Fluker, 2009 We live in a leadership crisis In an age when incompatible worlds collide and when scandals rock formerly stable institutions says Walter Fluker what counts most is ethical leadership and the qualities of personal integrity spiritual discipline intellectual openness and moral anchoring Fluker finds these characteristics exemplified in the work and thought of black church giants Martin Luther King Jr and Howard Thurman This volume for leaders and emergent leaders in religious and other settings sets forth the context and principles for ethical leadership particularly for ministries and other professions whose mission directly advances the common good Fluker s volume grounds leadership in story the appropriation of one s roots as a basis for personal and social transformation He then explores the key values of character civility and community for ethical action on the personal public and spiritual realms From these considerations he develops a model of the specific virtues that embody each realm of ethical leadership before applying them to the practical aspects of leadership and decisionmaking *The African American Pulpit*, 2000 *Words That Strengthen* Rogers Davis, 2015-09-28 The words of this publication express in words and images our passions and some of our core beliefs The project merges poetry photography and specific scriptures With corresponding scriptures that thread each piece of poetry our hope is that this collaboration of passions will make Words that Strengthen live and have strength In combination this publication will inspire and connect with your conscientiousness about a range of life s issues Our desire is to make the occasion of you opening the pages of this book an enjoyable and rewarding experience It will also provide one or more seeds of life that you will remember in a very positive way *African American Literature* Alma Dawson Ph.D., Connie Van Fleet, 2004-12-30 Will guide readers to works central to the compelling African American experience that match specific reading interests A brief history of the evolution of African American literature collection development guidelines and readers advisory tips complete this resource *Prophecy without Contempt* Cathleen Kaveny, 2016-03-07 The culture wars have as much to do with

rhetorical style as moral substance Cathleen Kaveny focuses on a powerful stream of religious discourse in American political speech the Biblical rhetoric of prophetic indictment It can be strong medicine against threats to the body politic she shows but used injudiciously it does more harm than good

Lift Every Voice and Swing Vaughn A. Booker, 2020-07-21 Winner of the 2022 Gustave O Arlt Award in the Humanities award by the Council of Graduate Schools Explores the role of jazz celebrities like Ella Fitzgerald Cab Calloway Duke Ellington and Mary Lou Williams as representatives of African American religion in the twentieth century Beginning in the 1920s the Jazz Age propelled Black swing artists into national celebrity Many took on the role of race representatives and were able to leverage their popularity toward achieving social progress for other African Americans In *Lift Every Voice and Swing* Vaughn A Booker argues that with the emergence of these popular jazz figures who came from a culture shaped by Black Protestantism religious authority for African Americans found a place and spokespeople outside of traditional Afro Protestant institutions and religious life Popular Black jazz professionals such as Ella Fitzgerald Cab Calloway Duke Ellington and Mary Lou Williams inherited religious authority though they were not official religious leaders Some of these artists put forward a religious culture in the mid twentieth century by releasing religious recordings and putting on religious concerts and their work came to be seen as integral to the Black religious ethos Booker documents this transformative era in religious expression in which jazz musicians embodied religious beliefs and practices that echoed and diverged from the predominant African American religious culture He draws on the heretofore unexamined private religious writings of Duke Ellington and Mary Lou Williams and showcases the careers of female jazz artists alongside those of men expanding our understanding of African American religious expression and decentering the Black church as the sole concept for understanding Black Protestant religiosity Featuring gorgeous prose and insightful research *Lift Every Voice and Swing* will change the way we understand the connections between jazz music and faith

Democracy and the Politics of Silence Mónica Brito Vieira, 2024-10-29 Most people equate democracy with discussion speech and making

one's voice heard But where does silence fit in Democracy and the Politics of Silence investigates the largely overlooked role of silence in democratic politics It challenges conventional wisdom by arguing that silence can support and affirm democratic pillars and outcomes like empowerment inclusion and equality The book focuses on a particular set of problems concerning the relationship between political silence and the democratic triad of voice agency and representation Each of the book's chapters draws on a selection of hand-picked case studies both historical and contemporary including the NAACP's Silent Parade in 1917 demonstrations by the Women in Black Spain's post-Franco Pact of Forgetting Trump's silent majority debates related to the representation of nonhuman beings and the famous Miranda judgment on the right to silence Together they offer an innovative ambitious investigation of democratically undesirable silences and practices of silence that are powerfully affirmative of democratic subjectivities aims and norms In thus expanding the repertoire of democratic citizenship Mónica Brito Vieira invites readers to consider what silence might teach them about democracy This timely book should appeal to political science students and scholars as well as anyone interested in the history of democracies and popular resistance movements *Who's who Among African Americans*, 2008 *Bus Ride to Justice* Fred D. Gray, 2013-01-01 Lawyer for Rosa Parks Martin Luther King Jr the Montgomery bus boycott the Tuskegee syphilis study the desegregation of Alabama schools and the Selma march and founder of the Tuskegee human and civil rights multicultural center

Protestantism in America Randall Balmer, 2005-11-18 As America has become more pluralistic Protestantism with its long roots in American history and culture has hardly remained static This finely crafted portrait of a remarkably complex group of Christian denominations describes Protestantism's history constituent subgroups and their activities and the way in which its dialectic with American culture has shaped such facets of the wider society as healthcare welfare labor relations gender roles and political discourse Part I provides an introduction to the religion's essential beliefs a brief history and a taxonomy of its primary American varieties Part II shows the diversity of the tradition with vivid accounts of life and worship in a variety of mainline and evangelical churches Part III explores the vexed relationship Protestantism maintains with critical social issues including homosexuality feminism and social justice The appendices include biographical sketches of notable Protestant leaders a chronology a glossary and an annotated list of resources for further study **The Lever of Riches** Joel Mokyr, 1992-04-09 In a world of supercomputers genetic engineering and fiber optics technological creativity is ever more the key to economic success But why are some nations more creative than others and why do some highly innovative societies such as ancient China or Britain in the industrial revolution pass into stagnation Beginning with a fascinating concise history of technological progress Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome What emerges from this survey is often surprising the classical world for instance was largely barren of new technology the relatively backward society of medieval Europe bristled with inventions and the period between the Reformation and the Industrial Revolution was one of

slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution What were the causes of technological creativity Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas He discusses a long list of such factors showing how they interact to help or hinder a nation s creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China between classical antiquity and medieval Europe and between Britain and the rest of Europe during the industrial revolution He examines such aspects as the role of the state the Chinese gave up a millennium wide lead in shipping to the Europeans for example when an Emperor banned large ocean going vessels the impact of science as well as religion politics and even nutrition He questions the importance of such commonly cited factors as the spill over benefits of war the abundance of natural resources life expectancy and labor costs Today an ever greater number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity The Lever of Riches with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential
