Robert D. Kaplan

FrommersR Europe:

The Unwanted Michael Robert Marrus, There have always been homeless people but only in the twentieth century have refugees become an important part of international politics seriously affecting relations between states Since the 1880s the number of displaced persons has climbed astronomically with people scattered over vaster distances and for longer periods of time than ever before Tracing the emergence of this new variety of collective alienation *The Unwanted* covers everything from the late nineteenth century to the present encompassing the Armenian refugees the Jews the Spanish Civil War migrants the Cold War refugees in flight from Soviet states and much more Marrus shows not only the astounding dimensions of the subject but also depicts the shocking apathy and antipathy of the international community toward the homeless He also examines the impact of refugee movements on Great Power diplomacy and considers the evolution of agencies designed to assist refugees noting outstanding successes and failures

The Outsiders Philipp Ther, 2019-11-26 The history of Europe as a continent of refugees European history has been permeated with refugees *The Outsiders* chronicles every major refugee movement since 1492 when the Catholic rulers of Spain set in motion the first mass flight and expulsion in modern European history Philipp Ther provides needed perspective on today's refugee crisis demonstrating how Europe has taken in far greater numbers of refugees in earlier periods of its history in wartime as well as peacetime His sweeping narrative crosses the Mediterranean and the Atlantic taking readers from the Middle East to the shores of America In this compelling book Ther examines the major causes of mass flight from religious intolerance and ethnic cleansing to political persecution and war He describes the perils and traumas of flight and explains why refugees and asylum seekers have been welcomed in some periods such as during the Cold War and why they are rejected in times such as our own He also examines the afterlives of the refugees in the receiving countries which almost always benefited from admitting them Tracing the lengthy routes of the refugees he reconceptualizes Europe as a unit of geography and historiography Turning to the history of refugees in the United States Ther also discusses the anti refugee politics of the Trump administration explaining why they are un-American and bad for the country By setting mass flight against fifteen biographical case studies and drawing on his subjects' experiences itineraries and personal convictions Ther puts a human face on a global phenomenon that concerns all of us

Fifty Years of Europe Jan Morris, 1997 In this vibrant personal journey through Europe proper historian and writer Jan Morris the world's most celebrated traveler offers an intimate exploration of the continent telling how it has changed as well as remained unalterable for the past half century

In Europe Geert Mak, 2008-06-10 From the First World War to the waning days of the Cold War a poignant exploration on what it means to be European at the end of the twentieth century Geert Mak crisscrosses Europe from Verdun to Berlin Saint Petersburg to Srebrenica in search of evidence and witnesses of the last hundred years of Europe Using his skills as an acclaimed journalist Mak locates the smaller personal stories within the epic arc of history talking to a former ticket taker at the gates of the Birkenau concentration camp or noting the neat

rows of tiny shoes in the abandoned nursery school in the shadow of Chernobyl His unique approach makes the reader an eyewitness to a half forgotten past full of unknown peculiarities sudden insights and touching encounters Sweeping in scale but intimate in detail In Europe is a masterpiece What Every American Should Know About Europe Melissa Rossi,2006-11-28 With the creation of the European Union and the introduction of the Euro Europe has undergone a dizzying transformation recently so much so that even Europeans are scratching their heads Melissa Rossi brings US readers up to date on what has changed and what makes each country tick Which European nation most adores nuclear energy Which country's residents are by far the richest Which prominent leader was once a taxi driver Why are the typically calm Dutch getting twitchy What happened to Czechoslovakia With her trademark investigative flair and wry humor Rossi gives the inside scoop on every nation in the European Union with vital facts about local culture politics tourist attractions and recent events From Portugal to Poland What Every American Should Know About Europe is a no holds barred humorous and comprehensive guide for anyone interested in what our transatlantic cousins are up to these days **Between East and West** Anne Applebaum,2017-06-13 In 1991 Anne Applebaum Pulitzer Prize winning author of Gulag Iron Curtain and Red Famine took a three month road trip through the borderlands between the fallen Soviet Union and Europe lands that became Ukraine Belarus Lithuania and Moldova In her iconic reportage which has become indispensable history she captures the harrowing story of a region that is once again threatened by Russia An extraordinary journey into the past and present of the lands east of Poland and west of Russia an area defined throughout its history by colliding empires Traveling from the former Soviet naval center of Kaliningrad on the Baltic to the Black Sea port of Odessa Anne Applebaum encounters a rich range of competing cultures religions and national aspirations In reasserting their heritage the inhabitants of the borderlands attempt to build a future grounded in their fractured ancestral legacies In the process neighbors unearth old conflicts devote themselves to recovering lost culture and piece together competing legends to create a new tradition Rich in surprising encounters and vivid characters Between East and West brilliantly illuminates the soul of the borderlands and the shaping power of the past **Europe in Danger; or an enquiry into the causes of the misfortunes of the last campaign, with the means of avoiding them in future by the commencement of decisive hostilities, etc**,1794 **Lights in the Distance** Daniel Trilling,2018-09-18 Immersive engrossing report on the European refugee crisis A mother puts her children into a refrigerator truck and asks What else could I do A runaway teenager comes of age on the streets sleeping in abandoned buildings A student leaves his war ravaged country behind because he doesn't want to kill Everyone among the thousands of people who come to Europe in search of asylum each year possesses a unique story But those stories don't end as they cross into the West In Lights in the Distance acclaimed journalist Daniel Trilling draws on years of reporting to build a portrait of the refugee crisis as seen through the eyes of the people who experienced it firsthand As the European Union has grown so has a tangled and often violent system designed to filter out unwanted migrants Visiting camps and hostels

sneaking into detention centers and delving into his own family's history of displacement Trilling weaves together the stories of people he met and followed from country to country In doing so he shows that the terms commonly used to define them refugee or economic migrant legal or illegal deserving or undeserving fall woefully short of capturing the complex realities The founding story of the EU is that it exists to ensure the horrors of the twentieth century are never repeated Now as it comes to terms with the worst refugee crisis since the Second World War its declared values of freedom tolerance and respect for human rights are being put to the test *Lights in the Distance* is a uniquely powerful and illuminating exploration of the nature and human dimensions of the crisis

The Dream of Europe Geert Mak, 2021-08-31 **Rediscovering the Path to Europe** Emmanuel Macron, George Valsamis, 2017-10-24 It's an open secret that Europe has become something boring if not burdensome which makes the appearance of Em Macron even more special and impressive Macron has a vision his vision is born out of love for Europe and makes Europe desirable He is the right man in the right time a voice that must be heard by anyone interested in a project that transforms global politics and changes the world This book offered at cost price presents two most important of Macron's texts his speech in Athens Acropolis and his speech in Paris Sorbonne where his vision for Europe is explained for the first time in such concrete and strong terms Macron's proposal is simple consistent convincing Apart from its culture Europe doesn't have a meaning and is of no interest to us but culture belongs to languages and needs the nations EU has a future only to the extent that each nation is free and strong in the union more than alone At least in modernity this cannot be achieved in a multi-national scheme if citizens are not involved directly in the shaping of their union not only by selecting representatives but with a greater dedication knowledge and responsibility Official page elpenor.org/books/macron/default.asp

The Ghosts of Europe Anna Porter, 2011-01-18 In 1989 Adam Michnik said that Central Europe came as a messenger not only of freedom and tolerance but also of hatred and intolerance It is here in Central Europe that the last two wars began Nearing the twentieth anniversary of Communism's collapse acclaimed author Anna Porter traveled to Poland the Czech Republic Slovakia and Hungary to discover whether and how democracy has taken root in these former Iron Curtain countries The former borderlands of the long defunct Hapsburg Empire and the more recently dispersed Soviet Empire have attempted to invent their own forms of democracy and capitalism However disturbing signs of old attitudes have returned bringing into question Central Europe's ability to reform its elites and to effectively control public demonstrations of hatred the rise of racial tensions and the emergence of fascist parties Porter interviewed the young and the old the winners and the losers in this grand European transformation Porter walks Wenceslas Square with those who suffered the violence of the state police and helped to organize the 89 revolution She meets with revolutionary leaders such as Vclav Havel and Adam Michnik as well as custodians of the new regimes among them Radek Sikorski Michael Koc b and Ferenc Gyurcs ny She takes us to Poland's Institute of National Remembrance and Budapest's House of Terror Museum fascinating if controversial attempts to reckon with dark periods of history She interviews the wealthiest man

in Hungary the general who ordered martial law in Poland attends an ultraright rally and visits a Gypsy village where a newly burgeoning yet all too familiar racism has destroyed a family Gradually a portrait emerges of a Europe struggling under the weight of history and memory its peoples divided over half forgotten events old ethnic rivalries borders drawn and redrawn ghosts that had lurked unacknowledged under Communism's force fed stories of peaceful coexistence and a common front toward the Western enemy Now Central European rhetoric veers between historical reckoning revisionism and the politics of retribution Penetrating fascinating and powerfully observed *The Ghosts of Europe* illuminates themes of tyranny nationalism racism and denial in nations with a tumultuous history and a future very much in the balance **The Armchair Diplomat**

Hotel Years Joseph Roth, 2015-09-03 The hotel that I love like a fatherland is situated in one of the great port cities of Europe and the heavy gold Antiqua letters in which its banal name is spelled out shining across the roofs of the gently banked houses are in my eye metal flags metal bannerets that instead of fluttering shine out their greeting In the 1920s and 30s Joseph Roth travelled extensively in Europe leading a peripatetic life living in hotels and writing about the towns through which he passed Incisive nostalgic curious and sharply observed and collected together here for the first time his pieces paint a picture of a continent racked by change yet clinging to tradition From the compulsive exercise regime of the Albanian army the rickety industry of the new oil capital of Galicia and split and scalped houses of Tirana forced into modernity to the individual and idiosyncratic characters that Roth encounters in his hotel stays these tender and quietly dazzling vignettes form a series of literary postcards written from a bygone world creeping towards world war **Fortress Europe** Matthew

Carr, 2016-01-12 Singled out by Foreign Affairs for its reporting on the brutal frontiers of new Europe *Fortress Europe* is the story of how the world's most affluent region and history's greatest experiment with globalization has become an immigration war zone where tens of thousands have died in a humanitarian crisis that has galvanized the world's attention Journalist Matthew Carr brings to life remarkable human dramas based on extensive interviews and firsthand reporting from the hot zones of Europe's immigration battles in a narrative that moves from the desperate immigrant camps at the mouth of

the Channel Tunnel in Calais France to the chaotic Mediterranean sea where African migrants have drowned by the thousands Speaking with key European policy makers police soldiers on the front lines immigrant rights activists and an astonishing range of migrants themselves Carr offers a lucid account both of the broad issues at stake in the crisis and its exorbitant human costs The paperback edition includes a new afterword by the author which offers an up to the minute assessment of the 2015 crisis and a searing critique of Europe's response to the new waves of refugees

The Unsettling of Europe Peter Gatrell, 2021-01-28 Migration is perhaps the most pressing issue of our time and it has completely decentred European politics in recent years But as we consider the current refugee crisis acclaimed historian Peter Gatrell reminds us that the history of Europe has always been one of people on the move The end of World War II left Europe in a state of confusion with many Europeans virtually stateless Later as former colonial states gained national independence colonists and their supporters migrated to often unwelcoming metropolises The collapse of communism in 1989 marked another fundamental turning point Gatrell places migration at the centre of post war European history and the aspirations of migrants themselves at the centre of the story of migration This is an urgent history that will reshape our understanding of modern Europe

Reflections on the Revolution In Europe Christopher Caldwell, 2010-07-13 In light of cultural crises such as the Danish cartoon controversy and the terrorist attack on the Charlie Hebdo newspaper in Paris Christopher Caldwell's incisive perspective has never been more timely or indispensable Reflections on the Revolution in Europe is destined to become the classic work on how Muslim immigration permanently reshaped the West This provocative and unflinching analysis of Europe's unexpected influx of immigrants investigates the increasingly prominent Muslim populations actively shaping the future of the continent Muslims dominate or nearly dominate many important European cities including Amsterdam and Rotterdam Strasbourg and Marseille the Paris suburbs and East London and in those cities Islam has challenged the European way of life at every turn becoming in effect an adversary culture In Reflections on the Revolution in Europe Caldwell examines the anger of natives and newcomers alike He exposes the strange ways in which welfare states interact with Third World customs the anti Americanism that brings European natives and Muslim newcomers together and the arguments over women and sex that drive them apart He considers the appeal of sharia resistance and jihad to a second generation that is more alienated from Europe than the first and addresses a crisis of faith among native Europeans that leaves them with a weak hand as they confront the claims of newcomers

Stalin's Nose Rory MacLean, 1992

The New Odyssey Patrick Kingsley, 2017-05-18 Europe is facing a wave of migration unmatched since the end of World War II and no one has reported on this crisis in more depth or breadth than the Guardian's migration correspondent Patrick Kingsley Throughout 2015 Kingsley travelled to 17 countries along the migrant trail meeting hundreds of refugees making epic odysseys across deserts seas and mountains to reach the holy grail of Europe This is Kingsley's unparalleled account of who these voyagers are It's about why they keep coming and how they do it It's about the smugglers who help them on their

way and the coastguards who rescue them at the other end The volunteers that feed them the hoteliers that house them and the border guards trying to keep them out And the politicians looking the other way In Europe's Shadow Robert D. Kaplan, 2016-11-01 Sweeping and replete with alluring detail a haunting yet ultimately optimistic examination of the human condition as found in Romania Alison Smale The New York Times Book Review From the New York Times bestselling author Robert D Kaplan named one of the world's Top 100 Global Thinkers by Foreign Policy magazine comes a riveting journey through one of Europe's frontier countries and a potent examination of the forces that will determine Europe's fate in the postmodern age Robert Kaplan first visited Romania in the 1970s when he was a young journalist and the country was a bleak Communist backwater It was one of the darkest corners of Europe but few Westerners were paying attention What ensued was a lifelong obsession with a critical often overlooked country a country that today is key to understanding the current threat that Russia poses to Europe In *Europe's Shadow* is a vivid blend of memoir travelogue journalism and history a masterly work thirty years in the making the story of a journalist coming of age and a country struggling to do the same Through the lens of one country Kaplan examines larger questions of geography imperialism the role of fate in international relations the Cold War the Holocaust and more Here Kaplan illuminates the fusion of the Latin West and the Greek East that created Romania the country that gave rise to Ion Antonescu Hitler's chief foreign accomplice during World War II and the country that was home to the most brutal strain of Communism under Nicolae Ceaușescu Romania past and present are rendered in cinematic prose the ashen faces of citizens waiting in bread lines in Cold War era Bucharest the Bârgan Steppe laid bare by centuries of foreign invasion the grim labor camps of the Black Sea Canal the majestic Gothic church spires of Transylvania and Maramureș Kaplan finds himself in dialogue with the great thinkers of the past and with the Romanians of today the philosophers priests and politicians those who struggle to keep the flame of humanism alive in the era of a resurgent Russia Upon his return to Romania in 2013 and 2014 Kaplan found the country transformed yet again now a traveler's destination shaped by Western tastes yet still emerging from the long shadows of Hitler and Stalin In *Europe's Shadow* is the story of an ideological and geographic frontier and the book you must read in order to truly understand the crisis Europe faces from Russia and from within *The New Superregions of Europe* Darrell Delamaide, 1994 The reader is offered a superbly insightful guided tour We visit the Latin Crescent along Europe's sunbelt the Atlantic Coast the continent's gateway the Baltic League with its trading skills Mitteleuropa Europe's pulsing and powerful heartland the Danube Basin home of past and possibly future empires the Balkan Peninsula the powderkeg of passionate pride and entrenched impoverishment the Slavic Federation with its pressing problems and awesome potential the Alpine Arc fiercely independent against all odds and privileged power centers like Paris and London castle like worlds unto themselves where the political cultural and financial strings of the world are manipulated by masters Darrell Delamaide has convincingly freed us from the blinders of conventional wisdom and the intellectual straitjacket of a modern prospective Rather he shows us a Europe that

might at first seem strange to us yet has existed far longer than the familiar Europe that is fading before our eyes Which will triumph The unified Europe of Common Market dreams A Europe split into superregions each bound together by geography and social affinity Or a synthesis of both that may well be as exciting as it is unexpected as promising as it is unpredictable For anyone interested in this question and more important in its answer The New Superregions of Europe is more than fascinating and provocative It is essential Jacket
