Steven Conn

From Sit Down To Lordstown The Story Of:

The Encyclopedia of Strikes in American History Aaron Brenner, Benjamin Day, Immanuel Ness, 2015-01-28 Strikes have been part of American labor relations from colonial days to the present reflecting the widespread class conflict that has run throughout the nation's history Against employers and their goons against the police the National Guard local state and national officials against racist vigilantes against their union leaders and against each other American workers have walked off the job for higher wages better benefits bargaining rights legislation job control and just plain dignity At times their actions have motivated groundbreaking legislation defining new rights for all citizens at other times they have led to loss of workers lives This comprehensive encyclopedia is the first detailed collection of historical research on strikes in America To provide the analytical tools for understanding strikes the volume includes two types of essays those focused on an industry or economic sector and those focused on a theme Each industry essay introduces a group of workers and their employers and places them in their economic political and community contexts The essay then describes the industry's various strikes including the main issues involved and outcomes achieved and assesses the impact of the strikes on the industry over time Thematic essays address questions that can only be answered by looking at a variety of strikes across industries groups of workers and time such as why the number of strikes has declined since the 1970s or why there was a strike wave in 1946 The contributors include historians sociologists anthropologists and philosophers as well as current and past activists from unions and other social movement organizations Photos a Topic Finder a bibliography and name and subject indexes add to the works appeal

[A History of America in Ten Strikes](#) Erik Loomis, 2018-10-02 Recommended by The Nation the New Republic Current Affairs Bustle In These Times An entertaining tough minded and strenuously argued The Nation account of ten moments when workers fought to change the balance of power in America A brilliantly recounted American history through the prism of major labor struggles with critically important lessons for those who seek a better future for working people and the world Noam Chomsky Powerful and accessible A History of America in Ten Strikes challenges all of our contemporary assumptions around labor unions and American workers In this brilliant book labor historian Erik Loomis recounts ten critical workers strikes in American labor history that everyone needs to know about and then provides an annotated list of the 150 most important moments in American labor history in the appendix From the Lowell Mill Girls strike in the 1830s to Justice for Janitors in 1990 these labor uprisings do not just reflect the times in which they occurred but speak directly to the present moment For example we often think that Lincoln ended slavery by proclaiming the slaves emancipated but Loomis shows that they freed themselves during the Civil War by simply withdrawing their labor He shows how the hopes and aspirations of a generation were made into demands at a GM plant in Lordstown in 1972 And he takes us to the forests of the Pacific Northwest in the early nineteenth century where the radical organizers known as the Wobblies made their biggest inroads against the power of bosses But there were also moments when the movement was crushed by

corporations and the government Loomis helps us understand the present perilous condition of American workers and draws lessons from both the victories and defeats of the past In crystalline narratives labor historian Erik Loomis lifts the curtain on workers struggles giving us a fresh perspective on American history from the boots up Strikes include Lowell Mill Girls Strike Massachusetts 1830 40 Slaves on Strike The Confederacy 1861 65 The Eight Hour Day Strikes Chicago 1886 The Anthracite Strike Pennsylvania 1902 The Bread and Roses Strike Massachusetts 1912 The Flint Sit Down Strike Michigan 1937 The Oakland General Strike California 1946 Lordstown Ohio 1972 Air Traffic Controllers 1981 Justice for Janitors Los Angeles 1990 **A Twentieth Century History of Trumbull County, Ohio** Harriet Taylor Upton,1909 *The Oxford*

Encyclopedia of American Business, Labor, and Economic History Melvyn Dubofsky,2013 As the global economic crisis that developed in the year 2008 makes clear it is essential for educated individuals to understand the history that underlies contemporary economic developments This encyclopedia will offer students and scholars access to information about the concepts institutions organizations events and individuals that have shaped the history of economics business and labor from the origins of what later became the United States in an earlier age of globalization and the expansion of capitalism to the present It will include entries that explore the changing character of capitalism from the seventeenth century to the present that cover the evolution of business practices and organizations over the same time period that describe changes in the labor force as legally free workers replaced a labor force dominated by slaves and indentures that treat the means by which workers sought to better their lives and that deal with government policies and practices that affected economic activities business developments and the lives of working people Readers will be able to find readily at hand information about key economic concepts and theories major economists diverse sectors of the economy the history of economic and financial crises major business organizations and their founders labor organizations and their leaders and specific government policies and judicial rulings that have shaped US economic and labor history Readers will also be guided to the best and most recent scholarly works related to the subject covered by the entry Because of the broad chronological span covered by the encyclopedia and the breadth of its subjects it should prove useful to history students economics majors school of business entrants as well as to those studying public policy and administration **Stayin' Alive** Jefferson Cowie,2010-09-14 Winner of the 2011 Merle Curti award an epic account that recasts the 1970s as the key turning point in modern U S history from the renowned historian A wide ranging cultural and political history that will forever redefine a misunderstood decade Stayin Alive is prizewinning historian Jefferson Cowie s remarkable account of how working class America hit the rocks in the political and economic upheavals of the 1970s In this edgy and incisive book part political intrigue part labor history with large doses of American music film and television lore Cowie with an ear for the power and poetry of vernacular speech Cleveland Plain Dealer reveals America s fascinating path from rising incomes and optimism of the New Deal to the widening economic inequalities and dampened expectations of the present **The State of the Masses** Richard F. Hamilton,James

D. Wright, 1986-01-01 Is the consciousness of Americans in the midst of dramatic transformation Or do people think and feel much the same as they have always thought and felt Do most people enjoy their work or hate it Is the American family being replaced by new institutional forms or is it much the same as it was in the 1950 s Have material values been replaced by a postmaterial consciousness in a postindustrial society Are Americans becoming more conservative less conservative or staying about the same State of the Masses asks the important questions Originally published in 1986 this prescient study evaluate the views of social critics neo conservatives neo Marxists post industrialists and the theorists of the little man who puport to describe the nature social conditions outlooks and motivations of the American populace The claims of one group are often diametrically opposed to those of another The authors make the case for which claims can be considered true and which false Hamilton and Wright analyze the contradictory claims and compares their implications with the best social science research and data available at that time They also explore the implications for theories in light of the conflicting portrait the evidence provides The authors conclude with a new perspective for understanding continuities and changes in the United States This is a prescient view of American society during turmoil and a model for how social science research can be used predictively The manuscript is wonderfully devastating G William Domhoff University of California Santa Cruz I think this is a masterful and timely piece of work a the book s message is so powerful so wide sweeping that it cannot be ignored William Form The Ohio State University Richard F Hamilton is emeritus professor of sociology and political science at The Ohio State University He has written eleven books and seventy articles mostly dealing with elite and mass politics and their interconnections including President McKinley War and Empire two volume work published by Transaction James D Wright is a professor in the department of sociology at the University of Central Florida He has published seventeen books including Armed and Considered Dangerous and Under the Gun as well as many journal articles His current research interests include violence urban poverty and inequality health and the homeless population and the divorce reform movement *Monthly Labor Review* ,1996-05 Publishes in depth articles on labor subjects current labor statistics information about current labor contracts and book reviews **Who's Got the Power** Dave Kamper, 2025-10-14 An essential and timely guide to the changing landscape of the labor movement from a veteran labor organizer The best overview of the recent labor upsurge we have yet seen This will remain a must read as the movement advances into the future Erik Loomis author of A History of America in Ten Strikes At a time of great uncertainty for American workers and their unions Who s Got the Power reminds us that unions are still a source of hope taking readers on a journey through the resurgence of the American labor movement in the wake of a pandemic that changed everything In the first two decades of the twenty first century unions seemed to be fading into history But the pandemic didn t just disrupt the workplace it reignited a movement Longtime organizer and labor historian Dave Kamper details how labor reemerged with newfound strength as workers began to question the status quo and demand more from their employers Interviewing workers and labor leaders across the country Kamper captures the

stories of those on the front lines from Frito Lay workers in Kansas and Chicago teachers to Amazon warehouse employees in New York and Detroit autoworkers offering a compelling account of how in industry after industry strikes protests and bold negotiations signaled the rise of a more coordinated effort to reclaim control over working conditions Grounding the present with rich historical examples and drawing upon his years of experience making union concepts accessible to the general reader Kamper provides a front row seat to a new wave of labor activism that isn't just about wages and benefits it's about dignity and solidarity An up to the minute look at a brand new phenomenon Who's Got the Power featuring a foreword by Association of Flight Attendants president Sara Nelson is essential reading for anyone interested in understanding the seismic changes in American labor today [America in the Seventies](#) Beth L. Bailey, 2004 The seventies witnessed economic decline in America coupled with a series of foreign policy failures events that created an air of unease and uncertainty This volume examines the ways in which Americans responded to a changing world and sought to redefine themselves **The Lies of the Land** Steven Conn, 2024-05-31 A piercing unsentimental history that boldly challenges the idea of a rural American crisis The New Yorker It seems everyone has an opinion about rural America Is it gripped in a tragic decline Or is it on the cusp of a glorious revival Is it the key to understanding America today Steven Conn argues that we're missing the real question Is rural America even a thing No says Conn who believes we see only what we want to see in the lands beyond the suburbs fantasies about moral or backward communities simpler or repressive living and what it means to be authentically or wrongheadedly American If we want to build a better future Conn argues we must accept that these visions don't exist and never did In The Lies of the Land Conn shows that rural America so often characterized as in crisis or in danger of being left behind has actually been at the center of modern American history shaped by the same forces as everywhere else in the country militarization industrialization corporatization and suburbanization Examining each of these forces in turn Conn invites us to dispense with the lies and half truths we've believed about rural America and to pursue better solutions to the very real challenges shared all across our nation How does a land tell lies Conn's premise is that our enduring image of rural America is in large part illusory also since most people in America about 75% now live in urban areas he theorizes our perception of rural life gets distorted by idealistic visions which don't correspond to reality Dayton Daily News **Alfred P. Sloan** John Cunningham Wood, Michael C. Wood, 2003 This two volume collection looks at the life and work of Alfred Pritchard Sloan Jr 1875-1966 chief executive of General Motors from 1923 to 1946 whose unique and ahead of its time management style left an indelible mark on business and management studies Also featuring an extensive bibliography this set will prove valuable to business students and researchers alike *Ramparts of Resistance* Sheila Cohen, 2006-09-20 Ramparts of Resistance examines the experience of British and US workers during the last three decades to show the urgency of the need for a new independent politics of trade unionism The twentieth century saw great changes in the trade union movement from waves of strikes in the 1970s to a battery of employer and state onslaughts culminating in the anti

union legislation of the 1980s and 1990s Looking at grassroots labour struggles Cohen explores issues of reformism trade union democracy and the political meaning of ordinary workplace resistance and puts forward ideas for change Ramparts of Resistance examines the failure of the union movement to rise to the neo liberal challenge and calls for a new politics of independent unionism and an explicitly class based renewal of workers power Coming at a time when union activity and membership involvement continues despite the odds this book is an inspiring guide to the direction that unionism should take
