From The Country Of Eight Islands:

From the Country of Eight Islands Hiroaki Sato, Burton Watson, 1986 A survey of Japanese poetry contains the works of over one hundred poets from the eighth century to the present *From the Country of Eight Islands*, 1986 *Traditional Japanese Literature* Haruo Shirane, 2007 Traditional Japanese Literature features a rich array of works dating from the very beginnings of the Japanese written language through the evolution of Japan's noted aristocratic court and warrior cultures. It contains stunning new translations of such canonical texts as *The Tales of the Heike* as well as works and genres previously ignored by scholars and unknown to general readers. This volume includes generous selections from *Manyōshū*, *The Tale of Genji*, *The Pillow Book*, *Kokinshū* and other classics of Japanese literature as well as a stunning range of folk literature, epic tales of war, poetry and no drama. The anthology offers an impressive representation of dramatic, poetic and fictional works from both high and low culture along with religious and secular anecdotes, literary criticism and works written in Chinese by Japanese writers. The wealth of classical poetry, linked verse and popular poetry is accompanied by extensive commentary. *Traditional Japanese Literature* is a companion volume to Columbia University Press's *Early Modern Japanese Literature: An Anthology, 1600-1900* and part of its four-volume history of Japanese literature. Arranged by chronology and genre, the readings are insightfully introduced and placed into their political, cultural and literary context, and the extensive bibliographies offer further study for scholars and readers. Including a wide range of classic and popular works in poetry, prose and drama, this anthology presents a definitive overview of traditional Japanese literature and deepens our understanding of classical and medieval Japanese culture. *The Japan Daily Mail*, 1875 **The Low Country**

Thomas Rimer, Robert E. Morrell, 1984 **At the Desert's Green Edge** Amadeo M. Rea, 1997-11 The Akimel O'odham or Pima Indians of the northern Sonoran Desert continue to make their home along Arizona's Gila River despite the alarming degradation of their habitat that has occurred over the past century. The oldest living Pimas can recall a lush riparian ecosystem and still recite more than two hundred names for plants in their environment, but they are the last generation who grew up subsisting on cultivated native crops or wild foraged plants. Ethnobiologist Amadeo M. Rea has

written the first complete ethnobotany of the Gila River Pima and has done so from the perspective of the Pimas themselves At the Desert s Green Edge weaves the Pima view of the plants found in their environment with memories of their own history and culture creating a monumental testament to their traditions and way of life Rea first discusses the Piman people environment and language then proceeds to share their botanical knowledge in entries for 240 plants that systematically cover information on economic botany folk taxonomy and linguistics The entries are organized according to Pima life form categories such as plants growing in water eaten greens and planted fruit trees All are anecdotal conveying the author s long personal involvement with the Pimas whether teaching in their schools or learning from them in conversations and interviews At the Desert s Green Edge is an archive of otherwise unavailable plant lore that will become a benchmark for botanists and anthropologists Enhanced by more than one hundred brush paintings of plants it is written to be equally useful to nonspecialists so that the Pimas themselves can turn to it as a resource regarding their former lifeways More than an encyclopedia of facts it is the Pimas own story a witness to a changing way of life in the Sonoran Desert Fu-so Mimi Bukuro.
