

What if it is too late to do anything for me? What if I die?  
At least I hadn't waited and watched for a year.  
At least I was on my way to have the necessary tests.

How will I ever be able to handle what lies ahead

Lissner, 2009-12      Breast Cancer: the Unplanned Journey Beverly Stacy Dittmer, 2011-09-29      **From Surviving to Metaviving** Julie Mengert, 2025-09-04 As treatments have advanced metastatic breast cancer has become a disease that some women can live with for years which has changed the language that women use to discuss living with this form of breast cancer as discussed in this book Using the framework of Celeste Condit s rhetorical formations which includes uses of metaphors topics and values among other rhetorical features the author examines how language has shifted from one of war and survivor rhetoric to that of metavivor rhetoric which includes metaphors of water and prison among others Another hallmark of this emerging rhetorical formation

is existing in a state of liminality where the cancer neither progresses nor retreats leading to women experiencing time differently By examining how women discuss living with cancer in an online breast cancer support group the author analyzes the language shifts taking place and argues that women have moved from the dominant war survivor rhetorical formation to one grounded in metavivor rhetoric Within this evolution comes an understanding of what it means to live with a chronic yet ultimately terminal illness and an acknowledgment of the impact that their lives perceived time has on these language choices

[Skiing](#), 1996-01 [Five Lessons I Didn't Learn From Breast Cancer \(And One Big One I Did\)](#) Shelley Lewis, 2008-05-06 An irreverent, funny, compassionate look at what having breast cancer means and what it doesn't. From the pink ribbons to the websites that sell related accessories and stuffed animals, breast cancer has morphed from a disease to an experience. And at every step of the way, society tells women that this experience can teach them profound lessons and maybe even give them a peek at the meaning of life. But what if it doesn't? Before Shelley Lewis got breast cancer, she was a smart, edgy network producer. After the long month of treatment ended, she was still a smart, edgy network producer. The cancer was gone, but in its place, there was no epiphany, no new perspective on life. Lewis found that for herself and other women, breast cancer was many things, but it was not necessarily an opportunity for self-improvement. It didn't teach them lessons, but surviving it did draw on hard-won life lessons they'd already learned. A wonderful interweaving of the author's personal story, interviews with breast cancer survivors, and a sharp-eyed journalist's look at the breast cancer community, this book is full of unconventional wisdom, unexpected advice, and hilarious observations about life inside the pink bubble. *Tongue Shakers* Margie Shaheed, 2016-12-07 *Tongue Shakers* provides an inside look into the state of speaking mother tongue in America's multicultural society.
