Yates, 2020-12-10 While today the military of the United Arab Emirates is described admiringly as a little Sparta just 60 years ago the only security forces in the Emirates were the armed retainers of the Ruling Sheikhs and a small British led locally raised Arab force Through a combination of direct oversight by rulers investment in its nationals engagement of expatriates and the purchase of cutting edge military hardware the UAE Armed Forces has become arguably the most capable Arab military In the last decade it has also gained considerable experience through its military operations in Afghanistan Libya Iraq Syria and Yemen This book traces the little known history of the country s military from 1951 to 2020 It provides unparalleled detail on the constituent forces that evolved into the UAE Armed Forces in 1976 and how that unified force has evolved to the present It provides essential background information on how the country s geography demographics and political system have shaped its military the enduring roles of the military and the history of each military service It also details the political and command structure governing the military and its manpower and materiel characteristics The book concludes with an explanation of how the UAE has been able to develop such a highly capable military for its size in a relatively short period of time Britain and the Administration of the Trucial States Muna M. Al-Hammadi, 2013-09-25 For over 150 years from 1820 up to the foundation of the United Arab Emirates in 1971 Britain and the emirates of the eastern Arabian Peninsula were linked by a relationship that was unique when compared to colonial models exercised elsewhere From the signing of the General Treaty with the Arab Tribes of the Gulf in 1820 through to the oil and aviation concession agreements penned during the mid to late 20th century formal treaties and agreements with the rulers of the various emirates formed the basis of Britain s long influence in the region and are discussed in detail in this study It also explores the evolution of the area s first security force in the early 1950s the Trucial Oman Levies TOL which played a key role in the security and development of the emirates The study discusses in some detail the evolution of the Trucial States Council from its formation in 1952 up to 1965 when the rulers of the emirates assumed the revolving chairmanship of the Council for the first time Through its various committees the Council played a critical role in overseeing the socio economic development of the emirates allocating and directing the developmental medical and educational aid provided by Britain Through these focus areas this book provides a unique analysis of the role played by Britain in the internal administration of the Trucial States up to 1965 offering both scholars and casual readers valuable insight into the early administrative developments which would ultimately form the foundations of the United Arab Emirates as a modern day federation Folklore and Folklife in the United Arab Emirates Sayyid Hamid Hurriez, 2013-12-16 A unique description and analysis of the domains and genres of UAE folklore including folk customs and beliefs traditional arts and crafts folk dances folk narratives and proverbs Challenging the

Ecological Modernization in the United Arab Emirates? Helena Rietmann, 2021-07-19 In 2006 the United Arab Emirates initiated the Masdar City project which was a pre planned eco city concentrating on the development and promotion of renewable energy water and waste management sustainable building transportation and material efficiency It was the flagship project of what the government considered to be a widespread environmental reform process This study examines the Masdar City project applying the analytical framework of ecological modernization with the help of five factors which help to investigate the ongoing reform process The study finds that Masdar City is more accurately described as an outcome of the Abu Dhabi government's economic diversification strategy The project is subject to the political and economic interests of the emirate's ruling family Environmental groups operating within the emirate are connected to the government and pursue policy targets determined by the government *Making Space for the Gulf* Arang Keshavarzian, 2024-04-16 The Persian Gulf has long been a contested space an object of imperial ambitions national antagonisms and migratory dreams The roots of these contestations lie in the different ways the Gulf has been defined as a region both by those who live there and those beyond its shore *Making Space for the Gulf* reveals how capitalism empire building geopolitics and urbanism have each shaped understandings of the region over the last two centuries Here the Gulf comes into view as a created space encompassing dynamic social relations and competing interests Arang Keshavarzian writes a new history of the region that places Iran Iraq and the Arabian Peninsula together within global processes He connects moments more often treated as ruptures the discovery of oil the Iranian Revolution the rise and decline of British empire the emergence of American power and crafts a narrative populated by a diverse range of people migrants and ruling families pearl divers and star architects

with much of the Middle East and where the very idea of sovereignty and legitimacy have become contested issues this comparative historical study of the varied British attempts at state creation on the Arabian peninsula offers important insights into the limits of external ambition as well as the possibilities that great power retrenchment offered to the peoples of the region The legacy of British influence in Aden and Abu Dhabi still very much resonates today this volume explains why This book was originally published as a special issue of Middle Eastern Studies *Showpiece City* Todd Reisz, 2020-10-27 Staggering skylines and boastful architecture make Dubai famous this book traces them back to a twentieth century plan for survival In 1959 experts agreed that if Dubai was to become something more than an unruly port a plan was needed Specifically a town plan was prescribed to fortify the city from obscurity and disorder With the proverbial handshake Dubai's ruler hired British architect John Harris to design Dubai's strategy for capturing the world's attention and then its investments *Showpiece City* recounts the story of how Harris and other hired professionals planned Dubai's spectacular transformation through the 1970s Drawing on exclusive interviews private archives dog eared photographs and previously overlooked government documents Todd Reisz reveals the braggadocio and persistence that sold Dubai as a profitable business plan Architecture made that plan something to behold Reisz highlights initial architectural achievements including the city's first hospital national bank and skyscraper designed as showpieces to proclaim Dubai's place on the world stage Reisz explores the overlooked history of a skyline that did not simply rise from the sands In the city's earliest modern architecture he finds the foundations of an urban survival strategy of debt wielding brinkmanship and constant pitch making Dubai became a testing ground for the global city and prefigured how urbanization now happens everywhere *Arab Family Studies* Suad Joseph, 2018-07-10 Family remains the most powerful social idiom and one of the most powerful social structures throughout the Arab world To engender love of nation among its citizens national movements portray the nation as a family To motivate loyalty political leaders frame themselves as fathers mothers brothers or sisters to their clients parties or the citizenry To stimulate production economic actors evoke the sense of duty and mutual commitment of family obligation To sanctify their edicts clerics wrap religion in the moralities of family and family in the moralities of religion Social and political movements from the most secular to the most religious pull on the tender strings of family love to recruit and bind their members to each other To call someone family is to offer them almost the highest possible intimacy loyalty rights reciprocities and dignity In recognizing the significance of the concept of family this state of the art literature review captures the major theories methods and case studies carried out on Arab families over the past century The book offers a country by country critical assessment of the available scholarship on Arab families Sixteen chapters focus on specific countries or groups of countries seven chapters offer examinations of the literature on key topical issues Joseph's volume provides an indispensable resource to researchers and students and advances Arab family studies as a critical independent field of scholarship Seasonal Knowledge and the Almanac Tradition in the Arab Gulf Daniel Martin Varisco, 2022-05-14

This book is the first in English to survey indigenous knowledge of seasonal astronomical and agricultural information in Arab Gulf almanacs. It provides an extensive analysis of the traditional information available based on local almanacs, Arabic texts and poetry by Gulf individuals, ethnographic interviews and online forums. A major feature of the book is tracing the history of terms and concepts in the local seasonal knowledge of the Gulf, including an important genre about weather stars stemming back to the ninth century CE. Also covered are pearl diving, fishing, seafaring and pastoral activities. This book will be of interest to scholars who study the entire Arab region since much of the lore was shared and continues through the present. It will also be of value to scholars who work on the Indian Ocean and Red Sea Trade Network as well as the history of folk astronomy in the Arab World. *In the Name of Oil* Ivan L. G. Pearson, 2010. Using recently declassified documents,

author Ivan Pearson argues that although the Suez Crisis was cataclysmic on many dimensions, it did not mark a precipitous turning point in Britain's ability to affect events in the Middle East decisively. Although Suez wholly undermined British prestige and revealed severe shortcomings in its military capabilities, this work states that these losses were considerably offset by the increasing ability of British policymakers to influence the United States, a country with an emerging presence in the region. *In the Name of Oil* documents the frequent bureaucratic infighting between the administration, state department and CIA on the American side as well as the way in which the British took advantage of the blurred line between communism and Arab nationalism in the Middle East to mislead the U.S. into pursuing policies that would protect the cheap oil supplied by British-owned oil giants such as the Anglo-Iranian Oil Company and the Iraq Petroleum Company. **Abu Dhabi, the**

United Arab Emirates and the Gulf Region Frauke Heard-Bey, 2016-12-31. The unexpected decision of the British Government in January 1968 to withdraw its military and diplomatic protection from the Gulf catapulted the region into the limelight. For the following five decades, the historian Dr Frauke Heard-Bey was best placed to observe subsequent developments in the Gulf, having joined her husband David, a petroleum engineer, in Abu Dhabi in 1967. Through her role over decades in the Centre for Documentation and Research, now the UAE's National Archive, Frauke Heard-Bey made use of its archives about the Gulf while taking every opportunity to travel in the area and immerse herself in the local environment. The work covers a broad spectrum, including the formation of the UAE in 1971, the subsequent development of this federation, the first oil crisis and geopolitical repercussions, urbanisation, labour migration, electoral systems, trade, the changing way of life and its implications for traditional loyalties in the Gulf states and Oman. The results of much of this work, which rely little on secondary sources, are collected in this volume, parts of which have been printed in hard-to-access journals while others are published here for the first time. *A Political Economy of Free Zones in Gulf Arab States* Robert Mogielnicki, 2021-04-13.

This is the first book-length empirical study of free zones (FZs) in Gulf Cooperation Council (GCC) countries. The volume systematically illustrates the development processes behind FZs in Gulf Arab states and assesses the impact of these commercial entities on regional integration, global trade and investment trends and the Gulf's foreign relations. In the process

the work maps how economic strategies involving FZs evolve alongside varying levels of resource availability and state capacity on a local level while also revealing how development paths in Gulf Arab states are linked to regional and global accumulation circuits FZ development is an under examined topic in the wider literature on the Gulf The empirical findings and theoretical implications of the work therefore offer an original contribution to prevailing political economy discussions concerning the Gulf region
