Huynh,2024-08-06 This book offers an in depth exploration of the childhood musical experiences of Vietnamese elders providing a unique lens on the intersections between identity culture and music education Centering the stories of five Vietnamese Americans and one Vietnamese person who grew up in Vietnam between 1931 and 1975 the author considers the role that each individual s childhood musical experiences played in their life as they were impacted by war political movements and immigrant and refugee experiences The book adds a new perspective to research on the global music practices of children by exploring music transmission and repertoire in Vietnam in the context of political unrest and colonialism before and during the Vietnam War It also explores the evolution of the personal meanings and memories of

music over a period of drastic change in each individual's life as five of six elders transitioned into a life in the United States. This book provides both an act of cultural and musical preservation and relevant implications for music education today. Situating the children's songs and games of Vietnamese culture in their original context, the author invites those in the field of music education to consider how lived experiences and entrenched systems of teaching affect music learning and identity formation. The volume includes a selection of Vietnamese children's songs, games, chants, and musicopoetic lullabies, *ca dao*, offering ways to enrich music educators' world music curricula. Relevant to music education, ethnomusicology, and Asian American studies, this book provides a nuanced account of Vietnamese children's music making of the past and presents an analysis of childhood musical experiences in a wider cultural, sociopolitical, and historical context. **Music, Education, and Multiculturalism** Terese M. Volk, 2004-10-14. Beginning with a discussion of the philosophical underpinnings of multiculturalism in education and in music education, this book traces the growth and development of multicultural music education. **The Garland Encyclopedia of World Music** Ellen Koskoff, 2017-09-25. This volume makes available the full range of the American-Canadian musical experience, covering for the first time in print all major regions, ethnic groups, and traditional and popular contexts. From musical comedy to world beat, from the songs of the Arctic to rap and house music from Hispanic Texas to the Chinese communities of Vancouver, the coverage captures the rich diversity and continuities of the vibrant music we hear around us. Special attention is paid to recent immigrant groups, to Native American traditions, and to such socio-musical topics as class, race, gender, religion, government policy, media, and technology. **Perspectives on Music, Education, and Diversity** David G. Hebert, Chee-Hoo Lum, 2025-07-26. This book is a Festschrift in celebration of Patricia Shehan Campbell's impact for more than six decades as an eminent teacher, educator, musician, and researcher in the fields of music education and ethnomusicology. Campbell's oeuvre of scholarly work is wide-ranging, spanning practical resources for music teachers to facilitate the teaching and learning of different musical cultures of the world to diverse perspectives on the musical cultures of children to the emblematic approach of World Music Pedagogy, fleshed out in the Global Music Series with Oxford University Press, the Routledge World Music Pedagogy Series, and her educational work with Smithsonian Folkways Recordings alongside her extensive work with ethnomusicologists and community musicians and scholars across the world. Notable scholars from the fields of music education, ethnomusicology, and community music, including Campbell's doctoral graduates and colleagues from across recent decades, are contributors in this Festschrift to reflect upon her scholarly work and critically dialogue on several topics: perceptions of diversity in school music and children's musical cultures; applied ethnomusicology; music education and its relation with the multicultural and social justice pedagogical approaches towards cultural diversity in music; and bridging communities and culture bearers. *The Concise Garland Encyclopedia of World Music: The Middle East, South Asia, East Asia, Southeast Asia* Ellen Koskoff, 2008.
