From Yosemite To New Sinaia:

From Yosemite to New Sinaia Shari Hermes, 2001-03-01 My memoir begins describing our summer vacations in Yosemite It recounts funny episodes the various houses we rented there the friends who came to visit the meals we prepared and the short trips we took After seventeen years we found a dream house closer to home with a view of the San Gabriel mountains The mountain home was named NEW SINAIA I began keeping a journal chronicling our experiences with the mountain people our neighbors the pain of remodeling visiting friends books we read music we listened to stars and planets we observed through the telescope the hikes we took and the boaters swimmers and fishermen we watched around the lake It is a story of our family history our work and achievements our celebrations and sorrows our son s education growing from age fourteen to be a married man and father and us as grandparents **Environmental History in the Making Cristina** Joanaz de Melo, Estelita Vaz, Lígia M. Costa Pinto, 2016-10-21 This book is the product of the 2nd World Conference on Environmental History held in Guimar es Portugal in 2014 It gathers works by authors from the five continents addressing concerns raised by past events so as to provide information to help manage the present and the future It reveals how our cultural background and examples of past territorial intervention can help to combat political and cultural limitations through the common language of environmental benefits without disguising harmful past human interventions Considering that political ideologies such as socialism and capitalism as well as religion fail to offer global paradigms for common ground an environmentally positive discourse instead of an ecological determinism might serve as an umbrella common language to overcome blocking factors real or invented and avoid repeating ecological loss Therefore agency environmental speech and historical research are urgently needed in order to sustain environmental paradigms and overcome political cultural an economic interests in the public arena This book intertwines reflections on our bonds with landscapes processes of natural and scientific transfer across the globe the changing of ecosystems the way in which scientific knowledge has historically both accelerated destruction and allowed a better distribution of vital resources or as it in today's world can offer alternatives that avoid harming those same vital natural resources water soil and air In addition it shows the relevance of cultural factors both in the taming of nature in favor of human comfort and in the role of the environment matters in the forging of cultural identities which cannot be detached from technical intervention in the world In short the book firstly studies the past approaching it as a data set of how the environment has shaped culture secondly seeks to understand the present and thirdly assesses future perspectives what to keep what to change and what to dream anew considering that conventional solutions have not sufficed to protect life on our planet The World and Its Peoples Photographed and Described Rand McNally and Company, 1909 Aerial Age Weekly ,1921 **Bibliographic Guide to Maps and Atlases** .2003 The Literary Digest Edward Jewitt Wheeler, Isaac Kaufman Funk, William Seaver Woods, Arthur Stimson The World in 1900 Marc Walter, Sabine Arqué, 2007 The revolutionary photocrome Draper, Wilfred John Funk, 1930-04
