From The Inside Out The Rural World Of Mennonite Diarists 18631929:

Diaspora in the Countryside Royden Loewen, 2006-12-15 From the 1930s to the 1980s the North American countryside faced a profound cultural transformation in which a once unified rural society became fragmented and dispersed Families wishing to remain on the farm were required to accept new levels of automation while others unwilling or unable to make the change migrated to nearby towns or regional cities The cultural reformulation that resulted saw the emergence of a genuine rural diaspora The growing cultural and physical separation was especially true for close knit ethno religious communities Mennonites in particular Forced into regional cities the kaleidoscopic urban culture further fragmented the Mennonites into disparate social entities In *Diaspora in the Countryside* the phenomena of rural fragmentation is examined by comparing and contrasting two closely related but distinctive Dutch Russian Mennonite communities located in different parts of the continent Kansas and Manitoba respectively By systematically comparing these communities two distinctive responses to the mid twentieth century Great Disjuncture are made apparent Royden Loewen also contrasts the cultural changes of these farm families to the cultures their kin adopted in nearby towns and cities Loewen charts not only the dispersion of two rural communities but follows their former residents as they reformulate their lives in new settings **Canadian Churches and**

the First World War Gordon L. Heath, 2014-01-13 Most accounts of Canada and the First World War either ignore or merely mention in passing the churches experience Such neglect does not do justice to the remarkable influence of the wartime churches nor to the religious identity of the young Dominion The churches support for the war was often wholehearted but just as often nuanced and critical shaped by either the classic just war paradigm or pacifism s outright rejection of violence The war heightened issues of Canadianization attitudes to violence and ministry to the bereaved and the disillusioned It also exacerbated ethnic tensions within and between denominations and challenged notions of national and imperial identity The authors of this volume provide a detailed summary of various Christian traditions and the war both synthesizing and furthering previous research In addition to examining the experience of Roman Catholics English and French speaking Anglicans Presbyterians Methodists Baptists Lutherans Mennonites and Quakers there are chapters on precedents formed during the South African War the work of military chaplains and the roles of church women on the home front Mennonite

Women in Canada Marlene Epp, 2011-07-15 Mennonite Women in Canada traces the complex social history and multiple identities of Canadian Mennonite women over 200 years Marlene Epp explores women s roles as prescribed and as lived within the contexts of immigration and settlement household and family church and organizational life work and education and in response to social trends and events The combined histories of Mennonite women offer a rich and fascinating study of how women actively participate in ordering their lives within ethno religious communities **Hidden Worlds** Royden Loewen, 2001-11-30 In the 1870s approximately 18 000 Mennonites migrated from the southern steppes of Imperial Russia present day Ukraine to the North American grasslands They brought with them an array of cultural and institutional features

that indicated they were a transplanted people What is less frequently noted however is that they created in their everyday lives a world that ensured their cultural longevity and social cohesiveness in a new land Their adaptation to the New World required new concepts of social boundary and community new strategies of land ownership and legacy new associations and new ways of interacting with markets In *Hidden Worlds* historian Royden Loewen illuminates some of these adaptations which have been largely overshadowed by an emphasis on institutional history or whose sources have only recently been revealed Through an analysis of diaries wills newspaper articles census and tax records and other literature an examination of inheritance practices household dynamics and gender relations and a comparison of several Mennonite communities in the United States and Canada Loewen uncovers the multi dimensional and highly resourceful character of the 1870s migrants

Christianity and Ethnicity in Canada Paul Bramadat, David Seljak, 2008-06-14 Over the past decade scholars and policy makers interested in Canadian multiculturalism have begun to take religion much more seriously Moreover Christian communities have become increasingly aware of the impact of ethnic diversity on church life However until very recently almost no systematic academic attention has been paid to the intersection between the ethnic and religious identities of individuals or communities This gap in both our academic literature and our public discourse represents an obstacle to understanding and integrating the large numbers of ethnic Christians most of whom either join existing Canadian churches or create ethnically specific congregations In *Christianity and Ethnicity in Canada* eleven scholars explore the complex relationships between religious and ethnic identity within the nine major Christian traditions in Canada The contributors discuss the ways in which changes in the ethnic composition of these traditions influence religious practice and identity as well as how the nine religious traditions influence communal and individual ethnic identities An introductory chapter by Paul Bramadat and David Seljak provides a thorough discussion of the theoretical historical and empirical issues involved in the study of Christianity and ethnicity in Canada This volume complements *Religion and Ethnicity in Canada* in which the authors address similar issues within the six major non Christian communities in Canada and within Canadian health care education and politics

Immigrants in Prairie Cities Royden Loewen, Gerald Friesen, 2009-11-30 Over the course of the twentieth century sequential waves of immigrants from Europe Asia Latin America and Africa settled in the cities of the Canadian Prairies In *Immigrants in Prairie Cities* Royden Loewen and Gerald Friesen analyze the processes of cultural interaction and adaptation that unfolded in these urban centres and describe how this model of diversity has changed over time The authors argue that intimate Prairie cities fostered a form of social diversity characterized by vibrant ethnic networks continuously evolving ethnic identities and boundary zones that facilitated intercultural contact and hybridity Impressive in scope *Immigrants in Prairie Cities* spans the entire twentieth century and encompasses personal testimonies government perspectives and even fictional narratives This engaging work will appeal to both historians of the Canadian Prairies and those with a general interest in migration cross cultural exchange and urban history

Being Neighbours Catharine Anne

Wilson,2022-10-28 Throughout history farm families have shared work and equipment with their neighbours to complete labour intensive time sensitive and time consuming tasks They benefitted materially and socially from these voluntary flexible loosely structured networks of reciprocal assistance making neighbourliness a vital but overlooked aspect of agricultural change Being Neighbours takes us into the heart of neighbourhood the set of people near and surrounding the family through an examination of work bees in southern Ontario from 1830 to 1960 The bee was a special event where people gathered to work on a neighbour s farm like bees in a hive for a wide variety of purposes including barn raising logging threshing quilting turkey plucking and apple paring Drawing on the diaries of over one hundred men and women Catharine Wilson takes readers into families daily lives the intricacies of their labour exchange and their workways feasts and hospitality Through the prism of the bee and a close reading of the diaries she uncovers the subtle social politics of mutual dependency the expectations neighbours had of each other and their ways of managing conflict and crisis This book adds to the literature on cooperative work that focuses on evaluating its economic efficiency and complicates histories of capitalism that place communal values at odds with market orientation Beautifully written engaging and richly detailed and illustrated Being Neighbours reveals the visceral textures of rural life *Relief Work as Pilgrimage* M.J. Heisey,Nancy

Heisey,2015-08-20 In 1945 Elsie C Bechtel left her Ohio home for the tiny French commune of Lavercanti re where for nearly three years she cared for children displaced by the ravages of war Bechtel s diary photographs and letters home to her family provide the central texts of this study From 1945 to 1948 she recorded her encounters with French society and her immersion in the spare beauty of rural France From her daily work came passionate musings on the emotional world of human interactions and evocative observations of the American Spanish and French co workers and children with whom she lived As a volunteer with the Mennonite Central Committee MCC Bechtel was part of the war relief efforts of pacifist Quakers and Anabaptists In France between 1939 and 1948 MCC programs distributed clothing shared food and sheltered refugee children The work began in the far southwest of France but by the time Bechtel completed her service in 1948 had moved to the Alsace region where French Mennonites clustered Bechtel s writings emerged from a religious context that included much travel but little reflection on the significance of that travel Yet religiously motivated travel an old tradition in southwest France shaped Bechtel s life The authors consider her experiences in terms of religious pilgrimage and reflect on their own pilgrimage to Lavercanti re in 2006 for a reunion with some of the people marked by the broader effort that Bechtel joined To understand Bechtel s experiences and prose the authors examined archival sources on MCC s work in France gathered oral and written narratives of participants and researched other war relief efforts in Spain and France in the 1930s and 1940s Drawing on these various contexts the authors establish the complexity but also the significance of pilgrimage and humanitarian service as intercultural exchanges *Index de Périodiques Canadiens* ,2001 [From the Inside Out](#) Royden

Loewen,1999-10-12 Historian Royden Loewen has brought together selections from diaries kept by 21 Mennonites in Canada

between 1863 and 1929 some translated from German for the first time By skillfully comparing and contrasting a wide cross section of lives Loewen shows how these diaries often turn the hidden contours of household and community inside out The writers featured were ordinary rural people young women and grandmothers rural preachers and landless householders They include a teenaged boy who immigrated from Russia to Manitoba in 1875 as well as a successful merchant a traveling evangelist and a devout conservative church elder An elderly grandfather recounted the daily circuit of his children s homes while 19 year old Marie Schoeder wrote of her literary aspirations her secret hope that some day she would write things that have a real worth things that are worth printing and things that other folks would love to read and pay for From the Inside Out also contrasts diaries from two distinct Mennonite communities in Canada The Swiss American Mennonites in Waterloo County Ontario faced rapid urbanization while the Dutch Russian Mennonites in southern Manitoba maintained their more rural environment The diaries mirror their writers preoccupations with work and weather but they also reveal a community s social structure and round of activities such as weddings funerals and worship services In the process of diary keeping the writers sought to make sense of a dynamic and often unpredictable world Reading what they chose to record is to learn much about their culture Their writings provide glimpses of their lives their collective mindset and their history as a people
