Frontier Passages Ethnopolitics And The Rise Of Chinese Communism 1921 1945:

Frontier Passages Xiaoyuan Liu, 2004 In this pathbreaking book Xiaoyuan Liu establishes the ways in which the history of the Chinese Communist Party was from the Yan an period onward intertwined with the ethnopolitics of the Chinese periphery As a Han dominated party the CCP had to adapt to an inhospitable political environment particularly among the Hui Muslims of northwest China and the Mongols of Inner Mongolia Based on a careful examination of CCP and Soviet Comintern documents only recently available Liu s study shows why the CCP found itself unable to follow the Russian Bolshevik precedent by inciting separatism among the non Han peoples as a stratagem for gaining national power Rather than swallowing Marxist Leninist dogma on the nationalities question the CCP took a position closer to that of the Kuomintang stressing the inclusiveness of the Han dominated Chinese nation Zhonghua Minzu The Chinese Revolution on the Tibetan Frontier Benno Weiner, 2020-06-15 In The Chinese Revolution on the Tibetan Frontier Benno Weiner provides the first in depth study of an ethnic minority region during the first decade of the People s Republic of China the Amdo region in the Sino Tibetan borderland Employing previously inaccessible local archives as well as other rare primary sources he demonstrates that the Communist Party s goal in 1950s Amdo was not just state building but also nation building Such an objective required the construction of narratives and policies capable of convincing Tibetans of their membership in a wider political community As Weiner shows however early efforts to gradually and organically transform a vast multiethnic empire into a singular nation state lost out to a revolutionary impatience demanding more immediate paths to national integration and socialist transformation This led in 1958 to communization then to large scale rebellion and its brutal pacification Rather than joining voluntarily Amdo was integrated through the widespread often indiscriminate use of violence a violence that lingers in the living memory of Amdo Tibetans and others Modern China Bruce A. Elleman, S. C. M. Paine, 2019-02-18 Now in a fully updated edition this accessible text provides a balanced history of modern China in a global context Through years of living and research in China Taiwan Japan and Russia the authors are deeply qualified to understand China s internal dynamics as well as its foreign relations over centuries Arguing that modern Chinese history cannot be understood without a deep appreciation of the outside factors that have influenced the country the authors focus on China s near neighbors especially Japan and Russia They also emphasize the tragic role of almost endless warfare throughout Chinese history Providing a unique comparative approach the authors bridge the cultural divide separating Chinese history from Western readers trying to understand it Specifically geared to the teaching requirements of the semester system the book is divided into four parts and a total of twenty eight chapters corresponding either to two chapters per week in a fourteen week semester or one chapter per week in a two semester course **Muslim, Trader, Nomad, Spy** Sulmaan Wasif Khan, 2015-03-23 In 1959 the Dalai Lama fled Lhasa leaving the People s Republic of China with a crisis on its Tibetan frontier Sulmaan Wasif Khan tells the story of the PRC s response to that crisis and in doing so brings to life an extraordinary

American relations to Trump era rising tensions The Struggle for Taiwan charts the paths to our present predicament to show what futures might be possible Down with Traitors Yun Xia,2017-12-11 Throughout the War of Resistance against Japan 1931 1945 the Chinese Nationalist government punished collaborators with harsh measures labeling the enemies from within hanjian literally traitors to the Han Chinese Trials of hanjian gained momentum during the postwar years escalating the power struggle between Nationalists and Communists Yun Xia examines the leaders of collaborationist regimes who were perceived as threats to national security and public order and other subgroups of hanjian including economic cultural female and Taiwanese hanjian Built on previously unexamined code edicts and government correspondence as well as accusation letters petitions newspapers and popular literature Down with Traitors reveals how the hanjian were punished in both legal and extralegal ways and how the anti hanjian campaigns captured the national crisis political struggle roaring nationalism and social tension of China s eventful decades from the 1930s through the 1950s **Haunted by Chaos** Sulmaan Wasif Khan,2022-07-19 Before the Communists came to power China lay broken Today it is a global force but its leaders are haunted by the past Sulmaan Wasif Khan chronicles the grand strategies that have sought to protect China from aggression and ensure it would never again experience the powerlessness of the late Qing and Republican eras *To the End of Revolution* Xiaoyuan Liu,2020-07-07 The status of Tibet is one of the most controversial and complex issues in the history of modern China In *To the End of Revolution* Xiaoyuan Liu draws on unprecedented access to the archives of the Chinese Communist Party to offer a groundbreaking account of Beijing s evolving Tibet policy during the critical first decade of the People s Republic Liu details Beijing s overarching strategy toward Tibet the last frontier for the Communist revolution to reach He analyzes how China s new leaders drew on Qing and Nationalist legacies as they attempted to resolve a problem inherited from their predecessors Despite acknowledging that religion ethnicity and geography made Tibet distinct Beijing nevertheless forged ahead zealously implementing socialist revolution while vigilantly guarding against real and perceived enemies Seeking to wait out local opposition before choosing to ruthlessly crush Tibetan resistance in the late 1950s Beijing eventually incorporated Tibet into its sociopolitical system The international and domestic ramifications however are felt to this day Liu offers new insight into the Chinese Communist Party s relations with the Dalai Lama ethnic revolts across the vast Tibetan plateau and the suppression of the Lhasa Rebellion in 1959 Placing Beijing s approach to Tibet in the contexts of the Communist Party s treatment of ethnic minorities and China s broader domestic and foreign policies in the early Cold War *To the End of Revolution* is the most detailed account to date of Chinese thinking and acting on Tibet during the 1950s **Shadow States** Bérénice Guyot-Réchard,2017 This book explores Sino Indian tensions from the angle of state building showing how they stem from their competition for the Himalayan people s allegiance Reins of Liberation Xiaoyuan Liu,2006 The author s purpose in writing this book is to use the Mongolian question to illuminate much larger issues of twentieth century Asian history how war revolution and great power rivalries induced or restrained the formation of

nationhood and territoriality He thus continues the argument he made in *Frontier Passages* that on its way to building a communist state the CCP was confronted by a series of fundamental issues pertinent to China's transition to nation statehood The book's focus is on the Mongolian question which ran through Chinese politics in the first half of the twentieth century Between the Revolution of 1911 and the Communists' triumph in 1949 the course of the Mongolian question best illustrates the genesis, clashes and convergence of Chinese and Mongolian national identities and geopolitical visions

Central Asia Adeeb Khalid, 2022-11-29 A major history of Central Asia and how it has been shaped by modern world events Central Asia is often seen as a remote and inaccessible land on the peripheries of modern history Encompassing Uzbekistan, Tajikistan, Turkmenistan, Kyrgyzstan, Kazakhstan and the Xinjiang province of China, it in fact stands at the crossroads of world events Adeeb Khalid provides the first comprehensive history of Central Asia from the mid-eighteenth century to today, shedding light on the historical forces that have shaped the region under imperial and Communist rule Predominantly Muslim with both nomadic and settled populations, the peoples of Central Asia came under Russian and Chinese rule after the 1700s Khalid shows how foreign conquest knit Central Asians into global exchanges of goods and ideas and forged greater connections to the wider world He explores how the Qing and Tsarist empires dealt with ethnic heterogeneity and compares Soviet and Chinese Communist attempts at managing national and cultural difference He highlights the deep interconnections between the Russian and Chinese parts of Central Asia that endure to this day and demonstrates how Xinjiang remains an integral part of Central Asia despite its fraught and traumatic relationship with contemporary China The essential history of one of the most diverse and culturally vibrant regions on the planet, this panoramic book reveals how Central Asia has been profoundly shaped by the forces of modernity from colonialism and social revolution to nationalism, state-led modernization and social engineering

The Wars for Asia, 1911-1949 S. C. M. Paine, 2014-10-09 *The Wars for Asia, 1911-1949* shows that the Western treatment of World War II, the Second Sino-Japanese War and the Chinese Civil War as separate events misrepresents their overlapping connections and causes *The Chinese Civil War* to precipitate a long regional war between China and Japan that went global in 1941 when the Chinese found themselves fighting a civil war within a regional war within an overarching global war The global war that consumed Western attentions resulted from Japan's peripheral strategy to cut foreign aid to China by attacking Pearl Harbour and Western interests throughout the Pacific in 1941 S. C. M. Paine emphasizes the fears and ambitions of Japan, China and Russia and the pivotal decisions that set them on a collision course in the 1920s and 1930s The resulting wars together yielded a viscerally anti-Japanese and unified Communist China, the still angry rising power of the early twenty-first century

Ethnic China Xiaobing Li, Patrick Fuliang Shan, 2015-10-16 There are some serious concerns and critical questions about the on-going minority protesting in China such as Tibetan monks' self-immolations, Muslims' suicide bombings and Uyghur large-scale demonstrations Why are minorities such as the Uyghur dissatisfied when China is rising as a world power? What kind of struggle must they go through?

to maintain their identity heritage and rights How does the government deal with this ethnic dissatisfaction and minority riots And what is ethnic China s future in the 21st century Ethnic China examines these issues from the perspective of Chinese American scholars from fields such as economics political science criminal justice law anthropology sociology and education The contributors introduce and explore the theory and practice of policy patterns political systems and social institutions by identifying key issues in Chinese government society and ethnic community contained within the larger framework of the international sphere Their endeavors move beyond the existing scholarship and seek to spark new debates and proposed solutions while reflecting on established schools of history religion linguistics and gender studies

Revolution in China and Russia Luyang Zhou,2025-06-17 Most scholars believe that China s nationality policy like that of other socialist states imitated the Soviet nationality model a system which has been termed an affirmative action empire This book offers two contributions to the literature which run counter to this convention First it argues that the People s Republic of China PRC and the Soviet Union USSR were different while the PRC was aimed to build an ideal typical nation state the USSR was an open union of nation states that was only temporarily confined to a physical territory Second while scholars who have noted this difference attribute it to contextual factors such as ethnic structure geopolitical status and Russia s intervention into the Chinese Revolution this book contends that context shaped the Sino Soviet difference yet it did not determine it Rather there was significant leeway between the implications of the contextual factors and what the policy designers ultimately established This book probes who held agency and how these individuals bridged this gap *China*

William A. Callahan,2012-02-16 China is fast becoming the next superpower a rise that presents a challenge to the world economically politically and culturally Drawing on extensive new Chinese sources Professor Callahan sheds fascinating light on how Chinese people understand their changing place and what that might mean for the world Reshaping China

Xingtao Huang,2024-09-09 This book is the first and only English language edition of Huang Xingtao s Reshaping China translated by Lane J Harris and Mei Chun In this landmark text Huang Xingtao uses a cultural approach to the history of ideas He traces the complex contours in the discursive debates around the concept of the Chinese nation Zhonghua minzu from its origins in the late Qing through the pivotal moment of the 1911 Revolution into the contentious revolutionary upheavals of the 1920s amidst the national crisis brought on by Japanese invasions in the 1930s and culminating in the widespread acceptance of the concept during the Civil War By the late 1940s the Chinese nation came to represent the idea that all peoples within the country whatever their ethnicity were equal citizens who shared common goals and aspirations

Southeast Asia in China Ying-kit Chan, Chang-Yau Hoon, 2022-11-28 As part of China's south Southeast Asia has historically assumed a peripheral position when juxtaposed against the power of the Chinese state In the existing scholarly literature the power asymmetry is reflected in the ostensible bias where most studies are about China's presence in or engagement with Southeast Asia rather than the reverse studies on the presence or influence of Southeast Asia in China have been a marginal enterprise The present volume aims to fill this void by exploring the historical entanglements and contemporary engagements of Southeast Asians in China through a Southeast Asian perspective As China seeks to understand Southeast Asia's presence in the country on its own terms it is also engaged in a process of self discovery and defining where and how it should stand in relation to the region Departing from the discourse of China as the a priori center dominating the scholarship on China Southeast Asia relations the present volume hopes to subvert such power relations in order to bring fresh perspectives on the historical and contemporary contributions of Southeast Asians in China
